a. Recognize Rhonda Fuller, FFA Advisor, Rubidoux High School

(Dr. Wilson)

Under the leadership of Ms. Rhonda Fuller, Rubidoux High School's FFA Chapter has qualified for a Project Growth Award from the California Association of Future Farmers of America. The Chapter also qualified for special recognition in that membership has increased at least 10% over last year.

Project Growth recognizes the outstanding efforts of agriculture teachers who are making a "Teacher Difference." Ms. Fuller is one of 72 teachers, out of 300 nominations by students from chapters throughout the State, being recognized in 1992 as California FFA's Outstanding Advisors. A ceremony will be held during the State Conference on May 2, 1992, Cal Poly State University in San Luis Obispo.

Ms. Fuller will be present at the meeting to receive a plaque in recognition of this fine achievement.

These teams won the right to compete in the district event after winning preliminary rounds against five other elementary school participating in the contest. ACTION SESSION

* A. Approve Minutes of the March 30, 1992 Regular Meeting

Recommend approval as printed.

* B. Adopt Board Proposal to National Education Association-Jurupa (Mr. Campbell)

In prior meetings, the Board has received and reviewed a proposal from NEA-J regarding working conditions for certificated bargaining unit employees. The Board has also reviewed and announced its proposal in response. Subject to any changes directed by the Board after public comments in the public hearing session, administration recommends adoption of the Board's proposal as printed in the supporting documents as a basis for negotiations.

* C. Adopt Resolution #92/27, Opposing Parental Choice/Scholarships Initiative (Dr. Wilson)

The Delegate Assembly of the California School Boards Association (CSBA) has voted unanimously to oppose the 1992 Voucher Initiative. In general, under this system the government would provide parents with a voucher to pay for their child's education at the school of their choice which could impact state funding of public schools and result in net losses to public schools.

Although school funds must not be spent urging others to oppose the measure, it is perfectly proper for the Board to take a position opposing the initiative and to adopt and disseminate a resolution to that effect.

* C. Adopt Resolution #92/27, Opposing Parental Choice/Scholarships Initiative

(Cont'd)

CSBA has provided the District with a package of information concerning the initiative. This has been included in Board members' agenda packets. An Executive Summary of the supporting and opposing arguments outlined in the CSBA package of materials has been included in the supporting documents along with a resolution opposing the initiative.

Recommendation: Adopt Resolution #92/27, Opposing Parental Choice/Scholarships Initiative.

D. Approve Intent to Apply for a Title VII Transitional Bilingual Education Grant

(Mrs. Roberts)

During the last five years, the district has experienced a sharp increase in the number of limited English proficient (LEP) students. The Annual Language Census contained in the information report section of this agenda reflects a twenty percent increase in this population in one year. In 1987, there were 706 LEP students in the district; in five years, this number has increased to 2,186 representing a 67% increase. This growth has meant that the district has been required to either hire staff, bilingual teachers and tutors or ask existing staff to be designated as "bilingual teachers in training" and to enroll in programs leading to bilingual certification.

Since limited English proficient students represent 14 percent of the district's population, it is critical that the staff determine effective methods to transition these students into the English language as quickly as is practical. The Bilingual Coordinator is requesting permission to prepare an application to apply for federal Title VII funds to develop a model transitional bilingual program. Since the majority of the LEP students are concentrated at the primary level, the focus of the grant proposal would be at these grades. Current guidelines for Title VII programs allow school districts to apply for up to \$300,000 per year for three years. This is a highly competitive process and requires a carefully crafted proposal based on sound research. In addition, the proposal must demonstrate that the projected activities could be replicated in other settings and that the district has the capacity to continue the activities when the federal funds are no longer available.

If the Board grants approval to prepare an application for a Title VII grant, the request would be submitted in December, 1992; however, it is critical that the staff begin the planning process immediately since the granting agency requires both staff and parent participation in the development of the application. When the grant is complete, State Department of Education review and Board approval are also necessary.

Administration recommends that the Board approve the intent to apply for a Title VII Transitional Bilingual Education grant.

E. Approve 1992 Mandated, Core Academic and Special Education Summer School Program
(Mr. Taylor)

Currently the State of California provides funds for 7% of a school district's enrollment to receive summer school instruction. We are mandated to provide classes at the high school level first. Eighth graders needing to pass core academic subjects in order to be promoted to the ninth grade along with K-12 special education students will be included. Because of the 7% cap, elementary summer school classes will not be offered.

Our plan is to operate high school and middle school mandated and core academic programs at both comprehensive high schools. K-12 special education classes will continue to operate on the Rubidoux campus.

Summer school offerings are limited to the following seven programs:

1. Secondary Proficiency Classes - Courses offered include: Secondary Reading Skills, Fundamentals of Writing and Math Essentials. These classes are offered to high school students who need to pass one or more proficiency examinations. (Rubidoux and Jurupa Valley)
2. Core Academics - State law defines core academic areas as mathematics, social studies, science, English, foreign language, fine arts and computer education. The following chart displays courses proposed for comprehensive high schools:

E. Approve 1992 Mandated, Core Academic and Special Education Summer School Program

(Cont'd)

3. Individualized Program IPI - This program is designed for graduating seniors and 8th graders needing to make-up credits for graduation or promotion.
4. Special Education - Special education classes for K-12 students are offered to students requiring such instruction.
5. Independent Study - Students assigned to independent study who desire to complete courses in summer school may enroll in this program.
6. Work Experience - This program is provided for students to earn credit while working in the community. Students receive related instruction in career awareness and job survival skills.

PROPOSED SUMMER SCHOOL SCHEDULE

It is recommended the Board approve 1992 Summer School offerings as presented.

* 8. Adopt Resolution 92/36, Disposal of Obsolete Instructional Materials

(Mrs. Roberts)

There are quantities of obsolete instructional materials, as defined in Policy 6204, taking up valuable space at the school sites. The policy requires that "to insure that students' instructional needs are met with appropriate materials, administration shall arrange the disposal of obsolete instructional materials." According to Policy 6204, the Board must adopt a resolution stating its intent to dispose of obsolete instructional materials before the process begins.

It is recommended that in order to make space for new materials and insure that obsolete instructional materials are not being used for basic instruction, the Board adopt Resolution 92-36 directing the disposal of obsolete instructional materials.

9. Rejection of Claim

(Mr. Edmunds)

On March 25, 1992, Administration received a claim from Gene Rasmussen alleging his daughter was denied entry to the Jurupa Valley High School student parking lot, and her car was vandalized while parked on the street. Administration recommends rejection of the claim with appropriate notice to the district insurance carrier. (A copy of the letter is available for Board review.)

10. Rejection of Claim

(Mr. Edmunds)

On April 4, 1992, Administration received a claim from Ken Eugene Stiles alleging one of their Freightliner Tractors was hit by a ball and the driver's windshield broken while driving in the area of Jurupa Valley High School. Administration recommends rejection of the claim with appropriate notice to the district insurance carrier. (A copy of the file and report is available for Board review.)

The district has now been advised that this application was approved as shown in the supporting documents. The grant provides \$5,500 that will allow us to expand our teen parent project and offer services during the summer. Administration recommends acceptance of this grant.

J. Review Routine Information Reports

* 1. Review Report on Annual Language Census (Mrs. Roberts)

Each spring, districts throughout California are required to conduct a language census and report this information to the State Department of Education. The data in this report become the basis for determining the types of instructional services to be provided for limited English proficient (LEP) students. The 1992 census shows that there are 2,169 LEP students in the district. This figure represents a 20% increase above last year's report when the staff identified 1,742 LEP students.

J. Review Routine Information Reports

* 1. Review Report on Annual Language Census (Cont'd)

In addition to these students, the census contains data on the number of students who are redesignated as fluent English proficient (FEP). Redesignation requires that the staff examine a student's oral and, when appropriate, written English language proficiency as well as their performance in reading and mathematics. A student must score above the 36th percentile on a standardized test in these two subject areas to be reclassified. At the time of the census, twenty students were redesignated as FEP and there are approximately 55 remaining students who are being considered for reclassification during the remaining months of this school year.

The majority of the LEP population continues to be Spanish speakers. Twenty-three other languages are also reported. Most of these students speak Vietnamese or Korean. The supporting documents contain charts showing the number of LEP students in each school by grade and by primary language. Information only.

MR. CHAVEZ MOVED THE BOARD APPROVE MINUTES OF THE MARCH 16, 1992 REGULAR MEETING AS PRINTED. MRS. BURNS SECONDED THE MOTION WHICH CARRIED UNANIMOUSLY.

RECEIVE INITIAL
RESPONSE TO
NEA-J PROPOSAL

The Assistant Superintendent Personnel Services stated Board policy requires that following receipt of NEA-J's proposal for a successor agreement and completion of a public hearing, administration and the Board may make public its initial response. The Assistant Superintendent noted the initial response was reviewed with the Board in Closed Session. A recommendation was made that the Board formally receive the response, make it public, and schedule a public hearing at the April 20 regular meeting, which would begin the bargaining process. President Barnes stated that the Board has received the response and it was now a public record.

ADOPT RESOLUTION
92/25, ESTABLISH
FEES FOR NEW
CONSTRUCTION
-Motion #230

The Assistant Superintendent Business Services stated the supporting documents include Resolution 92/25 which would increase school facilities fees to the maximum allowed under the State Allocation Board authorization as noted in the Public Hearing held earlier.

MRS. BURNS MOVED THE BOARD ADOPT RESOLUTION 92/25, ESTABLISHING SCHOOL FACILITIES FEES FOR NEW CONSTRUCTION. MR. CHAVEZ SECONDED THE MOTION. Mrs. Folsom stated that she had hoped this country would arrive at a point where all citizens would assume responsibility for public education and pass bond elections for equal sharing of the cost to pay for new schools. THE BOARD VOTED ON THE MOTION WHICH CARRIED UNANIMOUSLY.

APPROVE SPECIAL
EDUCATION LOCAL
PLAN APPLICATION
-Motion #231

The Director of Education Services stated that Dr. Bill Hendrick and Mrs. Benita Roberts have participated in the development of a Local Plan for school districts in the Riverside County Special Education Local Plan Area (SELPA). Other SELPAs in the state are also required to submit a Local Plan. It describes special education services to meet state requirements as a prerequisite for funding of the Special Education Program of approximately \$3 million. If the plan is approved by the State Department of Education, it will be in effect for three years.

MRS. RUANE MOVED THE BOARD APPROVE THE RIVERSIDE COUNTY SELPA'S LOCAL PLAN FOR SPECIAL EDUCATION. MRS. BURNS SECONDED THE MOTION WHICH CARRIED UNANIMOUSLY.

SELECT AUDITOR
FOR 1991/92
-Motion #232

The Assistant Superintendent Business Services indicated that administration has requested proposals from accounting firms to provide audit services for the 1991/92 fiscal year. Proposals were sent to five firms which have prior year experience in auditing school districts in Riverside County. Three responses were received which included the current auditor Huffman & Company which has audited district records for eight fiscal years. The Assistant Superintendent noted that it was a good practice to change auditors periodically and for that reason administration recommends that Vavrinek, Trine, Day and Company be given the contract for 1991/92 fiscal year.

The Assistant Superintendent replied that it varies but many districts switch firms every three years in order to have a different viewpoint. THE BOARD VOTED ON THE MOTION WHICH CARRIED UNANIMOUSLY.

The Superintendent responded that the district has two main contractors, one for construction of the building and the other for site development. RESPONSE TO NATIONAL EDUCATION ASSOCIATION-JURUPA
COLLECTIVE BARGAINING PROPOSAL
(March 30, 1992)

Jurupa Unified School District has enjoyed for many years an effective, productive and positive working relationship with National Education Association-Jurupa.

During these years the District was financially able to pass on the effects of good economic times to teachers in the form of salaries that helped attract the very best.

The District now finds itself in the position of having to pass on the effects of difficult economic times to teachers. This results in salary adjustment proposals that are less than the District would like them to be.

Fortunately, even with this proposal, teacher salaries in Jurupa will continue to be extremely competitive with those of teachers in any other District statewide.

The District had hoped that based on the Governor's Budget it could propose a salary schedule equal to that which existed on September 1, 1991.

However, recent analyses of the State's financial condition and the Governor's Budget by School Services of California and the State's Legislative Analyst, Elizabeth Hill, indicate that the State budget may be overly optimistic. This could indicate that the Jurupa Unified School District, February 24, 1992 income projection may be nearly one million dollars too high.

With this in mind, the District's initial proposal for a successor Agreement with National Education Association-Jurupa is as follows:

1. Rollback all salaries on the Basic Certificated Salary Schedule to amounts that are two percent (2%) below those in existence on September 1, 1991. All such salaries shall be effective July 1, 1992.
2. Maintain all other provisions of the 1989-92 Agreement at the June 30, 1992 level.
3. Revise the Article on Completion of Meet and Negotiation so as to provide for a three year agreement expiring on June 30, 1995 with reopener negotiations on Basic Compensation (Article XIV) and Health and Welfare Benefits (Article XVII) during the second and third years of the Agreement.

Please note that the above initial proposal is based on these new budgetary analyses that may or may not transpire. If in the opinion of the District the more optimistic budget projections approved at the February 24, 1992 Board Meeting prove to be the case, then the District's position on salaries will be to maintain the Basic Certificated Salary Schedule in effect on September 1, 1991 rather than the 2% rollback.

RESOLUTION #92/27

OPPOSE PARENTAL CHOICE/SCHOLARSHIPS INITIATIVE

WHEREAS, public education in the State of California and the United States of America has been the foundation of our democracy and the strength of our country with the unequalled goal of education for all of its citizenry; and

WHEREAS, the Parental Choice/Scholarships Initiative proposes a voucher insufficient to fund most private school education, thus discriminating against students from middle and low income families who cannot afford to participate equally in all educational opportunities; and

WHEREAS, public monies provided for student education would be made available for tuition in private schools where there would be no prohibition against discrimination based upon religion, gender, disability, sexual orientation, academic achievement, and medical conditions; and

WHEREAS, this initiative would allow the use of public funds for private schools that use codes of conduct, behavior, and scholarship, which opens the door to an elitist tracking of students between the private and public sector; and

WHEREAS, by providing funding to schools that utilize teachers who are not credentialed, this measure helps fund unregulated institutions that may utilize unqualified, inexperienced instructors; and

WHEREAS, if the State Board of Education elects to implement a testing program at each level as permitted in the initiative, the costs of such a program could run into the tens of millions of dollars; and

WHEREAS, education funding to public schools would be cut by four dollars for every dollar paid to private schools if the Parental Choice/Scholarships Initiative becomes law; and

WHEREAS, by siphoning tax dollars from our public schools to pay the vouchers of children currently in private schools, this measure will cost California taxpayers an additional \$1.5 billion every year; and

WHEREAS, school districts throughout California already offer an array of interdistrict and/or intradistrict choice options to parents when space is available; and

WHEREAS, this initiative falsely implies that choice does not exist in California schools today; and

Resolution #92/27 (Cont'd)

WHEREAS, the Parental Choice/Scholarship Initiative will subsidize California's wealthiest families, while stripping educational opportunities from other Californians;

NOW, THEREFORE, BE IT RESOLVED that the Board of Education of the JURUPA UNIFIED SCHOOL DISTRICT is in opposition to the Parental Choice/Scholarship Initiative and the impact it would have on the education of California children.

Adopted this 20th day of April, 1992
BOARD OF EDUCATION

David H. Barnes, President

SUPPORTING ARGUMENTS

Proponents of vouchers argue that competitive and unrestricted choice is an essential if schools are to improve. They state that a voucher system which provides for parental choice accomplishes the following:

1. REDUCES THE ILLS OF A MONOPOLY.

Proponents contend that the public school system is a monopoly and as such there are few incentives for innovation and improvement since clients have very few alternatives.

2. CREATES HEALTHY COMPETITION.

Supporters of vouchers believe that if parents are given the opportunity to shop around, two positive outcomes would follow.

First, school boards and staff would have a strong incentive to do things that would attract students.

Second, because students have different learning styles and needs, unrestrained options would more effectively address the special needs of certain students by fostering greater variation of instructional methods.

3. ENCOURAGES PRIVATE INNOVATION AND DIVERSITY.

The great reduction in state regulations would make innovative changes in school much easier to accomplish.

4. STIMULATES HUMAN ENTHUSIASM AND COMMITMENT.

Proponents argue the parties (teachers, administrators, parents) who are key participants in the development of voucher system programs would feel that the programs they design are theirs and thus have a vested interest in making them successful.

5. PROMOTES ECONOMIC EQUALITY.

Since all students regardless of socioeconomic background would be provided with a voucher of equal value, it is fair to all students who participate.

6. ELIMINATES DOUBLE PAYMENTS.

Families of children in private schools would no longer forfeit the available public funds and pay tuition costs in addition to taxes.

7. REDUCES THE BURDEN ON SECTARIAN AN PRIVATE SCHOOLS.

Proponents argue that if the vouchers cover all or nearly all the full cost of education, then nonpublic schools will not be forced to rely so heavily on financial support from religious organizations and affluent parents.

8. ESTABLISHES A SIMPLISTIC FUNDING SCHEME.

Supporters argue that administering the present complex funding system requires many regulations and and several levels of bureaucracy. Vouchers would eliminate many intermediate levels of school administration.

9. REDUCES BUREAUCRACY AND OVERHEAD.

Proponents insist that program supervision and control by state, county, and district offices would become unnecessary. In order to insure that no future bureaucracies appear taking the place of the old ones, the initiative requires a three-fourths vote of the Legislature for any limiting regulations.

10. PROMOTES SHARED VALUES.

Supporters state that parents will be able to send their children to schools that develop and nurture talents and values which they hold in high regard such a music, science, physical education, etc.

OPPOSING ARGUMENTS

Opponents of this initiative argue that rather than improving education through competition, this system will lower the quality of education for most students in that it:

1. UNDERMINES THE PUBLIC SCHOOL SYSTEM.

Unless additional monies are allocated the overall per student distribution of educational dollars will be reduced as students in private schools become eligible for public funds.

An unregulated voucher system may result in private schools who restrict admission to the best and brightest, leaving the public schools as the dumping grounds for the hard to educate.

Middle-class parents who provide much of the resources, time, and money to effect change in public schools would instead work toward increasing the quality of education in nonpublic schools.

In development of "marketable" programs, long-term planning will give way to year-to-year plans which more effectively respond to current market trends.

2. IS BASED ON INAPPROPRIATE COMPARISONS OF PRIVATE AND PUBLIC SCHOOLS.

Opponents contend that, because public schools are mandated by law to educate all children, it is inappropriate to compare private and public schools.

3. MAY DISCRIMINATE IN ADMISSION POLICIES.

Opponents argue that initiative does not guarantee nondiscrimination in admission policies on the basis of gender, religion, physical disability, or students' academic ability raising many obvious questions.

4. PROVIDES INFERIOR SERVICES IN LOW-INCOME AREAS.

Opponents believe that voucher schools will avoid geographical areas that contain heavy populations of children with health and learning problems. They also point to the fact that goods sold in stores in poor neighborhoods are frequently higher in price.

5. ENCOURAGES SOCIAL STRATIFICATION.

Opponents are concerned as to whether voucher schools would provide the common values that are the original justification for a public school system. They believe that the voucher system would resegregate schools along socioeconomic lines.

6. UNFAIRLY BENEFITS THE WEALTHY.

Critics contend that the wealthy will have more access to transportation thus widening their range of school choice substantially beyond that of the less well off.

7. FACILITATES STATE SUPPORT FOR RELIGIOUS INSTRUCTION.

Since many existing private schools are church affiliated, supporting instruction with public dollars would be a violation of the First Amendment

8. EXCHANGES BUREAUCRACIES.

Opponents argue that in order to adequately protect parents and students from potential abuses, a regulatory agency and system will need to be developed that is as complex and detailed as the present one.

Since this initiative requires a three-fourths vote of the Legislature to install future educational or social safeguards, leaving any unresolved concerns is highly dangerous to the welfare of future students.

RECOMMENDATION FOR TEXTBOOK ADOPTION

TITLE: Scholastic Economics

AUTHOR: John Jay Bosting

PUBLISHER: Scholastic Inc.

COPYRIGHT: 1991

SUBJECT: Economics

COST:

Student Text:	\$29.95
Teacher's Edition:	34.95
Test Program Book with	
Print Masters for Duplication:	24.95
Teacher's Resource Package:	24.95

OTHER BOOKS CONSIDERED:

1. Basic Economic Principles - Glencoe MacMillan/McGraw-Hill
2. Economics - McDougal, Littell and Co.
3. Economics and the American Free Enterprise System - Globe Book Co.

REASONS FOR SELECTING THIS BOOK:

This text was chosen because it is strongly different from other Economic texts. Much of this text is in the form of dialogue among fictional secondary students who represent a variety of backgrounds, viewpoints and interests. There are prominent photographs that illustrate those students' activities. At the same time, the text is designed to appeal to students at all levels of ability, and it provides thorough coverage of the curriculum of academic economics. The text consists of 18 chapters organized into six units. The first five units follow a conventional progression of topics: Basic Concepts; Economic Systems; Microeconomics; Macroeconomics; and Global Economics. Unit 6, Your Economic Future, provides a review of the key concepts introduced in the preceding units by placing them in new contexts. These contexts will be of increasing interest and importance to students in the future. The choice of a career, the handling of money and the economic aspects of such real-life circumstances as marriage, health, leisure and civic responsibilities.

Features of the text include a glossary, which includes all of the major economic terms, lists the chapter and page where the first use of each term can be found. These terms are printed in **bold** type at their first appearance in the text. The keyed glossary, together with the table of contents, will prove helpful to teachers who wish to change the sequence in which their classes study the text.

Each chapter and unit ends with a two-page chapter review. These reviews

include recall, analysis, application and enrichment questions; together with a skills section based on a table, graph, chart, map, cartoon or diagram.

Other regular chapter features are: (1) Your Local Economy: An activity that requires students to apply what they have learned in the chapter to their own community. (2) Chapter Summary: A one-page exposition of key terms and concepts introduced in the chapter, with page references. (3) Reading for Economics: An excerpt from a periodical article, a fiction or non-fiction book, or other source that enhances a key concept introduced in the chapter. (4) Graphs, Charts and Tables: All 100 charts, graphs and tables were specially prepared for this text using the latest available data.

Ancillary materials for use with this text are: (1) Charts, Tables and Graphs: Full-color overhead transparencies accompanied with worksheets. (2) Readings for Economics: Two per chapter accompanied by three or more discussion questions. (3) Worksheets for Reteaching, Enrichment and Extension: Three worksheets, each designed for a different ability level, for each chapter. (4) Test Program Book: A computerized test bank and print masters for duplication of chapter tests and unit tests to evaluate student performance. Questions are of objective and essay type.

COST: \$13.10

OTHER BOOKS CONSIDERED:

1. Heart of Aztlan

REASONS FOR SELECTING THIS BOOK:

The text, The House on Mango Street, has been recommended as a CORE literature selection for eighth grade students at Mission Middle School for the following reasons:
