School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

School Vision and Mission

Sunnyslope's mission is to equip students with the critical thinking, communication, collaboration, creativity, and technological skills necessary to enable them to compete globally. Our staff is committed to helping each student develop his or her maximum potential regardless of cultural, academic, and socioeconomic background. Teachers work to develop a growth mindset in each of our students. At Sunnyslope, we embrace, "Learning without Limits" as we promote academic achievement.

School Profile

Describe The students and community and how school serves them.

The Story

Sunnyslope is one of sixteen TK-6 elementary schools in the Jurupa Unified School District. There is also one TK-8th grade school. The district is a unified TK-12 district encompassing 44 square miles in Riverside County. Sunnyslope Elementary is located in the city of Jurupa Valley, California. Sunnyslope is one of four elementary sites to host a Dual Language Immersion program, where students become bilingual and bi-literate in both English & Spanish. The program is integrated within our school. We have 18 Dual Immersion classes and 15 monolingual English classes, from TK to Sixth Grade. The school year is 180 traditional days of which 37 are minimum days to support teacher collaboration. The entire staff is dedicated to providing an environment that promotes and reinforces a safe campus so that each student can attain his or her potential. Sunnyslope is a closed campus with an inviting and welcoming environment for students, staff, parents, and community members.

All of the Local Control Accountability Plan-LCAP Priorities are addressed in the School Plan under three focus areas. Learning Outcomes, Student Achievement, and Engagement. The Local Control Accountability Plan (LCAP) addresses college and career readiness; data-driven decision-making; safe, orderly environment; and parent, student & community engagement. Sunnyslope's enrollment is approximately 877 students, including Pre-School through Sixth grade. Sunnyslope also has 2 Special Day Classes for Preschool students who have special needs and an Individual Educational Plan. The school has a culturally and linguistically diverse population with the main ethnic representation being 92.53% Hispanic, 3.27% White, and 1.52% African American. The school population includes 39% English Language Learners (ELLs) & 79% percent of students are socio-economically disadvantaged.

Dual Immersion is a unique educational program designed to develop bilingualism and biliteracy in English and the target language. Sunnyslope's target language is Spanish. This is a voluntary program. Instruction is provided by highly trained and specialized teachers. Students learn California standards in all subject areas, and become linguistically and academically fluent in both languages. The program follows the 90/10 model of Two Way Immersion (TWI). The first number refers to the amount of instructional time initially spent for instruction in the target or non-English language in kindergarten. The second number refers to English. In a 90:10 model the amount of the target language decreases yearly as English increases until there is a 50:50 balance of the languages generally in grades four through six. English time must be carefully defined and implemented. High-quality curriculum and instruction are essential. Research indicates that when programs are fully implemented according to the program design and fidelity, English learners in 90:10 models score as well as or better than their peers in other programs in English tests (Lindholm-Leary, 2001; Dual Language Education, Multilingual Matters LTD).

SPSA Highlights

Identify and briefly summarize the key features of this year's SPSA.

The SPSA for Sunnyslope aligns with the LCAP goals of College and Career Readiness; Safe, Orderly, and Inviting Learning Environments; and Student and Community Engagement.

Key features include:

- 1) Dual Language Instruction
- 2) Continuing development of AVID initiatives to support school-wide implementation
- 3) Focus on foundational skills in Reading
- 4) Furthering Math practices and refining instruction aligned to California State Standards
- 5) Focus on conceptual knowledge and rigorous problem-solving techniques.
- 6) Further developing Integrated ELD practices enhanced with academic language structures
- 7) Continuing development of Positive Behavior Programs and Social Emotional Learning to support school culture, safety, and a positive learning environment
- 8) Trauma-Informed Training with support of Behavioral Health Specialist
- 9) Increase implementation of technology and making activities to transform learning experiences for student

Review of Performance – Comprehensive Needs Assessment

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward SPSA goals, local self-assessment tools, stakeholder input, or other information, what progress is the school most proud of and how does the school plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

Greatest progress includes growth in English Language Arts and Math. The growth can be attributed to continued professional development in guided reading, math, AVID implementation, and inclusion practices. The continued emphasis in teaching reading throughout the grade levels and in different subjects will effectively address the California State Standards to continue to guide instruction. NWEA data also showed growth in English Language Arts and Math. We had the greatest gains in math.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the school received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the school has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the school planning to take to address these areas with the greatest need for improvement?

Greatest Needs

Our greatest needs include English Language Arts and Math. We scored overall in the Low band for English Language Arts and Math. As we plan ahead, personalizing instruction will be key so that all students get what they need in a smaller group. We will continue with 2 reading intervention teachers next school year and 1 math intervention teacher. Student data will guide our next steps as we build systems that include consistency in teaching and learning.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the school planning to take to address these performance gaps?

Performance Gaps

Our English Learner students showed the greatest disparities in their academic growth according to the most recent California Dashboard results. Currently they are 77.8 points below the standard in English Language Arts and 84.1 points below the standard in math. Additional training and support is needed with English Learners as we plan ahead. We will also hire another bilingual aide to support our full day TK/K expansion. We will implement and focus on the instruction of EL's. A continued focus on writing will also continue to strengthen reading. We will also explore IAB's as we build best practices. Our students with disabilities also scored in the very low range. Inclusive practices will continue to be supported as we plan ahead.

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Additional Targeted Support and Improvement

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

As a Title I Schoolwide program, a Comprehensive Needs Assessment is completed annually. Stakeholders are directly involved with the SPSA creation and evaluation. Sunnyslope's SPSA includes strategies that support state standards and address the needs of all children. The SPSA addresses the needs of students who are at risk of not meeting grade-level standards and the significant subgroups. Our SPSA implementation is monitored and evaluated by the Leadership team, School Site Council and English Language Learner Advisory Committee. Attendance at SBCP meetings, principal meetings, and annual Budget/Program meetings also provide support for monitoring and evaluating the SPSA. The SPSA is revised to ensure continuous improvement based on data analysis of student learning needs as part of the school's ongoing practices and identification of support strategies. All Title I funding supplements and does not supplant services that students would otherwise receive if not participating in a Title I program. Relative to LCAP alignment, our plan is directly coordinated with district LCAP goals, associated services, and planning requirements.

Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

At Sunnyslope, our educational partners provide SPSA planning input. We work closely with staff, parents, and community members. In addition, the English Language Advisory Council and School Site Council members are included in the SPSA development.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Resource inequities include staff to support the number of students that we have. We also do not have the space to engage students with other activities that support social-emotional learning or outside curricular activities. The lack of space is evident when we try to plan and bring programs for our students. In order to help with the number of students who require additional support, resident subs are assigned to help in the classroom in the area of math. In addition,

additional targeted support and improvement will be needed for students with disabilities and our white student subgroup. A focused approach on differentiation of systems and instruction is key as we plan ahead.

School and Student Performance Data

Student Enrollment Enrollment By Student Group

Student Enrollment Enrollment By Grade Level

Student Enrollment by Grade Level			
Grade	Number of Students		
	20-21	21-22	22-23
Kindergarten	156	156	138
Grade 1	113	123	138
Grade 2	113	110	112

Grade 5	108	116	113
Grade 6	117	111	112
Total Enrollment	856	852	841

Conclusions based on this data:

1. Our enrollment continues to grow. Despite virtual learning and COVID, our site continues to show steady enrollment growth.
2. Our Transitional Kindergarten data is not displayed but with all day Transitional Kindergarten and Kindergarten, it is expected that our enrollment will continue to increase.
3. Data displayed does not include SDC Preschool. We have two SDC classes at Sunnyslope and state headstart as well.

Reclassified Fluent English Proficient (RFEP)	11			3.3%	3%	

Conclusions based on this data:

1. The overall percentage of English Learners has increased slightly.
2. Although the overall percentage of English Learners has increased slightly, the overall percentage of students as fluent english proficient has decreased.
3. A focus on English Learners is necessary to ensure that our English Learners are reclassified as Fluent English Proficient.

Conclusions based on this data:

1. Overall, writing is an area of need. Forty-one percent of students scored below the standard in writing.
2. Reading continues to be an area of need as well. We will focus on using diagnostic and formative assessments to guide small group reading instruction.
3. Creating systems that individualize instruction will be key in moving students.

Conclusions based on this data:

1. We need additional math PD support for our teachers as we adopt a new textbook and analyze data by grade level.

2. A continued focus on math by grade level is essential to ensure our students continue to grow.
3. A math support teacher will continue with small group instruction as well as provide math ideas/lessons as we support further math PD.

Conclusions based on this data:

1. Most English Learners scored in the somewhat/moderately developed stages of language acquisition. Students scored higher in listening and speaking than in reading and writing.

2. Our focus will continue to be the instruction of English Learners, specifically in the areas of reading and writing.

3. Professional development with EL's as a focus will continue next school year.

School and Student Performance Data

Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

2021-22 Student Population

Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth
852	75.8	39.8	1.1

Total Number of Students enrolled in Sunnyslope Elementary School.

Students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

Students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

Students whose well being is the responsibility of a court.

2021-22 Enrollment for All Students/Student Group

Student Group	Total	Percentage
English Learners	339	39.8
Foster Youth	9	1.1
Homeless	2	0.2
Socioeconomically Disadvantaged	646	75.8
Students with Disabilities	64	7.5

Enrollment by Race/Ethnicity

Student Group	Total	Percentage
African American	9	1.1
American Indian	1	0.1
Asian	9	1.1

Enrollment by Race/Ethnicity		
Student Group	Total	Percentage
Filipino	5	0.6
Hispanic	778	91.3
Two or More Races	6	0.7
Pacific Islander	2	0.2
White	31	3.6

Conclusions based on this data:

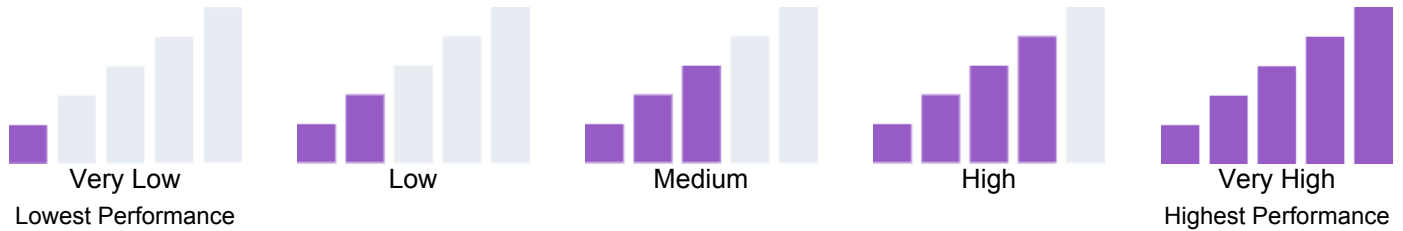

1. We have a diverse student population which indicates equity practices in all areas needs to continue to be at the center.
2. The largest student subgroup includes socioeconomically disadvantaged students. Students need the same opportunities in order to compete globally.
3. English Language Learners is the second largest subgroup. We will continue with a focus on English Learners.

School and Student Performance Data

Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

2022 Fall Dashboard Overall Performance for All Students

Conclusions based on this data:

1. Although we have had slight gains in chronic absenteeism, we continue to discuss and engage students so that they are in attendance.
2. Our focus in all areas of the organization continues to be academic. Personalizing instruction will be key as we build excellence.

3. English Learners are in the medium status level. Analyzing data analytically will help with making gains in the community we serve.

Current English Learner	Reclassified English Learners	English Only
105.4 points below standard 164 Students	4.8 points below standard 62 Students	43.1 points below standard 193 Students

Conclusions based on this data:

- Two subgroups scored in the very low range. That is, English Learners and Students with Disabilities scored very low. Our inclusive practices as well as continued PD will support our students with disabilities. We will also continue with creating an EL Task Force as we plan ahead.

2. Socioeconomically Disadvantaged and hispanic students scored in the low range. This is evidence that we need to refine our organizational practices and look at first best instruction.
3. Knowing where students are and ensuring they get what they need is essential to their overall growth and development.

Current English Learner	Reclassified English Learners	English Only
107.1 points below standard 164 Students	23.3 points below standard 62 Students	72.6 points below standard 193 Students

Conclusions based on this data:

- Students with Disabilities scored in the very low range. Our inclusive practices will help in making academic gains.
- English Learners and Socioeconomically Disadvantaged students scored in the low range in math. Knowing student strengths and weaknesses will help us in making gains.

20.9%	28.3%	0.8%	50.0%

Conclusions based on this data:

1. English Learner performance level was in the medium range. A focus on EL's will move our students to continue to make academic gains.
2. We will use Ellevation as a tool to help us in making instructional decisions for English Learners.

3. Differentiating the instruction for English Learners will help our students continue to make gains.

2022 Fall Dashboard Chronic Absenteeism by Race/Ethnicity

Conclusions based on this data:

1. All student groups are in the very high group of chronic absenteeism.
2. Incentives and resources for students and families will be a priority as we work together to improve attendance.
3. Building positive relationships, engaging students, and working with families will be a focus as we analyze the root cause of absences.

2022 Fall Dashboard Suspension Rate for All Students/Student Group

2022 Fall Dashboard Suspension Rate by Race/Ethnicity

Conclusions based on this data:

1. We will analyze reasons and find alternative solutions to suspending students with disabilities since they were the only student group in the medium range.
2. Socioeconomically disadvantaged students were suspended at a low rate. We will focus on other means of correction.
3. As a site we are implementing PBIS with a new vision. Our BSEL coordinator and PBIS leadership team have been attending meetings with RCOE and are planning on launching next school year.

Goals, Strategies, & Proposed Expenditures

Goal 1.0

College and Career Readiness

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 4: Pupil Achievement (Pupil Outcomes)
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:

Identified Need from the Annual Evaluation and Needs Assessment:

Analysis of CAASPP data indicates additional professional development needs to take place. Although there were gains in math, release time needs to be provided to delve deeper into the ELA claims. An overview of NWEA strengths and areas of improvement has been discussed through staff meetings. The vertical planning has indicated areas of strength and strategies used that helped our students overall. We have also analyzed areas of needed growth as we plan ahead. A closer look at each grade level's strengths and areas of growth will need to be planned as we look ahead.

AVID implementation and refinement will continue as we attend Summer Institute this summer. New teachers will also be attending this summer. This is essential as we are an AVID elementary site. Those teachers who are not able to attend in the summer will attend during the school year through path training if available. Collaboration with the site coach will also continue as we plan ahead.

Intervention teachers will continue to work with students at all grade levels. We are making a conscious effort to address staff input in ensuring intervention is consistent. One teacher will service English classes while the second teacher services our Dual Immersion classes. Data triangulation will be a part of our grade-level release days as we analyze data, set goals, and move students ahead. Small group instruction will continue with the support of an intervention teacher and bilingual aide. This small group support will benefit students at all levels.

CAASPP analysis also indicated the need for math intervention, specifically in the upper grades. We are making changes to ensure that our math intervention teacher is servicing our neediest students. With district support, we are able to have a math intervention teacher.

We will continue with inclusion practices as we analyze our California Dashboard and ATSI results. Students with an IEP continue to show growth with inclusion practices.

We plan to use IAB's as we target specific skills, particularly in the area of math.

Goals, Strategies, & Proposed Expenditures

Goal 2.0

Safe, Orderly and Inviting Learning Environment

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

Local Priorities:

Identified Need from the Annual Evaluation and Needs Assessment:

Due to the rise in chronic absenteeism, additional funding will be used to provide attendance incentives next year since as a District we did not provide awards for attendance this year. One class at every grade level will be recognized monthly for the highest attendance rate. In addition, students who are present every day each month will receive a small incentive. To add to the feeling of school safety, one Activity Supervisor's hour will increase to support student supervision. Activity Supervisors will receive training on PBIS/SEL strategies to support student conduct.

Expected Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
P5 School attendance rate	Average Daily Attendance by grade level: TK: 85.98% K: 87.80 First: 90.89 Second: 92.97 Third: 90.87 Fourth: 91.40 Fifth: 92.31 Sixth: 94.02 Saturday School Attendance September 2022 – 26 October 2022- 48 October 2022- 35 November 2022 - 48 December 2022 – 60 January 2023 – 63 February 2023 - 44 March 2023 - 74 April 1, 2023 - 116	Attendance is expected to increase as we continued the school year. Attendance improved slightly by the end of the school year. Attendance and tardies will continue to be tracked. Our goal is to increase by 5%. Weekly message broadcasts are made to parents of the classes with the highest attendance rates as well as upcoming events for the week. We have also had attendance incentives throughout the school year in an effort to improve attendance.

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
P5 Chronic Absenteeism rate	2022-2023 Chronic Absentee Data Dashboard Results: Overall Performance Band: Very High (37.7%) English Learners: Very High (37.7%) Socioeconomically Disadvantaged: Very High (40%) Students with Disabilities: Very High (41.9%)	Our school average was still below the District, County and State. We plan to decrease chronic absenteeism by 3%.
P6 Pupil Suspension rate	2022-2023 Suspension Rate: 5 students were suspended	We plan to improve the suspension rate from this year since we did have 7 suspensions this year.
P6 Surveys of pupils, parents, teachers on sense of safety - LCAP Survey	LCAP Survey: Student: "How often do you worry about violence at your school?" 49% responded favorably (almost never or once in a while) Parent: How big of a problem is the following issue for becoming involved with your child's current school? 100% responded favorably (not a problem at all or a small problem) Staff sense of safety and school climate: How positive are the attitudes of your colleagues? 44% responded positively or quite positively	Increase student sense of safety by 5%. Increase parent satisfaction, sense of safety, and perception of a welcoming environment by 5%. Increase staff sense of safety and school climate by 5%.
P6 School Environment, School Connectedness, and Academic Motivation -LCAP Survey	How often do your teachers seem excited to be teaching your classes? 68% responded frequently or almost always	Increase the previously noted indicators by 5% for students to receive extra support.

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
P6 Survey of parents on Diversity.-LCAP Survey	For this school or district to be successful over the next three years, how important is it to focus on...diversity and inclusion of all students? 86% responded quite important or extremely important	Increase the previously noted indicators by 5% for parents to feel we are improving on diversity and inclusion.

Goals, Strategies, & Proposed Expenditures

Goal 3.0

Parent, Student and Community Engagement

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)

Local Priorities:

Identified Need from the Annual Evaluation and Needs Assessment:

Increase parent communications through Q Communications, Parent Square, social media platforms, and a new marquee are needed to keep parents aware of school events and their child's progress. In order to ensure parents are receiving school communication we will need to monitor Parent Square engagement data reports and respond to correcting parent notification information when it occurs.

Pairing parent workshops and meetings with school functions will be increased to promote higher levels of parent involvement. More staff time dedicated to sharing efforts to engage parents and staff. Welcoming parents on-campus through Booster Club, parent volunteering, parent workshops, and school events will be a key feature to increasing parent involvement.

We will also implement Latino Family Literacy program to engage programs and instill the love of literacy in the home. Family Literacy opportunities will also be incorporated during the school day and after school.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

A focus on student data will continue to guide instruction. Personalizing instruction will guide our next steps by knowing where are students are. We have continued with a focus on social-emotional well-being by conducting morning meetings and having a Behavior Health Associate assigned to our site. This school year teachers were able to participate in additional professional development such as TWIG, Ellevation, GLAD training, LTRS, and Grassroots training. Our Dual Immersion teachers were able to participate in professional development focused on writing. AVID implementation continued through the use of an agenda or calendar for organization, note-taking, and home-to-school communication.

Best first instruction and learning in our classrooms have been the focus as we continued this school year. Guided Reading has also continued to be a focus as we work to meet students at their instructional level. Small group instruction with an intervention teacher and Bilingual Language Tutors has provided a reading focus at student’s instructional level. Intervention teachers push in during the school day. This was also the first year we added a math intervention teacher.

A continued focus on English Learners will guide our next steps. Culturally responsive teaching and a focus on student data will also continue. Guided Reading and small group support help all students including students with an IEP and English learners.

As we plan ahead, we will look at areas of strength and areas of needed growth to plan our academic professional development plan for next school year. We will also use the data shared through the Principal Transition Workshop surveys to guide our next steps. A collaborative and shared decision-making model will be implemented as we plan our next steps.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

As we plan ahead, we are analyzing student data holistically and analytically. NWEA and CAASPP results show continuous improvement in English Language Arts and Math. They also show our areas of strength and areas of improvement. Professional Development for the following school year will target and focus on the areas where we need to improve.

The overall effectiveness of activities, programs, and strategies continue to be aligned to ensure students succeed. Ensuring that reading components are addressed and taught via a small group will continue to be a focus. Providing scaffolded writing instruction will also guide our students.

Goal setting will also continue. As we receive ELPAC, NWEA, and CAASPP scores, we will continue to adjust our goals.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

One time ESSER funds will be used. The collaborative process with educational partners is on-going but some of the key changes include adding books and materials to our library. We are also incorporating flexible seating in classrooms.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In order to accelerate student learning and continue with closing the gap created by distance learning, we will focus on personalizing instruction. The need for professional development in the area of cooperative learning groups is needed as students work to collaborate together. Considering a trainer-of-trainer model for Kagan cooperative learning structures will benefit students and staff. Release time to engage and dialogue NWEA data is also needed.

AVID implementation and refinement will continue as we receive funds. If PATH trainings are available, we will also continue to promote so that additional teachers are able to attend. Collaboration with site coach will also continue.

Intervention teachers will work with students at all grade levels. We do need to change our current intervention schedule based on student needs for the following school year. Data triangulation will occur as we monitor student progress and document progress through the SST process. Bilingual Language Tutors will also support this initiative as groups of students are smaller when the intervention teacher, Bilingual Language Tutor, and general education teacher all push in.

Inclusion practices will continue at Sunnyslope. Inclusive practices are effective as this student group has shown great gains. As we analyze our student groups, Additional Targeted Support and Improvement (ATSI) revealed that students with disabilities and our white subgroup needed additional targeted support based on performance outcomes.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

We have continued to support and promote attendance and student engagement. After our 2nd-trimester report cards, we took note of students with excessive absences. We have also shared attendance data with our leadership team to make all educational partners aware of our attendance. Positive relationships continue to be a part of our school culture.

Weekly messages are made to parents with the announcements for the upcoming week through Parent Square. Teachers use Parent Square and Class Dojo to communicate as well. Awards assemblies have continued this school year. We have revised the criteria so that students are recognized for academic excellence every quarter. Flyers and invitations are posted through PeachJar, Parent Square, or Class Dojo. When attendance is not improving, meetings are held with parents. SART contracts and SARB meetings have been held.

Social-emotional learning was implemented and continues to be a part of the daily schedule. Our student council has also had school-wide activities as we promote a positive culture. Students and staff were encouraged to participate in school spirit days planned and promoted by our student council.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Attendance rates have increased slightly as the school year has progressed. This includes our Saturday School numbers to help with absenteeism. Although we are not at the numbers prior to the pandemic, our numbers have increased slightly. We continue to hold SART and SARB meetings. We also make phone calls, establish positive relationships, create a welcoming environment for students, and motivate students through various incentives. We have incorporated Learning Without Limits to our attendance message for parents as well.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

We will continue with attendance incentives for students. Activity supervisors and health care aides continue to support students.

Differences in proposed materials and estimated expenditures will be different this school year as we continue to spend ESSER funds. The collaborative process with educational partners is on-going.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

An increase in expenditures related to an intern will be needed. Students social-emotional well being will need to be addressed and monitored to make an impact on student achievement. Student social-emotional well-being will be key in addressing learning needs. Prior data indicated that when there is an intern/counselor assigned to the site, suspensions decrease. Due to a full day TK and Kinder next school year, we will need additional staffing to help with Kinder supervision during recess and lunch.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Parent involvement and outreach continues to be a key factor in student success. Communication takes place in English and Spanish and translation services are offered during parent/teacher meetings. Our office staff is also bilingual and are able to support parents and students. We communicate through Parent Square, social media, flyers, PeachJar, Remind, and Class Dojo.

Student engagement has continued through awards assemblies. Student Council also continued with promoting school events and engaging students. Extended Learning Opportunities have been offered this school year and our students benefit from the additional learning time. We have also differentiated our ELO program to include GATE students. In addition, we have successfully had events such as Family Math and Literacy Nights and STEAM nights. Our band programs have also been highly successful as these programs have high participation. Our 100 Mile Club has also been a positive program to help our students in reaching personal, healthy goals.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Attendance rates have improved slightly as the school year has progressed. Although we are not where we were prior to the pandemic, our numbers have increased slightly. We have continued with weekly message broadcasts, phone calls, parent meetings and continued communication on the importance of attendance. We will also continue to incorporate Learning Without Limits to our attendance practices as we continue to partner with families on the importance of attendance.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

As we plan for parent engagement, expenditures will occur as a result. We will be planning literacy days during the school day for TK and Kindergarten. As we look to implement a full day in TK and Kindergarten, we will incorporate parent opportunities. We will also look into temporary assistance as we implement a full-day TK and Kinder schedule. Additional engaging activities this school year have been incorporating Fun Fridays and our 100 Mile Club.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

An increase in expenditures related to an intern will be needed. Students social-emotional well-being will need to be prioritized and monitored to make an impact on student achievement. Student social-emotional well being will be key as we address learning needs.

Funds to support Family Literacy will be needed to make systemic changes. Books and student literature related to culturally responsive teaching will create an environment where families establish a reading routine and enjoy learning activities that promote vocabulary development.

Budget Summary and Consolidation

The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Ilsa Crocker	Principal
Zoe Garcia	Classroom Teacher
Jacklyn Johnson	Classroom Teacher
Esmeralda Koslik	Classroom Teacher
Yesenia Bravo-Carmona	Other School Staff
Lilian Vargas	Parent or Community Member
Christine Alcala	Parent or Community Member
Marcela Castillo Gonzalez	Parent or Community Member
Iris Bustamante	Parent or Community Member
Gina Gurrola	Classroom Teacher

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature

Committee or Advisory Group Name

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 5/25/2023.

Attested:

Principal, Ilsa Crocker on 5/25/2023

SSC Chairperson, Zoe Garcia on 5/25/2023

Educational Partner Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the Annual Evaluation and Update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Evaluation and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Evaluation and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
 - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
 - b. use effective methods and instructional strategies based on scientifically based research that
 - i. strengthen the core academic program in the school;
 - ii. provide an enriched and accelerated curriculum;
 - iii. increase the amount and quality of learning time;
 - iv. include strategies for meeting the educational needs of historically underserved populations;
 - v. help provide an enriched and accelerated curriculum; and
 - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
 - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Evaluation and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
 - a. strategies to attract highly qualified teachers;
 - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
 - c. the devotion of sufficient resources to effectively carry out professional development activities; and
 - d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Educational Partner Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - a. Ensure that those students' difficulties are identified on a timely basis; and
 - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
