

# JUSD Facilities Newsletter

Volume 5 - Fall Issue

## Message from Dr. Trenton Hansen

Greetings JUSD Staff,

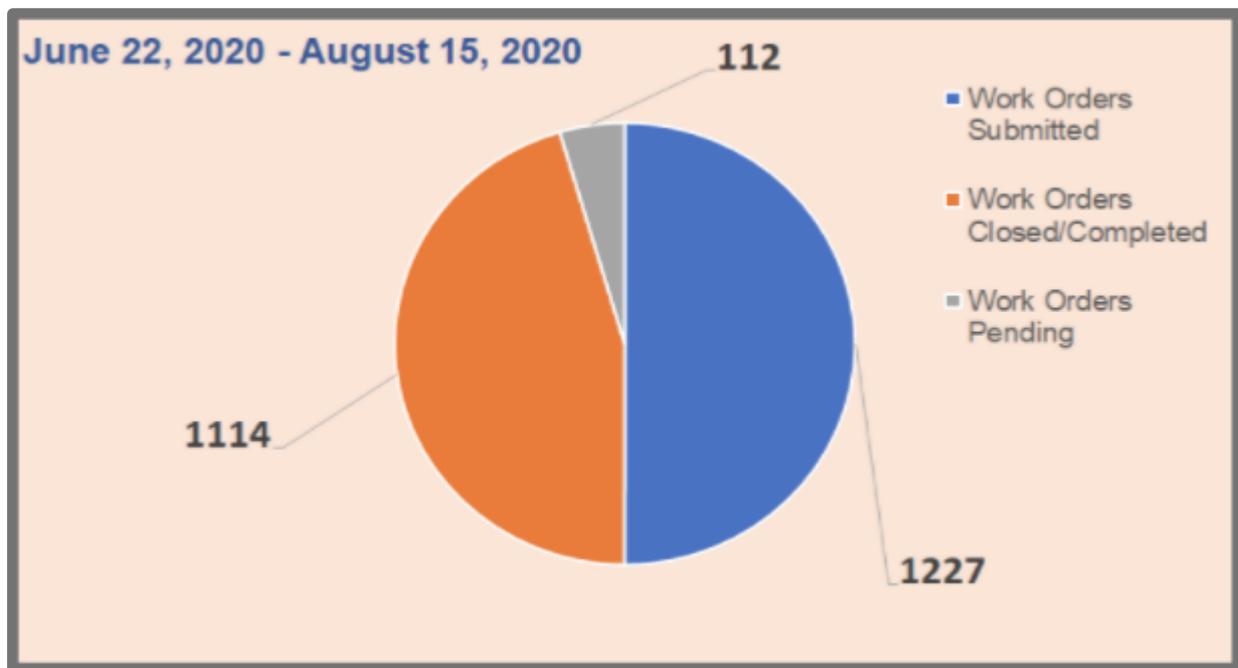

The Maintenance & Operations and Planning & Development teams made numerous upgrades throughout JUSD during very challenging spring and summer sessions. While the majority of our employees worked remotely, many classified employees were called upon to continue their efforts in maintaining our schools. Our grounds crew worked diligently to prepare school grounds and play areas in superior fashion for the possible return of students and staff. Our custodians meticulously cleaned and sanitized each school to ensure the health and safety of all those who occupy our school buildings. In scorching temperatures, our HVAC crew changed filters and serviced our air conditioning units districtwide so that our students and staff enjoy fresh, cool air when they are able to return to their classrooms. Finally, our maintenance team worked tirelessly on addressing work orders, making repairs, improving campuses, and ensuring the safe return of our students and staff. In addition to the

hard work of our M&O staff, the Planning & Development Department has been busy with numerous projects as Measure EE renovations continue to impress JUSD's parents/guardians, students, staff, and the surrounding community. Many of the projects completed and in-progress have been highlighted in this edition of our newsletter.

We are extremely proud of our M&O and P&D employees who proudly work behind the scenes to ensure our students and staff have the best learning environment possible, regardless of the challenges a pandemic might bring to a school district. Their positive, determined attitudes have propelled JUSD to be a district that can be admired and respected by all. Furthermore, we sincerely thank our exceptional school employees and district support staff for being patient while we complete our numerous districtwide projects. We appreciate our students and families that supported Measure EE and thus provided the necessary resources to update our schools, classrooms, grounds, and Career and Technical Education facilities, including the ability to provide Chromebooks to every student. The district's forethought and preparation in providing Chromebooks has especially advanced the learning opportunities for our students during this pandemic. Our community has joined Jurupa Unified in creating an optimal learning environment where our students can thrive and learn without limits. Although we have completed many projects with Measure EE, there are still several upgrades needed in our local schools.

Sincerely,  
Dr. Hansen and Staff

## Completed Maintenance Projects

### COVID-19 Protection Measures

- Installed signage district-wide.
- Provided hand sanitizer supplies to all sites.
- Installed sneeze guards in public spaces.

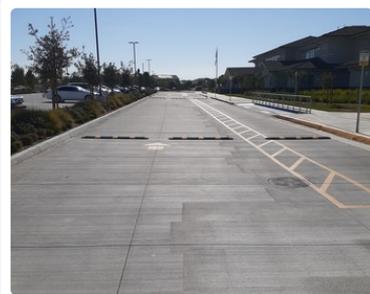

### Camino Real Elementary

- Exterior painted, including 5 portables.

### Del Sol Academy

- Repaired the rooftop refrigeration unit for the nutrition services storage area.
- Traffic management, added student drop off speed bumps.

### Ina Arbuckle Elementary

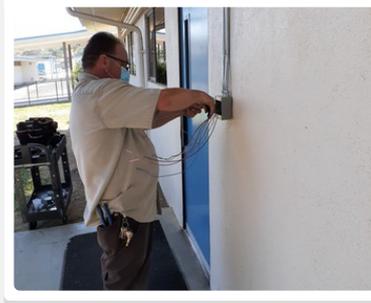

### Indian Hills Elementary

- Exterior painted, including 6 portables.
- Door finishing and replacement.
- Playground sealed and striped.

### Pacific Avenue Academy of Music

- Principal office air conditioning wiring.
- Playground sealed and striped.
- Repainted basketball backboards.

### Rustic Lane Elementary

- Exterior painted.

### Sky Country Elementary & Stone Avenue Elementary

- New tile floor in kindergarten restrooms. (SCE)
- Tile repaired in women's staff restroom. (SCE)
- New tile installed around the drain in the student restroom. (SAE)

### Sunnyslope Elementary

- Tile wall and water fountain installation.
- Anti-graffiti coat added onto the mural.
- Repainted basketball backboard and rim.

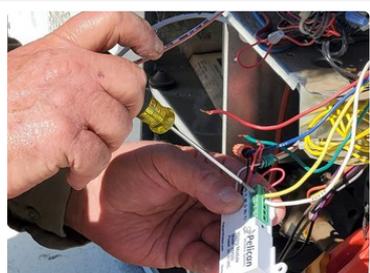

### Troth Street Elementary

- New sewer cleanout and jetting.

### West Riverside Elementary

- Repaired control, power and fan on HVAC unit for Bldg. 500.
- Fence work for tree trimmers.

### Jurupa Middle School & Mission Middle School

- Repaired power cord for the food services reach-in cooler. (JMS)

- Gym floor finished by custodial staff. (JMS)
- New vinyl composite tile flooring in room 211. (JMS)
- Exit sign installation. (MMS)

### Jurupa Valley High School

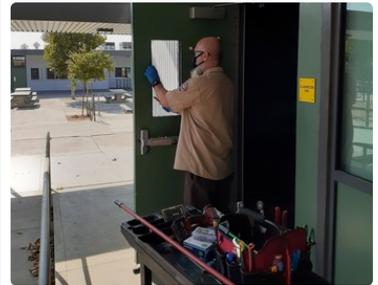

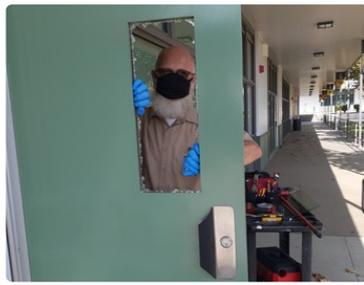

- Drive-thru graduation set up.
- Compressor serviced.
- Gym floor finished by custodial staff.

### Rubidoux High School

- Drive-thru graduation set up.
- Bldgs. 1400, 1500, 1600 and 1700 re-roofed.
- ADA truncated domes installation

- Wing 1000, window repairs.

### Nueva Vista High School

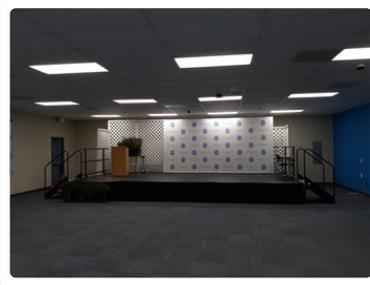

- Backflow repair.
- Room 5 door replacement.
- Glulam replacement before roofing.
- Entire campus re-roofed.

### Nutrition Services & Parent Center

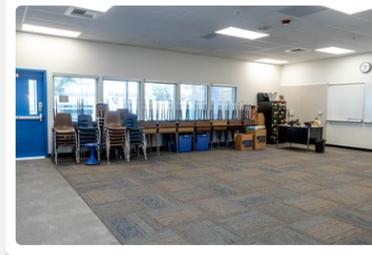

- Compressor replacement.
- 2020 Virtual Graduation set up.

## Current Measure EE Projects

### Glen Avon Elementary Modernization

Underground infrastructure, site work, classroom modernizations, new office and library building construction is ongoing. The new office and library are near ready to welcome staff and students back when schools reopen. The bright new school building colors capture the energy of the Glen Avon ES Roadrunners!

### Ina Arbuckle Elementary Sitework & Playground

This project caps off the campus-wide improvements received at Ina Arbuckle, thanks to Measure EE. The preschool program is receiving new fencing and playground equipment that will provide for a more secure point of entry for the campus and preschool program.

### West Riverside Elementary Modernization

Finishing touches on the new office, library, and classroom buildings and former office and library building that has been converted into classrooms are wrapping up now. The campus has been transformed by the new improvements and sprawling landscape improvements, including a new running track and rehabilitated playground.

## 2020 West Riverside Elementary Drone Footage

### Jurupa Middle School Modernization & Addition

Passersby can't help but notice the campus modernization kickoff at Jurupa Middle School. The front parking lot is gaining an expanded vehicle drop off loop. Construction of the new office and classroom building will commence in Fall 2020 and modernization of existing classroom buildings will follow in the 21/22 school year.

## Maintenance & Operations

 Facebook     @JurupaUSD

The Maintenance & Operations department, which includes all custodial, grounds and maintenance staff in the district; maintains safe and effective learning environments while school facility needs evolve remains a top priority of the division.
