Administration recommends the Board approve/adopt Routine Action Items A 1-8 as printed.

- * 1. Approve Minutes of September 5, 2000 Regular Meeting
- * 2. Purchase Orders (Mrs. Lauzon)
- * 3. Disbursement Orders (Mrs. Lauzon)
- * 4. Appropriations (Mrs. Lauzon)
- * 5. Payroll Report (Mrs. Lauzon)
- * 6. Agreements (Mr. Edmunds)
- 7. Rejection of Claim (Mr. Edmunds)

On August 31, 2000, Administration received a claim against Jurupa Unified School District on behalf of Adam Armstrong. The claim alleges he sustained an injury when he fell off of playground equipment. Administration recommends rejection of the claim, with appropriate notice to the district insurance carrier. (A copy of the claim is available for Board review.)

- * 8. Adopt Resolution #01/09, Appropriations Limit to Article XIII B of the California State Constitution (Mrs. Lauzon)

In November of 1979, California voters adopted Proposition 4, commonly called the Gann amendment. This amendment was incorporated into the State Constitution as Article XIII B. It requires all public agencies, including school districts, to compute an appropriations limit each year, based on a formula provided by the State. The District limit changes each year, depending on increases in pupil attendance and the Consumer Price Index.

On September 20, 1999, the Board approved the calculation of the 1999-2000 appropriations limit based on estimated revenue and pupil attendance. At this time, the District is required to submit to the State for recalculation for 1999-2000, based on actual figures, and a calculation for 2000-2001, based on budget projections.

These appropriation limits, also known as the "Gann Limit," have to do with how much tax money the State may appropriate. They do not affect the amount of money the District may spend. The 1999-2000 appropriations for Jurupa Unified School District was recalculated and increased from \$72,833,221 to \$75,069,422; the 2000-2001 appropriations limit for Jurupa Unified School District is \$79,771,274. Calculations are shown in the supporting documents.

Administration recommends the Board Adopt Resolution No. 01/09, Appropriations Limits for 1999-2000 and 2000-2001

* **B. Adopt at Single Reading Revised Regulation 2440 – Official District Publications**

(Dr. Hovey)

Regulation 2440 – Official District Publications: This regulation was revised and updated with input by members of the Superintendent's Extended Cabinet. The official district publications are prepared and distributed by departments as listed.

Administration recommends adoption at single reading of the revised Board Regulation 2440 – Official District Publications.

C. Act on Recommendations of the Blue Ribbon Committee

(Mr. Edmunds)

On August 29, 2000, the District's Blue Ribbon Committee on facilities met to review updated information on the District's facility planning process. Mr. Jeremy Thorn and Ms. Terry Dien, of Education Research, presented the results of their community facilities research survey. This was essentially the same presentation that was given to the Board on August 7, 2000. The Board may recall that the survey results led to a recommendation to initiate a focused effort to inform the community about the District's facility needs. In addition, Mr. Bob Lavey and Ms. Alexandra Parslow, of Perkins & Will, gave the Committee a brief update of our Master Plan and revised eligibility in the State School Building Program.

After review and discussion of this information, the Blue Ribbon Committee made several recommendations to the Board, as follows:

1. Begin an information campaign to educate the community on the District's facility needs. Hire a consultant or public relations agency for this purpose.
2. Work toward acquiring land for new school sites.
3. Begin program planning for new schools – elementary and middle.
4. Examine options for short-term housing for students until new schools can be built.

This evening, Mr. Bob Lavey and Ms. Alexandra Parslow, of Perkins & Will, will present to the Board updated information on the Master Plan and eligibility in the State School Building Program, as presented to the Blue Ribbon Committee. Mr. Jeremy Thorn, of Education Research, will then present his Public Information Program Proposal. The proposal is to provide services over a four-month period of time at a cost of \$43,000, plus an estimated cost of \$12,000 for printed material and postage.

After discussion, administration recommends the Board accept the recommendations of the Blue Ribbon Committee and authorize administration to implement them. Administration further recommends the Board authorize retaining Education Research to conduct a public information program.

* **D. Authorize Submittal of Application for 2000/2001 Class Size Reduction Program**

(Mr. Edmunds)

The 2000/2001 school year will be the fifth year of the District's Class Size Reduction Program (CSR). In previous years the District has reduced class sizes in kindergarten, first, and second grades and some third grade classes. Third grade class size reduction will be fully implemented districtwide this school year. The application in the supporting documents is to operate 307 reduced classes with a total estimated enrollment of 5,950 students. Funding for the CSR Program has been increased this year from \$844 to \$871 per student, resulting in a total estimated allocation of \$5,182,450.

Administration recommends the Board authorize submittal of the 2000/2001 Class Size Reduction Program Application.

E. Review and Act on School Facility Matters

(Mr. Edmunds)

Due to frequent changes taking place in facility improvement programs, items which require Board discussion or action may arise between agenda preparation and meeting times. Administration may provide such items as verbal information reports or recommendations for action.

F. Approve Personnel Matters

* 1. **Approve Personnel Report #5**

(Mr. Campbell)

Administration recommends approval of Personnel Report #5 as printed subject to corrections and changes resulting from review in Closed Session.

2. **Approve Variable Term Waiver Request**

(Mr. Campbell)

Recent changes in state credentialing laws require that prior to hiring an individual to teach under the authorization of a Variable Term Waiver (Title V, Section 80122), specific individual approval must be granted by the governing board. Usually, this type of waiver is necessary for hard-to-fill positions in shortage areas (examples: Special Education, Bilingual Education, Mathematics or Science) or when an unexpected vacancy occurs in the middle of a school year. In this case, the recommendation is to fill a vacancy for a Resource Specialist at Rubidoux High School. The person being recommended is Mr. Christopher Fowler. Mr. Fowler has been working in the district as a Substitute Teacher for the past year; he earned his Bachelor's degree from California State University, San Bernardino and is currently enrolled in the Special Education Credential program at National University. Recruitment efforts have not identified a stronger candidate.

With these considerations in mind, it is recommended that Mr. Fowler be approved for temporary employment through the end of this school year as a Resource Specialist under the authorization of a Variable Term Waiver.

G. Review Routine Information Reports

1. Hear Report on Status of District Restrooms

(Mr. Edmunds)

At the August 7, 2000 Board Meeting, President Sam Knight requested a report on the status of District restrooms. In late August, the Assistant Superintendent Business Services inspected numerous restroom facilities with Bill Elzig, Director of Maintenance and Operations. The tour focused on older schools, specifically Rubidoux High, Mission Middle, Rustic Lane, Pedley, Troth Street, West Riverside, and Glen Avon. Older restrooms were selected for review because they tend to be more challenging to clean and maintain. Our custodial staff cleans all restrooms on a daily basis, but there are other factors such as lighting, ventilation, paint, condition of tile, and condition of ceiling that affect a restroom's appearance and sense of cleanliness. These factors are more pronounced in older facilities.

The inspection of restrooms at the above sites revealed that, with minor exceptions, District restroom facilities are clean and sanitary. However, it was also apparent that several locations can benefit from an increased level of maintenance. At Rubidoux High School, the restrooms near the Band Room are currently being rehabilitated, including new tile, fixtures, toilet partitions and paint. We are also looking into installing a dropped ceiling and improved lighting. A boys' restroom at Sky Country is receiving similar treatment, and the 600 wing restrooms at Rubidoux High will be rehabbed this year. At other sites, less extensive, but nonetheless important needs were noted, including: replacement lenses for light fixtures, new toilet partitions, dropped ceilings/improved lighting, installation of exhaust fans, paint, new tile, and replacement of plumbing fixtures. These items will be addressed during the coming school year, and in the District's Five-year Deferred Maintenance Plan.

In addition to maintenance considerations, restroom cleanliness is heavily affected by two other factors: supervision and overcrowding. It is extremely difficult to supervise students in restrooms at all times, and student vandalism or mischief can contribute significantly to unclean or unsightly restrooms. In restrooms where there have been chronic problems of this type, principals may have to provide additional supervision until the problem is corrected.

Finally, overcrowding at our schools can make it more difficult to maintain restrooms. With the installation of 40 portables this summer, the District's classroom space is now about 42% portable. While we have installed a few portable restroom facilities to mitigate this impact, for the most part, adding portables to existing campuses places an added burden on core facilities such as restrooms. The District's Master Plan for Facilities identifies the need for additional restroom facilities at most of our campuses. This need must be addressed along with other needs for modernization and new construction as part of a long-range plan to finance the District's facility needs. Information only.

2. Hear Report on 1999-2000 Scholastic Achievement Test (SAT) Scores (Mr. Mendez)
 Scholastic Achievement Test (SAT) scores for the 1999-2000 school year for the Jurupa Unified School District resulted in a combined (verbal and mathematics) district average of 921 points, 4 points higher than last year. The district average on the verbal score increased 3 points from 449 to 452 and 2 points in mathematics from 468 to 470. The overall number of students taking the SAT continues to increase. A total of 323 students, approximately 40% (compared to 36% the previous year) of eligible seniors took the test.

As the chart below indicates, Jurupa Valley High School gained eight points in the verbal section of the test (446 - 98/99 vs. 454 - 99/00) and a greater gain of 17 points in the area of mathematics (463 - 98/99 vs. 480 - 99/00). The figures for Rubidoux High School indicate a slight decrease of three points in the verbal score (452 - 98/99 vs. 449 - 99/00). In the mathematics section RHS scores dropped 14 points (473 - 98/99 vs. 459 - 99/00).

In general, JUSD has maintained the gains made since 1992-93 when the verbal average was 351 compared to 452 in 99/00, and the mathematics average was 415 compared to 470, in 99/00. Information only.

Appropriate training to maximize the education advantages of class size reduction will be provided to such teachers. This training shall include, but not be limited to, methods for providing each of the following: (1) individualized instruction, (2) effective teaching, including classroom management in smaller classes, (3) identifying and responding to pupil needs, and (4) opportunities to build on the individual strengths of pupils [52123(d), 52127].

Any data collected will be protected in a manner that will not permit the personal identification of any pupil or parent [52123(e)].
6. Priority for reducing class size is according to the following order at each school site:
 - If only one grade level is reduced, the grade level will be 1st grade.
 - If two grade levels are reduced, the grade levels will be 1st and 2nd grades.
 - If three or four grade levels are reduced, the grade levels will be 1st and 2nd and then any combination of kindergarten and/or 3rd grade.
