The Consolidated Application is a declaration of our intent to apply for 2005-2006 funding for nine categorical programs. Part I was approved by the Board of Education on July 5, 2005 and submitted to the State Department of Education. For 2005-2006, the funding for these programs is reported in Part II of the Consolidated Application in the total amount of \$13,466,615. This figure represents \$11,317,089 in federal funding and \$2,149,526 in state funding. A copy of Part II of the Consolidated Application is included in the supporting documents for Board members.

The three program entitlements covered by state funding include: Economic Impact Aid, \$2,034,126--supplement for the English Learner program; Peer Assistance and Review (PAR), \$33,283--allows exemplary teachers to assist other teachers who need help developing their subject matter knowledge and teaching strategies; and Tobacco Use Prevention Education (TUPE), \$33,283--support tobacco prevention education in grades 4-8.

The six federal program entitlements are also a part of the application. The Title I (Basic Grant) program is designed to provide supplemental funds for underachieving students at schools with a high concentration of poverty. Title II (Teacher Quality) is designed to prepare and recruit high-quality teachers and principals. Title II (Technology) provides staff development funding to assist teachers in using technology to support academic achievement through standards mastery. Title III (LEP) is to ensure that all limited English proficient (LEP) students attain English proficiency and meet the same challenging state academic standards as all other students. Title IV (Safe and Drug Free Schools and Communities) provides support of school- and community-based drug education and prevention programs. Title V (Innovative Strategies) provides counseling and library services.

Our district's LEAP was approved at the June 2, 2003 Board meeting and our LEAP addendum at the July 5, 2005 Board meeting. This plan outlines how state and federally-funded initiatives are aimed at improving student achievement and work in tandem in order to have the greatest impact.

Part II of the Consolidated Application also contains reporting on teacher quality requirements under NCLB. School level "Single Plans for Student Achievement" describe how these funds will be spent. Any new funds received for this year must be used for the purposes described in each school's plan, or changes in priorities must be amended and approved by the School Site Council and submitted to the Director of Categorical Projects.

The funding under the program was available to schools identified by the California Department of Education ranked in deciles one, two and three based on the Academic Performance Index. Under the School Facilities Needs Assessment Grant Program, each eligible school received funding in the amount of \$10.00/pupil, or a minimum of \$7,500.00, to perform a one-time facilities assessment. Jurupa USD received \$130,490.00 from the State under the grant program for the assessment.

The district will apply for reimbursement under the Emergency Repair Program, although there is no guarantee that the State will reimburse districts for the cost of repairing building systems or structural components. The District is currently assigning those students to special instructional labs and individual instruction to assist them in developing the skills necessary to pass the exam.

1. Review Approval of 2005/2006 First Interim Financial Report (Mrs. Lauzon – 2 Minutes)
Blueprint for Learning Point 1: Focus Fiscal Resources

The Riverside County Office of Education has notified the District that the 2005/2006 First Interim Financial Report has received positive certification and that they have notified the California Department of Education accordingly. The County Office also recommends that the Board continue to review updated multi-year financial projections to assist in providing for the long-range stability of the District. Information only.

- * 2. Review School Funding Letter from Dr. Ed Hawkins (Mr. Duchon – 5 Minutes)
Blueprint for Learning Point 1: Focus Fiscal Resources

In the supplemental materials there is a letter from Dr. Ed. Hawkins outlining the history of inequities in school funding amongst California school districts. In 1971, in a lawsuit brought against the State called Serrano vs. Priest the State was directed by the court over a period of time to equalize the funding per student in California schools. Since that time, more than 30 years have passed and there is still quite a discrepancy in school funding. Jurupa Unified School District is \$32.00 below the state wide average per student and if funded at the average amount would get an extra \$640,000 per year. Dr. Ed Hawkins has recommended that the Board take action to speak up on behalf of students. Attached is a sample letter that could be sent to our local legislators. Information only.

- * 3. Review Schools of Choice Brochure (Mr. Duchon – 2 Minutes)
Blueprint for Learning Point 5: The Support

In accordance with Board Policy 5117.1, parents will be notified, beginning February 1, 2006, of the Schools of Choice Open Enrollment Policy and Procedure. A copy of the parents' information brochure is included in the supporting documents. Information only.

J. Recognition – Blueprint for Learning – Delivery Step 10 – Celebrate (5 Minutes)

The California Department of Education recently issued their official apportionment notification for the No Child Left Behind Act of 2001, Title III, Limited English Proficient (LEP) Student Program for the 2005-06 school year. In 2005-06, the formula allocation of Title III funds resulted in a per pupil allocation of \$81.75 for each eligible student. The total amount the district will receive is \$487,802. A copy of the Notice of Apportionment is included in the supporting documents. Information only.

	Ms. Kryzia Olsen, Rubidoux High Student Board member, commented that the Opal Street Rubidoux High School campus is a lot better suited as a comprehensive high school; traditions were built there that should remain, and beginning academies there along with a comprehensive high school is a good idea as well.
PUBLIC VERBAL COMMENTS	President Harris opened the Public Verbal Comments session for members of the public to address the Board concerning matters on the Agenda.
	Ms. Kay Meyerett said that teachers should have been consulted about what is best for the future of the Rubidoux High campus because they know what is best for students. 	Ms. Alyson Barnes, student, asked for a quick decision on what is going to happen with Rubidoux and the new high school next year because students are suffering.
	Ms. Janice Vigil, Ms. Betty Stinson, and Mr. Brian Kantner said that the Board has failed if they do not open a third comprehensive high school as was promised in the school bond measure that was passed by voters.
	Mr. David Barnes spoke positively about Rubidoux High and the fact that it has produced outstanding graduates such as Assemblyman Duncan Hunter.
	Mr. Cook Barela said that students are proud to be Rubidoux graduates as are his five daughters; the District does need a third high school and it is needed now.
	Mr. Jose Guillin supported opening Rubidoux as a comprehensive high school and preventing developers from continuing to build too many homes.
ESTABLISH SMALL LEARNING COMMUNITIES AND A COMPREHENSIVE HIGH SCHOOL ON THE RUBIDOUX HIGH OPAL STREET CAMPUS	The Superintendent explained how the District arrived at the decision to move Rubidoux to the Patriot campus and Mission Middle to the Rubidoux campus while both campuses underwent modernizations. He reviewed the work of the Blue Ribbon Committee to develop successful programs for the Rubidoux campus; how the academy concept was developed, and how projected enrollment at the secondary schools has increased. The Superintendent also discussed preliminary plans with Riverside Community College to begin an early college program on the Rubidoux campus for interested students and a health and public safety academy. Recruitment for the academies would occur over the next six months, and the recommendation of staff is to open two academies beginning next school year, with Rubidoux High opening as a full comprehensive high school the following year.

Patriot High School will serve as Rubidoux High School for two years (2005/06 and 2006/07) while Rubidoux High School is being renovated and open as Patriot High School in the 2007/08 school year. Rubidoux High School will open as a comprehensive high school with academies in the 2007/08 school year. Small Learning Communities will open on the Rubidoux High School Opal Street campus as an annex to Rubidoux High School next year and both schools will operate as Rubidoux High School for the 2006/07 school year. Mr. Elliott Duchon, Superintendent/Secretary to the Board
Jurupa Unified School District
4850 Pedley Road
Riverside CA 92509

Dear Mr. Duchon:

This letter is a request that you place on the next School Board Agenda the following item,
CONSIDER ACTION ON PUNITIVE STATE FUNDING, and include this transmittal letter as a
supporting document.

I will try to be present to answer any questions.

Cordially yours,

Ed Hawkins, Jurupa

My best guess is that Jurupa schools have lost at the very minimum \$3,000,000 per year for about 25 years, a total of at least 75,000,000.00. Check the data. It may be much higher. It is shocking that the children of this school district have been, and continue to be, cheated by our State government.

Special Education Funding Adjusted: In Riverside County we found years ago that the state support for special education was arbitrarily based on expenditure in some prior base year which proved to overfund some districts so they "made a profit" on each class. Others of us were so underfunded we had to supplement mandated special education costs by using significant amounts of general funds, which penalized regular and gifted children. In the 1980's, while I was chair of the Riverside County Special Education Consortium, I led a fight whereby we ended up suing the State of California. After we won several court victories, the entire state funding mechanism for special education was revised, resulting in millions of dollars more for poorer school districts. Those adjustments are still taking place,

The Challenge: A similar major revision of general education funding for regular and gifted students is long overdue. Now I challenge you to tackle this real problem. It is a problem of greater dimension than many you have faced. It is a problem I have wrestled many times, even after retirement. I have written our own state legislators and the Press-Enterprise without even finding much concern or interest. Now the Governor is talking about significant increases for public education, but will this terrible inequity be addressed? Why are not the same dollars allocated for each California student in average daily attendance at each school level?

I hope you will first arm yourselves with the facts and the history. You might contact your current legislators to see if they are even aware of this issue. Has the California School Boards Association taken any position on this tragic injustice to many school districts? What do members of the State Board of Education and the State Superintendent think, and what do they want to do? You might enlist your classified and certificated ~~unions to take~~ strong stands in their own self-interest. You certainly should inform the parents of your concerns so they could at least be aware. How would you feel about seeking a public service law firm to file a suit, perhaps the same ones who are familiar with the problem? If you accept this challenge, mount a campaign, and win even average state funding for the general education budget in your district you would truly be an outstanding Board of Education. Were you to succeed you would be helping half the districts in California because average, remember, is the position where half are above, and we are in the bottom pan. Best wishes!

Don't Let the Lottery Hoax Confuse You. Lottery funds are a myth. When the Lottery was first proposed, a few honest legislators told us the schools would not net anything and that proved correct. Advocates just wanted the illusion that children would benefit so the proposed lottery would receive a favorable vote. With no guaranteed base to which lottery funds would be added, the State estimated what the Lottery income would be for schools and deducted it from the state funding allocation. So we then received the same total income as what we would have had anyway. Tragically, the public perception was created, and still exists, that we have a bonanza of lottery funds. The blunt truth is that schools receive the same total financial support, but part is now called Lottery Fund income, it has restricted use and it requires special accounting. The California Lottery stands as one of the greatest hoaxes ever perpetrated on California voters.

CONSIDER ACTION ON PUNITIVE STATE FUNDING

A Definition: California schools are a National interest, a State responsibility, and are locally administered by about 1,000 school districts.

Background: Prior to enactment of Proposition 13, about 80% of school district funding came from local property taxes. There was substantial inequity among districts because of large differences in the wealth of communities, defined as the ratio of property tax per student. Some districts in Kern County had vast fields of oil wells producing taxes. Wealthy communities like Beverly Hills had so much property value per student they could provide generous school funds for each pupil at very low tax rates. In stark contrast, districts composed of mostly low wealth residential property such as Jurupa, Baldwin Park and Lawndale were unable to offer good teacher salaries or minimal support programs and services, even with very high local property tax rates.

Proposition 13: This totally revised the funding mechanisms for school districts. State funds were allocated to cover about 80% of general school operations, with local taxes covering about 20%. This created what became known as the Golden Rule, "He Who Has The Money Rules." The reversal in the proportion of funding from the state was paralleled by a great increase in state legislative decisions encroaching on what had been the domain of local school boards.

The Current Status: Check out the figures and you will find your Jurupa Unified School District is shorted several million dollars per year in General Funds by receiving less than the average state funding per pupil. Obviously, if some districts receive several million less than average, others must be receiving several million more than the state average. This problem has existed since Proposition 13 but it used to be even worse.

In a landmark case, a public service lawsuit was filed about 1968 on behalf of a Baldwin Park student named Serrano against the State of California, represented by Ivy Baker Priest, the state Treasurer. Serrano vs Priest resulted in a judgment that said, in effect, unequal funding was discriminatory and punitive for students in school districts which received less state support than others. However, when the final decisions were made about 1972-73 there was a variance of \$100 from the initial equalizing figure due to inflation. The judge allowed this temporary variance until the State could complete equalizing all districts because it would be "substantial compliance."

As a result of Serrano vs Priest, the State did some adjusting. Jurupa enjoyed a significant jump in state fiscal support in the seventies because we were underfunded far more than the \$100 per pupil differential. But the State obligation to equalize funding has never been realized in spite of much talk. If we continue to lose \$100 per student each and every year, that would be \$3,000 per classroom of thirty students. Count the classrooms, multiply by \$3,000 and you will realize why you have a difficult time providing top salaries for teachers and the range of services and programs you dream about. This problem is pernicious because it happens over and over every year. The \$100 difference in annual per pupil underfunding grew over the years to \$300 in a subsequent court case, and now may be as high as \$700 per pupil. That would compute to a loss of \$21,000 per JUSD classroom every year. Wouldn't that help with your current negotiations and other needs?

EDUCATION CENTER 4850 Pedley Road Riverside, CA 92509 (951) 360-4100

BOARD OF EDUCATION Carl E. Harris, President Michael A. Rodriguez, Clerk Mary L. Burns John J. Chavez Sam D. Knight
SUPERINTENDENT Elliott Duchon

January 25, 2006

Dear Legislator:

As I am sure you are aware, there is a major discrepancy in the per-pupil funding amount in California schools. We applaud the Governor's effort to continue to equalize the revenue limit for school districts. We would; however, like to point out that even though it has been over 30 years since Serrano vs. Priest was adjudicated, there is still a significant difference between the highest and lowest school district in the dollar amount per pupil.

We respectfully request that working in the spirit of equity for all students, you continue the good work of our Governor and support his proposal for equalization this year and move as hastily as possible to close the funding gap to bring districts such as Jurupa to the state wide average.

Thank you for your time and consideration of this request.

Sincerely,

Elliott Duchon
Superintendent

**JURUPA UNIFIED SCHOOL DISTRICT
NOTIFICATION OF OPEN ENROLLMENT
FOR SCHOOLS OF CHOICE**

Dear Parent/Guardian:

For the thirteenth year, the Jurupa Unified School District is implementing its open enrollment policy for schools within the district. Our sixteen elementary, three middle schools, and two comprehensive high schools offer a variety of programs designed to meet the needs of children and their families. There are situations which make it desirable for a family to select a school outside of the attendance area designated for their residence. As such, we offer this transfer opportunity through the Open Enrollment process.

Although we are experiencing considerable enrollment growth at most of our schools, once again this year parents may choose to have their children attend a school other than the school of residence, provided there is space. After reviewing data on projected enrollment for the new school year, the District staff determines how many transfer spaces are available at each school. You may find that some schools are unable to accommodate new students because of student growth; others have a few spaces, while others can accommodate a number of transfer requests. If there are more requests for transfers to a particular school than available spaces, district policy requires the use of a random selection procedure.

If you wish to have your child continue to attend the school serving your residence, you do not need to notify the school. Students currently attending a school on an open enrollment transfer need not complete a new application for the 2006-2007 school year unless they are moving up to the 7th or 9th grade, and the school of residence is different than the school which they wish to attend. If you wish your child to attend a school other than the one he/she is currently attending, please follow the instructions on page three.

Your involvement in your child's education is one of the most critical factors in his/her school success. I urge you to visit your child's school and talk to the staff, volunteer when you have time and join the PTA or other parent organization.

Sincerely,

Elliott Duchon, Superintendent
February 1, 2006

Board Policy 5117.1

PROCEDURE FOR APPLYING FOR A TRANSFER:

1. Applications may be obtained in the office of any school in the District, and are due **FEBRUARY 28, 2006**.
2. Completed applications must be mailed to the Jurupa Unified School District, 4850 Pedley Road, Riverside, CA 92509 no later than **FEBRUARY 28, 2006**. Meeting the application deadline of February 28, 2006 is critical due to the rapid pace of growth in the District. If your application is received after the close of the open enrollment period, a decision on your application will be delayed until after school starts in the Fall, and your chances of receiving a transfer are greatly reduced.
3. Transfer and admission to a school of choice shall be granted if the space is available, and as established by the Jurupa Unified School District.
4. Parents will be notified by mail after the close of the enrollment period as to the status of their request.
5. Transportation to the school of choice is the responsibility of the parent.

CALENDAR

- February 1, 2006 Applications available in the office of any school in the District.
- February 28, 2006 Completed applications must be received in the Jurupa Unified School District Administrative Services Office at 4850 Pedley Road.
- March 10, 2006 Public Lottery, 4850 Pedley Road, Riverside. (A lottery will be held in cases where the number of applicants exceeds the available space.)

DISTRITO ESCOLAR UNIFICADO DE JURUPA
NOTIFICACIÓN DE INSCRIPCIÓN ACTIVA
PARA LA ESCUELA DE SU PREFERENCIA

Estimado Padre/Guardián:

Por el decimotercero año, el Distrito Escolar Unificado de Jurupa usará la póliza de inscripción activa para las escuelas colocadas dentro del distrito. Nuestras diez y seis primarias escolares, tres escuelas secundarias y dos escuelas preparatorias, ofrecen una variedad de programas designados para satisfacer las necesidades de los niños y sus familias. Hay situaciones, en que una familia desea escoger una escuela que queda fuera de la área de asistencia que fue designada para su domicilio residencial. Así es que ofrecemos esta oportunidad por medio del procedimiento de Inscripción Activa.

Aunque casi todas nuestras escuelas han experimentado un gran crecimiento, este año de nuevo, los padres pueden escoger que sus hijos asisten a una escuela, que no sea la de su domicilio residencial, con la condición de que hay espacio. El personal del distrito determina cada año, la cantidad de espacios que las escuelas tienen disponibles. Algunas escuelas tienen muy poco lugar; otras escuelas tienen bastante espacio y pueden complacer el número de nuevos estudiantes. Si hay más peticiones que espacios disponibles a una escuela en particular, la póliza del distrito requiere que se administre el procedimiento de selección al azar.

Si usted desea que su niño/a siga asistiendo a la escuela de su domicilio residencial, usted no necesitará notificar a la escuela. Aquellos estudiantes que ya están asistiendo a una escuela, con una solicitud del año anterior, no necesitan completar una nueva aplicación para el año escolar 2006-2007. Sin embargo, su niño/a que va a comenzar el año escolar en los grados 7 o 9 y la escuela de su residencia es diferente de la cual quiera asistir, sí se necesita una nueva aplicación para el año escolar 2006-2007. Si usted desea que su niño/a asista a una escuela diferente a la que esta asistiendo, por favor siga las instrucciones de la pagina tres.

Su atención en la educación de sus hijos es uno de los factores más importantes en el éxito escolar de sus hijos. Yo le hurgo que visite a la escuela de su niño/a y que platique con el personal; que se ofrezca de voluntario/a cuando el tiempo le permite y que tome parte en las reuniones de «PTA» La Asociación de Los Padres y Los Maestros o otra organización para los padres.

Atentamente,

Elliott Duchon, Superintendente

Si usted desea que sus hijos del grado kinder asistan a la misma escuela que sus hermanos mayores, debe aplicar para una transferencia.

1. Usted puede obtener una aplicación en la oficina de cualquier escuela en el Distrito, y se vencen el día **28 de febrero de 2006**.
2. Las aplicaciones completadas deben ser enviadas a Jurupa Unified School District, 4850 Pedley Road, CA 92509 a no más tardar que el día **28 de febrero de 2006**. El **cumplir con la fecha de vencimiento del 28 de febrero de 2006 es crítico**, dado al rápido crecimiento del Distrito. Si su aplicación se recibe después del período de inscripción activa, se aplazará una decisión con respecto a su aplicación hasta después de que empiece la escuela en el otoño y eso disminuye bastante la probabilidad de que usted reciba una transferencia.

This is the official apportionment notification for the No Child Left Behind (NCLB) Act of 2001, Title III, Limited English Proficient (LEP) Student Program for the 2005-06 school year. Maintain a copy of the notification on file at the local educational agency (LEA).

This apportionment notification provides spending authority to the LEA for the 2005-06 school year. The California Department of Education (CDE) will deposit the apportionment electronically into the Title III account of the LEA at the local county office of education in three payments of 40 percent, 40 percent, and 20 percent.

This award is made contingent upon the availability of funds. You should be aware that the State Legislature is currently considering numerous proposals, including those made by the Governor, in light of the State's current budget crisis. Many of these proposals could potentially reduce and/or defer funds available for current year programs, including the funds available for this award. This is to advise you that if the legislature takes action to reduce or defer the funding upon which this award is based, then this award will be amended accordingly.

In 2005-06, the formula allocation of Title III funds resulted in a per pupil allocation of \$81.75 for each eligible LEP student reported on the Language Census (R30-LC) of March 2004. The R30-LC data have been augmented by the number of LEP students enrolled in local private schools and served by the LEA in 2004-05.

2. Refer to the instructions for the maximum amount of administrative funds from the different NCLB titles that may be consolidated.
