LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Jurupa Unified School District
CDS Code: 33-67090

School Year: 2025-26

LEA contact information: Jacqueline Benson 951-360-4107 jacqueline_benson@jusd.k12.ca.us

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

Projected Revenue by Fund Source

All federal funds, $15,145,153 , 5%

All local funds, $13,079,038 , 4%

All other state funds, $37,931,877 , 11%

Total LCFF Funds , 264361308, 80%

LCFF supplemental & concentration grants, $65,975,404 , 20%

All Other LCFF funds, $198,385,904 , 60%

This chart shows the total general purpose revenue Jurupa Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Jurupa Unified School District is $330,517,376.00, of which $264,361,308.00 is Local Control Funding Formula (LCFF), $37,931,877.00 is other state funds, $13,079,038.00 is local funds, and $15,145,153.00 is federal funds. Of the $264,361,308.00 in LCFF Funds, $65,975,404.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP
This chart provides a quick summary of how much Jurupa Unified School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Jurupa Unified School District plans to spend $352,181,422.00 for the 2025-26 school year. Of that amount, $87,717,133.00 is tied to actions/services in the LCAP and $264,464,289.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:
These expenditures may include but are not limited to: regular and special education K-12 instruction and related activities, administrative and pupil support, transportation, and payments related to the construction, maintenance. and operations of all district owned K-12 facilities.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Jurupa Unified School District is projecting it will receive $65,975,404.00 based on the enrollment of foster youth, English learner, and low-income students. Jurupa Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Jurupa Unified School District plans to spend $67,756,744.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

Prior Year Expenditures: Increased or Improved Services for High Needs Students

☐ Total Budgeted Expenditures for High Needs Students in the LCAP	$73,326,413
☐ Actual Expenditures for High Needs Students in LCAP	$71,101,334

$ 0 $ 20,000,000 $ 40,000,000 $ 60,000,000 $ 80,000,000

This chart compares what Jurupa Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Jurupa Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Jurupa Unified School District's LCAP budgeted $73,326,413.00 for planned actions to increase or improve services for high needs students. Jurupa Unified School District actually spent $71,101,334.00 for actions to increase or improve services for high needs students in 2024-25. The difference between the budgeted and actual expenditures of $2,225,079.00 had the following impact on Jurupa Unified School District's ability to increase or improve services for high needs students:

The actual expenditures from LCFF Supplemental and Concentration grants were 97% of the total budgeted expenditures in 2024-25, and other state and federal revenues provided additional support to the implementation of the actions. There was no significant impact on the actions and services for high needs students. Additionally, the 2024-25 expenditures still met the increased/improved services requirement by expending $71,101,334, which does not result in any carryover.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Jurupa Unified School District	Trenton Hansen, Ph.D. Superintendent	JUSD.Superintendent@jusd.k12.ca.us 951-360-4100

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Geographic and Community Overview
Jurupa Unified School District is located within the boundaries of the City of Jurupa Valley, which was incorporated on July 1, 2011. The city spans approximately 44 square miles and encompasses the communities of Jurupa Hills, Mira Loma, Glen Avon, Pedley, Indian Hills, Belltown, Sunnyslope, Crestmore Heights, and Rubidoux. Jurupa Valley borders San Bernardino County to the north and west, the City of Riverside to the south and east, and Eastvale to the west. It is traversed by Interstate 15 (north-south) and State Highway 60 (east-west), and is intersected by sections of the Santa Ana River. The area reflects a mix of high- and low-density residential neighborhoods, rural agricultural zones, and pockets of commercial and industrial activity.

Schools and Student Enrollment
As of Fall 2024, Jurupa Unified School District serves 17,814 students across 16 elementary schools, one K-8 school, three middle schools, three comprehensive high schools, and one continuation high school. The district also operates an Adult Alternative Education program and a Pre-K School Readiness Center to support lifelong learning and early academic foundations.

Unduplicated and High-Need Student Groups
Jurupa USD's student population reflects significant need: 79% (14,088 students) qualify for the free or reduced lunch program. The district also serves 141 foster youth and 98 homeless youth. English Learners make up a substantial portion of the population, totaling 5,029 students. The combined unduplicated pupil count stands at 14,660, representing over 82% of the district's students. This overlap among high-need groups necessitates a coordinated approach to providing both academic and social-emotional support.

Equity Multiplier School
Nueva Vista Continuation High School qualifies for Equity Multiplier funding due to a 2023–24 non-stability rate of 78.5% and a socioeconomically disadvantaged rate of 87.6%. In response, the district has developed an Equity Multiplier Focus Goal, detailed in LCAP Goal #4, to ensure targeted, evidence-based supports for students at this site, consistent with California Department of Education requirements.

Community Challenges and Commitments
Jurupa Valley faces unique challenges that impact student outcomes. Many families experience economic hardship, which may limit access to stable housing, nutritious food, and digital resources. The 2024–25 R-30 Language Census identifies over 30 languages spoken in student homes, creating both a strength and a call to action for providing differentiated English Learner support. Additionally, community safety is a concern due to elevated crime and gang activity in certain neighborhoods, contributing to heightened stress and attendance barriers. These realities require robust district responses that combine high-quality instruction with wraparound services, mental health supports, and community partnerships.

Vision and Strategic Alignment
In alignment with Jurupa USD's mission to foster learning without limits, the district continues to expand equitable opportunities, engage educational partners, and respond proactively to student needs. Jurupa USD remains committed to meaningful engagement, data-informed decision-making, and continuous improvement to ensure all students graduate prepared for college, career, and life.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Note: This section includes performance data from the Fall 2024 California School Dashboard and the required baseline data from the Fall 2023 Dashboard (reflecting the 2022–23 school year). According to California Department of Education guidelines, the 2023 Dashboard data must be maintained in the LCAP throughout the entire three-year cycle as baseline data.

Fall 2024 California Dashboard – Red Performance Level
English Language Arts (ELA) Indicator – Schools:
-Mission Middle
-Rubidoux High
-Rustic Lane Elementary

ELA Indicator – Student Groups:
-Long-Term English Learners
-Foster Youth
-Students with Disabilities

Note: The following data are from the Fall 2023 Dashboard and must remain unchanged in the LCAP for the full three-year cycle as required baseline data.

Fall 2023 California Dashboard – Baseline Data
ELA Indicator – Schools with Red Performance:
-Ina Arbuckle Elementary
-Mission Bell Elementary
-Mission Middle
-West Riverside Elementary

ELA Indicator – Student Groups with Red Performance:
-English Learners
-Foster Youth
-Homeless
-Students with Disabilities

ELA Indicator – Site-Specific Student Groups with Red Performance:
-Camino Real Elementary: Students with Disabilities
-Del Sol Academy: English Learners, Students with Disabilities
-Glen Avon Elementary: English Learners, Students with Disabilities
-Granite Hill Elementary: English Learners
-Ina Arbuckle Elementary: Socioeconomically Disadvantaged, English Learners, Hispanic
-Jurupa Middle: English Learners, Students with Disabilities
-Jurupa Valley High: Socioeconomically Disadvantaged, English Learners, Students with Disabilities, and Hispanic
-Mission Bell Elementary: Socioeconomically Disadvantaged, English Learners, Students with Disabilities, Hispanic
-Mission Middle: Socioeconomically Disadvantaged, English Learners, Hispanic
-Patriot High: English Learners
-Pedley Elementary: English Learners, Students with Disabilities
-Peralta Elementary: Socioeconomically Disadvantaged, English Learners
-Rustic Lane Elementary: Socioeconomically Disadvantaged, English Learners
-Sky Country Elementary: English Learners
-Sunnyslope Elementary: English Learners, Students with Disabilities
-Troth Street Elementary: English Learners, Students with Disabilities
-Van Buren Elementary: Students with Disabilities
-West Riverside Elementary: Socioeconomically Disadvantaged, English Learners, Hispanic

Addressing Identified Areas of Need
The district is fully committed to improving ELA outcomes for all students, with a focus on the schools and student groups identified as having the lowest performance on the Fall 2023 Dashboard. Key schools include Ina Arbuckle Elementary, Mission Bell Elementary, Mission Middle, and West Riverside Elementary.

To address these persistent gaps, we are implementing a multi-pronged approach centered on Quality Teaching for English Learners (QTEL) strategies. These strategies are designed to support all students, especially those in high-need groups such as English learners, foster youth, homeless students, and students with disabilities.

QTEL-Based Strategies for All Students:
-Explicit Instruction: Complex concepts are broken down into manageable steps, supported by visuals and manipulatives to support diverse learners. (Action 1.11)
-Language Development: Instruction builds academic vocabulary and oral language to strengthen comprehension and expression. (Action 1.11)
-Differentiation: Teachers use varied instructional methods and materials tailored to students' needs, including scaffolding and enrichment. (Actions 1.7 & 1.8)
-Formative Assessment: Ongoing checks for understanding guide instruction and allow for timely intervention. (Action 1.14)
-Home-School Collaboration: Engagement with families ensures consistent support for ELA learning across home and school environments. (Action 3.3)

Additional Support for High-Needs Students:
-Targeted Interventions: Small group or individualized instruction for students requiring additional academic support. (Actions 1.7 & 1.8)
-Culturally Responsive Instruction: Lessons integrate students' cultural experiences to enhance relevance and engagement. (Action 1.1)
-Social-Emotional Learning (SEL): Integrated SEL supports address the emotional and social challenges faced by high-needs student groups. (Action 2.2)

Fall 2024 California Dashboard – Red Performance Level
Mathematics Indicator – Schools:
-Jurupa Valley High
-Mission Middle
-Rubidoux High

Mathematics Indicator – Student Group:
-Foster Youth

We celebrate our 5.7-point increase in distance from the standard in mathematics for all students on the Fall 2024 California Dashboard.

Fall 2023 California Dashboard – Baseline Data
Mathematics Indicator – Schools with Red Performance:
-Ina Arbuckle Elementary
-Jurupa Middle
-Mira Loma Middle
-Mission Bell Elementary

-Mission Middle
-Patriot High
-Rubidoux High

Mathematics Indicator – Student Groups with Red Performance:
-Socioeconomically Disadvantaged
-English Learners
-Foster Youth
-Homeless
-African American
-Hispanic

Mathematics Indicator – Site-Specific Student Groups with Red Performance:
-Camino Real Elementary: Students with Disabilities
-Del Sol Academy: English Learners, Students with Disabilities
-Ina Arbuckle Elementary: Socioeconomically Disadvantaged, English Learners, Hispanic
-Jurupa Middle: Socioeconomically Disadvantaged, English Learners, Hispanic
-Mira Loma Middle: Students with Disabilities
-Mission Bell Elementary: Socioeconomically Disadvantaged, English Learners, Hispanic
-Mission Middle: Socioeconomically Disadvantaged, English Learners, Students with Disabilities, Hispanic
-Patriot High: Socioeconomically Disadvantaged, English Learners, Hispanic, White
-Pedley Elementary: English Learners
-Peralta Elementary: Students with Disabilities
-Rubidoux High: Socioeconomically Disadvantaged, Hispanic
-Rustic Lane Elementary: English Learners
-Sunnyslope Elementary: Students with Disabilities
-Troth Street Elementary: English Learners, Students with Disabilities
-West Riverside Elementary: Socioeconomically Disadvantaged, English Learners

Addressing Identified Areas of Need
The district is fully committed to addressing the consistently low mathematics performance at identified schools, particularly those with a Red performance level in both the 2023 and 2024 Dashboards: Mission Middle School and Rubidoux High School.

Our plan prioritizes support for the most affected student groups: socioeconomically disadvantaged students, English learners, foster youth, homeless youth, and African American and Hispanic students.

A Multi-Tiered Approach
-Targeted Professional Development: Math teachers at the identified schools will receive ongoing, job-embedded professional development focused on high-impact, research-based instructional strategies for diverse learners. This includes explicit support strategies for English learners and underserved populations. (Action 1.2)

-Data-Driven Instruction: Regular data analysis cycles will be implemented to identify student needs by group and topic. Instruction will be tailored accordingly, with strategic interventions aligned to formative data. (Action 1.14)

-Equity-Focused Strategies: Culturally responsive practices will be integrated into math instruction to reflect better the experiences and backgrounds of our diverse student body, fostering inclusivity and empowerment. (Action 2.2)

Group-Specific Supports
-Socioeconomically Disadvantaged and English Learners: Students will receive enhanced resources, including manipulatives, visual supports, and math language scaffolds. Instructional materials will be adapted to support English language development within the context of mathematics. (Action 1.1)

-Foster & Homeless Youth: The district will embed trauma-informed practices and social-emotional learning (SEL) supports into math instruction, while strengthening interagency partnerships to ensure consistent support and advocacy for these students. (Action 1.10)

-African American & Hispanic Students: Instructional materials will reflect the cultural backgrounds and lived experiences of these student groups. Community partnerships will be leveraged to support academic engagement and cultural affirmation. (Action 1.1)

Fall 2024 California Dashboard – Red Performance Level
Schools with Red Performance Level on the College/Career Indicator (CCI):
-None

Student Groups with Red Performance Level on the CCI:
-None

Fall 2023 California Dashboard – Baseline Data
Schools with Lowest Status Level on the CCI:
-Nueva Vista Continuation High

Student Groups with Lowest Status Level on the CCI (Districtwide):
-None

Student Groups with Lowest Status Level on the CCI at School Sites:
-Nueva Vista Continuation High: Socioeconomically Disadvantaged, English Learners, Students with Disabilities, Hispanic
-Rubidoux High: Students with Disabilities

Addressing Identified Areas of Need

Nueva Vista Continuation High is committed to ensuring equitable access to college and career preparation. While no schools or student groups were rated at the lowest performance level in Fall 2024 at the district level, the 2023 Dashboard baseline identifies specific student groups at Nueva Vista and Rubidoux High that require focused support to improve College/Career Indicator (CCI) outcomes.

Key Strategies
-Career Technical Education (CTE) Pathway Completion: All students at Nueva Vista will work toward completing a CTE pathway that equips them with industry-relevant skills and certifications, directly contributing to improved College/Career Indicator (CCI) scores. (Actions 1.9 and 4.1)
-Graduation Requirements: The school will phase out minimum graduation requirements to better align coursework with post-secondary and workforce expectations. (Action 1.9)
-Dual Enrollment Expansion: Students will have access to tuition-free dual enrollment opportunities, increasing both college readiness and College/Career Indicator (CCI) credit eligibility. (Action 1.9)

Group-Specific Support Strategies
-Socioeconomically Disadvantaged Students: Tuition-free dual enrollment and embedded college and career guidance.
-English Learners: Language development is supported within CTE instruction to ensure accessibility and academic growth.
-Students with Disabilities: Individualized academic and transition plans that align CTE pathways with support services to enhance readiness for post-secondary success.
-Hispanic Students: Utilization of culturally relevant curricula and bilingual counseling services to ensure the navigation of CTE and college options is supportive and inclusive.

This focused approach is rooted in the district's vision of removing barriers and increasing post-secondary success for all students, especially those in historically underserved groups.

Fall 2024 California Dashboard – Red Performance Level

-Patriot High
-Rubidoux High
-Troth Street Elementary
-West Riverside Elementary

Student Groups with Red Performance on ELPI:
-Not applicable

Site-Specific Student Groups with Red Performance on ELPI:
-Not applicable

Addressing Identified Areas of Need
The district is committed to improving outcomes for English Language Learners (ELLs), particularly at the nine schools identified in the 2023 Dashboard baseline data as performing at the lowest level on the ELPI: Camino Real Elementary, Del Sol Academy, Indian Hills Elementary, Jurupa Middle, Nueva Vista Continuation High, Patriot High, Rubidoux High, Troth Street Elementary, and West Riverside Elementary.

To address these needs, the district is implementing a comprehensive, multi-pronged approach grounded in the WestEd Quality Teaching for English Learners (QTEL) framework. This research-based model enhances teacher practice and accelerates language development for English learners.

QTEL-Based Strategies and Supports
-Professional Development: Targeted professional development is being provided to teachers and staff in the identified schools, focusing on QTEL principles and scaffolding strategies for integrating language and content. (Actions 1.11, 1.12, 1.2)
-Instructional Leadership: Instructional leaders are being equipped to support classroom implementation of QTEL strategies. This includes in-class coaching and collaboration to ensure consistent use of language-rich, cognitively demanding instruction. (Action 1.2)
-Data-Driven Decision-Making: ELPI data and other assessment results are being used to monitor progress, identify specific student needs, and tailor interventions at the site level. This ongoing data analysis supports continuous improvement and customization of support. (Actions 1.5 and 1.14)

By focusing on strong professional development, instructional leadership, and actionable data, the district is taking decisive steps to improve English language proficiency and academic outcomes for English learners. Progress will be monitored regularly, and the district is committed to transparent reporting and ongoing refinement of these strategies.

Fall 2024 California Dashboard – Red Performance Level

-None

Fall 2023 California Dashboard – Baseline Data
Graduation Rate Indicator – Schools with Red Performance:
-None

Graduation Rate Indicator – Student Groups with Red Performance:
-None

Graduation Rate Indicator – Site-Specific Student Groups with Red Performance:
-None

Highlighting Strengths and Continued Commitment
The district is proud to report that no schools or student groups received the lowest performance level (Red) on the Graduation Rate Indicator in either the Fall 2023 baseline data or the Fall 2024 update. This reflects the effectiveness of sustained efforts to support students across diverse pathways and reinforce a culture of high expectations.

Graduation success is a shared outcome of several district-wide initiatives, including:
-Early identification and support for at-risk students, ensuring timely interventions through counseling and credit recovery.
-Personalized graduation planning, including pathways through Career Technical Education (CTE), dual enrollment, and work-based learning.
-Expanded support teams at continuation and comprehensive high schools to help students navigate academic and personal barriers.

The district will continue to build on this success through strategic planning and targeted support, ensuring that every student has the opportunity to graduate prepared for college, career, and life.

Chronic Absenteeism Indicator – Site-Specific Student Groups with Red Performance:
-Camino Real Elementary: Socioeconomically Disadvantaged, English Learners, Asian, White
-Del Sol Academy: English Learners, Students with Disabilities, Multiple Races
-Granite Hill Elementary: Students with Disabilities
-Ina Arbuckle Elementary: Students with Disabilities
-Indian Hills Elementary: Socioeconomically Disadvantaged, Students with Disabilities
-Jurupa Middle: White
-Mission Middle: English Learners
-Peralta Elementary: Students with Disabilities
-Stone Avenue Elementary: White

Addressing Identified Areas of Need
The district recognizes the persistent challenges of chronic absenteeism, particularly at Camino Real Elementary and among Homeless Youth, English Learners, Students with Disabilities, and various racial/ethnic subgroups. We are committed to a multi-tiered strategy that supports students and families while addressing the root causes of absenteeism.

School-Level Focus: Camino Real Elementary
-A dedicated, data-informed attendance team will assess attendance patterns and root causes to inform interventions. (Action 2.2)
-Targeted interventions may include health screenings, after-school enrichment, and culturally inclusive family engagement. (Action 3.1)
-Strong relationships will be built between families, staff, and students to cultivate a climate of belonging and shared responsibility. (Action 3.1)

District-Wide Focus on Homeless Youth
-Collaboration with shelters and service providers will ensure access to transportation, basic needs, and stability. (Action 1.10)
-A Counselor for Homeless Youth will continue providing trauma-informed counseling, case management, and academic support. (Action 1.10)
-Flexible enrollment and attendance accommodations will help minimize disruptions in school continuity. (Action 1.10)

Group-Specific Supports
-Socioeconomically Disadvantaged Students: Support from community partners will provide essentials like clothing, food, and healthcare. (Action 3.4)
-English Learners: Language support programs and culturally responsive instruction will help re-engage students. (Actions 1.11 and 1.12)
-Students with Disabilities: IEPs will be reviewed to address attendance barriers, and flexible scheduling or in-home supports will be provided when necessary. (Action 2.2)

-Racial/Ethnic Groups: Attendance data will be disaggregated to reveal and address specific challenges. Culturally relevant strategies and inclusive school practices will celebrate and engage diverse communities. (Action 2.2)

Through proactive, inclusive, and data-informed practices, the district is working to reduce chronic absenteeism and ensure all students are present, engaged, and supported in their educational journey.

Fall 2024 California Dashboard – Red Performance Level

-Ina Arbuckle Elementary

Suspension Rate Indicator – Student Groups with Red Performance:
-American Indian

Suspension Rate Indicator – Site-Specific Student Groups with Red Performance:
-Ina Arbuckle Elementary: Socioeconomically Disadvantaged, Hispanic

Addressing Identified Areas of Need
The district has initiated efforts to reduce suspension rates and strengthen school climate, with particular attention to Ina Arbuckle Elementary and to supporting American Indian students districtwide. These efforts reflect a commitment to improving student experiences and addressing disparities.

Progress at Ina Arbuckle Elementary
-A root cause analysis process has been initiated to better understand the factors contributing to higher suspension rates, especially among Socioeconomically Disadvantaged and Hispanic students. Preliminary insights are guiding adjustments in practice. (Action 2.2)
-Positive Behavioral Interventions and Supports (PBIS) have been introduced at the site, with staff participating in foundational training and beginning to implement consistent schoolwide expectations and behavior supports. (Action 2.2)
-Culturally responsive practices have been emphasized through professional development and discussions, aiming to create more inclusive classroom environments. (Action 1.1)

Districtwide Focus on American Indian Students
-The district has reviewed suspension data for American Indian students and identified areas for growth. This information is being used to inform next steps. (Action 2.2)

These efforts represent the early phases of a broader initiative to improve school climate and student belonging. Continued professional learning, data review, and support structures will help the district advance this work in a thoughtful and equitable manner.

Learning Recovery Emergency Block Grant (LREBG) Funds – 2025–26 LCAP
For the 2025–26 LCAP year, Jurupa Unified School District has unexpended Learning Recovery Emergency Block Grant (LREBG) funds. These funds will be strategically used over the next three school years (2025–26, 2026–27, and 2027–28) to support sustained college and career readiness efforts aligned with LCAP goals, with $2,422,910 being used in the 2025-26 school year to support the following:

Actions Funded by LREBG and Alignment
Goal 1, Action 9: College and Career Readiness
-4.5 FTE Middle School Counselors
-3 FTE High School Counselors
-3 High School Assistant Principals
-Secretarial support for each assistant principal

Rationale and Alignment with LREBG Requirements:
These positions are aligned with the allowable uses of LREBG funds under EC Section 32526(c)(2), specifically:
-Providing instruction and services to address barriers to learning, including counseling, student support, and mental health services.
-Accelerating progress to close learning gaps through the implementation of student supports.

Furthermore, these actions, supported by LREBG funds, are based on promising research into the expertise that counselors possess in designing schedules that optimally prepare students for college, identifying students who may be falling off a college-preparatory track, and allowing time for interventions (Education Trust, 2011). Research has shown that the role of the Assistant Principal actively fosters and sustains a school-wide college-going culture, communicating high expectations for all students and making postsecondary education a visible and attainable goal (Journal of School Leadership, 2017).

The district's needs assessment (EC Section 32526(d)) identified a significant need to strengthen academic counseling and college readiness pathways. Only 18.4% of students in the combined four- and five-year graduation cohort met the "Prepared" status on the College and Career Indicator (CCI) via a Level 3 score ("Standard Met") on the
Smarter Balanced Assessment for ELA or Math. This falls within Level 1 on the Dashboard for percent prepared and indicates a pressing need for expanded academic guidance.

By funding additional middle and high school counselors and high school assistant principals, the district is addressing a system-level need to:
-Increase personalized academic planning and course access
-Support progress monitoring toward A-G and CCI benchmarks
-Provide early interventions for students at risk of not graduating prepared
-Ensure alignment of instructional and career pathways with college and post-secondary goals

These investments are designed to build capacity and sustainability in the district's college and career support infrastructure, especially for students underperforming on the Smarter Balanced Assessment.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

In alignment with EC Section 52071, Jurupa Unified School District was identified for Differentiated Assistance (DA) in 2024 for the Foster Youth student group. This designation was based on performance data from the California School Dashboard, where Foster Youth received the lowest performance level (Very Low) on the following indicators:

- English Language Arts: 84.7 points below standard (declined 11 points)
- Mathematics: 114.5 points below standard (declined 1.7 points)
- Chronic Absenteeism: 37.1% (increased 6.7 percentage points)

In response, the district has engaged in a collaborative, equity-centered continuous improvement process. Site and district teams have been working together to identify root causes, co-design supports, and create systemwide structures that uplift and empower Foster Youth.
Summary of Work Underway
Integrated Supports for Foster Youth:

- Behavioral Health Peer Specialist Check-ins: Foster Youth are supported through the PICO program (Action 3.4), with behavioral health peer specialists offering emotional check-ins, culturally responsive wellness support, and crisis referrals.
- "EmpowerHer" Leadership Event: This Saturday leadership program for female Foster Youth supports self-confidence, mentorship, and peer connection (Actions 1.10 & 3.4).
- Empathy Interviews: Staff conduct interviews (Action 1.10) to gather student voice and better understand lived experiences, informing trauma-informed practices.
- RCOE App Development: Foster Youth students have partnered with RCOE to design a mobile app connecting peers with local resources.
- Networked Learning: Monthly Foster Youth network meetings with other districts promote shared practices and improve interagency collaboration (Action 1.10).
- Best Interest Determination (BID) Meetings: In line with AB 490, the district facilitates BID meetings (Action 2.1) to ensure stable placements and continuity of services.
- Dedicated Counseling Services: The Foster and Homeless Youth Counselor offers wraparound support, including transcript review, tutoring referrals, and navigation of community services (Action 1.10).
- Mental Health and Wellness Supports: Tiered supports include access to school-based therapy, case management, and calming corners, provided through PICO and MTSS (Actions 2.2, 3.4).
- Trauma-Informed Practices: Ongoing professional development supports teachers in creating welcoming, predictable environments (Actions 1.2 & 2.2).
- Targeted Academic Supports: Foster Youth are supported with tutoring, learning plans, and MTSS-based instruction (Actions 1.7, 1.8, 2.2).

- Attendance and Transportation: The district supports school stability through BID coordination and improved transportation access (Action 2.2).
- Data Monitoring: A District Health Dashboard enables real-time monitoring of academic, attendance, and social-emotional data, allowing for timely interventions (Action 1.14).

Looking Ahead
Jurupa USD remains committed to addressing systemic disparities affecting Foster Youth through student-centered design, strategic partnerships, and continuous improvement. The actions taken to date reflect our district's core values and dedication to providing equitable learning environments for all students.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

No schools have been identified for comprehensive support and improvement (CSI) for the 2025-26 school year.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

No schools have been identified for comprehensive support and improvement (CSI) for the 2025-26 school year.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

No schools have been identified for comprehensive support and improvement (CSI) for the 2025-26 school year.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Parents	We are committed to meaningful parent engagement as it develops its Local Control and Accountability Plan (LCAP). Here's a look at how parents can give input and how JUSD facilitates this: Methods of Engagement -District Advisory Committee (DAC): JUSD's DAC includes parent representatives who provide feedback on the LCAP. DAC meetings are open to the public and provide a formal channel for parent voices. The 2024-25 DAC dates are October 15, 2024; February 4, 2025; April 1, 2025; and May 22, 2025. -District English Learner Advisory Committee (DELAC): Parents of English learners have this dedicated committee to advocate for their children's needs, including LCAP input. The 2024-25 DELAC dates were October 2, 2024; December 11, 2024; February 5, 2025; April 16, 2025; and May 22, 2025. -Surveys and Feedback Forms: JUSD regularly uses surveys to gather parent input on LCAP priorities. These are available online and may be distributed in print at school events. -School Site Councils (SSCs): Parents elected to their school's SSC are directly involved in school-level planning and can ensure LCAP discussions are incorporated into SSC meetings. -ParentSquare Communication: JUSD uses ParentSquare to share important information, including LCAP updates and opportunities to provide feedback.

Educational Partner(s)	Process for Engagement
	Important Resources for JUSD Parents -JUSD LCAP Webpage: Offers current and past LCAP plans, meeting information, and district contacts. [https://jurupausd.org/our-district/edserv/accountability/LCFFandLCAP/Pages/default.aspx] -Parent Engagement and Outreach Webpage: Details ways for parents to get involved. [https://jurupausd.org/our-district/ps/pico/Pages/default.aspx]
Students	We prioritize meaningful student involvement in developing the Local Control and Accountability Plan (LCAP). This ensures that the LCAP addresses student needs and that their voices directly shape their educational experience. Here's how JUSD engages students: School Site Level: -Student Surveys: Schools often issue surveys, such as Panorama Fall and Spring surveys, to gather student feedback regarding school climate, academic programs, support services, and overall learning experiences. This data helps identify areas for improvement within the LCAP. -Student LCAP Focus Groups: The Assistant Superintendent of Education Services and Director of Funding & Program Accountability hosted focused discussions with diverse student groups to gather in-depth qualitative feedback regarding specific LCAP goals and actions at each of the three comprehensive high schools and continuation high schools. The focus groups were held on April 9, 2025 (NVHS), April 10, 2025 (JVHS), and April 18, 2025 (PHS & RHS). -Student Representation in middle and high school School Site Councils (SSC): SSCs play a key role in LCAP development. Student representatives within SSCs offer valuable insights and advocate for their peers' needs. We acknowledge that student engagement is an ongoing process. The district remains committed to expanding avenues for student participation and ensuring their input is meaningfully considered in the LCAP development.

Educational Partner(s)	Process for Engagement
Teachers	We recognize teachers' crucial role in delivering instruction, understanding student needs, and shaping a supportive educational environment. Here's how we engage teachers in the LCAP process: School Site Level: -School Site Council (SSC) Participation: Teachers are core members of SSCs, which are directly involved in analyzing school data, developing the School Plan for Student Achievement (SPSA), and aligning it with the LCAP. -Department Collaboration: Departments often meet to analyze student performance data, discuss successful instructional strategies, and identify areas for improvement that can be addressed in the LCAP. -Staff Surveys and Feedback Sessions: Schools gather teacher input through surveys and focused discussions to identify needs for professional development, instructional resources, and program supports within the LCAP. District Level: -Teacher Representation on District Committees: JUSD includes teachers in district-level committees responsible for aspects of LCAP development, such as curriculum, professional development, and budget recommendations. -NEA-Jurupa Collaboration: The district works in close collaboration with NEA-Jurupa to ensure teacher voices are heard in the LCAP process and address working conditions and professional development needs. -District-Wide Professional Development: The LCAP often funds professional development for teachers in alignment with student needs, emerging teaching practices, and technology integration. We value a collaborative effort and remain committed to ensuring meaningful teacher participation in the LCAP development process. The district seeks to refine processes for gathering teacher feedback and ensuring strong alignment between teacher input and LCAP actions.

Educational Partner(s)	Process for Engagement
Principals and Administrators	To ensure active principal engagement in the development of the LCAP, our district employs a multifaceted strategy. Bi-monthly Principal Council meetings provide a forum for discussion, feedback, and updates on many of the LCAP actions and services. Additionally, targeted surveys gather specific insights from principals regarding their schools' unique challenges, priorities, and resource needs. Importantly, we emphasize close alignment between the SPSA and LCAP processes. Feedback from principals directly informs their SPSAs, ensuring that individual school goals contribute seamlessly to the district's broader LCAP objectives. This integrated approach fosters a sense of ownership among principals, promotes data-driven decision-making, and strengthens the coherence of our district's educational vision.
Other School Personnel	To ensure that our LCAP development process is inclusive and representative, we prioritize the involvement of diverse school personnel beyond teachers and principals. We utilize surveys specifically designed to gather input from classified staff, counselors, librarians, and other support personnel. Their insights on student needs, resource allocation, and program effectiveness are invaluable. Furthermore, we encourage these staff members to actively participate in relevant school committees where their input directly shapes the SPSA, aligning with and informing the district's LCAP. This collaborative approach ensures that all voices within our schools contribute to the LCAP, fostering a shared sense of purpose and creating a plan that truly reflects the needs of our entire learning community.
Local collective Bargaining Units (NEA-Jurupa & CSEA)	We maintain a strong working relationship with our local collective bargaining units, NEA-Jurupa and CSEA, to ensure their perspectives are integrated into the LCAP development process. Representatives from both units actively participate in LCAP feedback sessions (NEA-Jurupa on April 16, 2025, and CSEA on April 10, 2025), providing valuable input and feedback on district goals and actions. We conduct regular consultations on areas where the LCAP potentially impacts working conditions, resource allocation, and professional development. This open communication and partnership with NEA-Jurupa and CSEA is essential in crafting an LCAP that aligns with the

Educational Partner(s)	Process for Engagement
	needs of students while reflecting the priorities of our educators and staff.
District Advisory Council (DAC)	We actively engage our District Advisory Council (DAC) throughout the LCAP development process. DAC members, appointed by recommendations from school-level SSC or principals, represent a diverse cross-section of parents. DAC meetings provide a dedicated forum for reviewing district goals, analyzing data, and providing recommendations that shape the LCAP. Additionally, we maintain close communication with the District English Learner Advisory Committee (DELAC) when addressing resource allocation and program design for English Learners. This robust collaboration with the DAC ensures the LCAP benefits from a wide range of perspectives and strengthens parent and community involvement in district-wide decision-making. The 2024-25 DAC dates are October 15, 2024; February 4, 2025; April 1, 2025; and May 22, 2025.
District English Learners Advisory Council (DELAC)	We work closely with our District English Learner Advisory Council (DELAC) to ensure the LCAP comprehensively addresses the needs of our English learner population. DELAC representatives actively provide essential feedback on resource allocation, language development programs, and strategies for supporting English learners. We share relevant survey data and LCAP drafts throughout the development process to obtain DELAC insights and ensure alignment with best practices for English learner support. Additionally, the DELAC plays a critical role in reviewing and commenting on the district's master plan for English learners, shaping the broader framework that guides LCAP actions. This strong partnership with DELAC promotes the development of an LCAP that effectively targets the needs of our English learner students and their families. The 2024-25 DELAC dates were October 2, 2024; December 11, 2024; February 5, 2025; April 16, 2025; and May 22, 2025.
Special Education Local Plan Area (SELPA) Administrator	We collaborate closely with our Special Education Local Plan Area (SELPA) Administrator to ensure strong alignment between the LCAP, our special education programs, and the Compliance and Improvement Monitoring (CIM) Planning and Implementation document. Their input guides resource allocation, professional development, and strategies for students with disabilities. We integrate LCAP goals with CIM areas of improvement and monitor

Educational Partner(s)	Process for Engagement
	relevant metrics across both, promoting a cohesive approach that supports all students and drives continuous district improvement. An additional LCAP consultation process occurred on April 15, 2025.
Nueva Vista Continuation High (Students, Staff, and Parents)	District and site administration worked with educational partners at Nueva Vista Continuation High to gather input on the continued implementation of the school's Equity Multiplier Focus Goal. Students engaged in an LCAP Student Focus group. Simultaneously, a survey allowed staff and teachers to contribute. Parents, too, had a voice through an LCAP survey focusing on their child's academic needs and well-being.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Parents
-Parent engagement is a key priority for our district. We're pleased that 91% of parents responded favorably to the question in our LCAP survey that the district encourages parents to be an active partner with the school in educating their child. However, we're always striving to improve. To further enhance communication and collaboration, we will continue to increase opportunities through "Parent and Community Opportunities" (Action 3.1), and we will continue to explore more accessible communication channels to reach all parents through our "Communication Outreach" (Action 3.3). The success of these efforts will be measured by increased parent participation in events and surveys.

Students
-Student success remains at the heart of the LCAP, and the input gathered through our LCAP Student Focus Groups is highly valued. Students shared a strong interest in expanding access to CTE Pathways, academic support services, and behavioral health resources. In response, the LCAP dedicates funding to enhance CTE programs and Dual Enrollment opportunities (Action 1.9). To strengthen academic support, the LCAP invests in targeted interventions for ELA, ELD, and math (Action 1.8). Additionally, to promote student well-being, the plan allocates resources to increase counseling staff (Action 1.9), expand access to mental health professionals (Action 2.4), and implement social-emotional learning initiatives (Action 2.2).

Teachers
-The LCAP recognizes the vital role teachers play in student success. We value the feedback received from our educators during discussions and surveys. A key area raised by teachers was the need for greater student academic support and additional emphasis on the appropriate level of rigor of work for students. To strengthen student academic support, the LCAP allocates funds for hiring additional teachers to serve as support teachers for ELA and Math (actions 1.7 and 1.8). The LCAP prioritizes professional development by providing a wide range of workshops on effective instructional strategies that emphasize rigorous grade-level standards (action 1.2).

Principal and Administrators

-The leadership and input of our principals and administrators play a vital role in shaping the LCAP. Through their feedback, the ongoing need for enhanced administrative support and expanded student behavioral health services was emphasized. In response, the LCAP will maintain investments in TSA-Administrative Support and Assistant Principal positions (Actions 1.7 and 1.9) to provide site leaders with greater capacity to focus on instructional leadership and schoolwide improvement efforts. Additionally, recognizing the critical connection between student wellness and academic success, the LCAP continues to strengthen behavioral health services by funding additional school counselors (Action 1.9), expanding access to mental health professionals (Action 2.4), and advancing social-emotional learning initiatives (Action 2.2). These efforts aim to foster a more supportive and thriving environment for all students.

Other School Personnel
-The development of the LCAP is strengthened by the voices of all school personnel. In addition to teachers and principals, essential contributions came from counselors, librarians, instructional assistants, and other staff members who are critical to supporting student achievement. Feedback from these groups underscored the need for expanded professional development opportunities. To address this, the LCAP dedicates resources to a comprehensive professional learning program designed to meet the unique needs of all staff members across school sites (Action 1.2).

Local Collective Bargaining Units (NEA-Jurupa & CSEA)
-The LCAP development process benefits from the collaborative efforts of our employee groups. We appreciate the valuable feedback received from NEA-Jurupa, representing certificated staff, and CSEA, representing classified staff. NEA-Jurupa emphasized the need for additional support for English Learners, increased resources available to classroom teachers, and expanded professional development opportunities. NEA-Jurupa emphasized the ongoing need for strong support for English Learners as well as expanded professional development opportunities for teachers. In response, the LCAP allocates funds for bilingual language tutors (Action 1.11), the development of new curriculum materials specifically designed for English Learners (Action 1.1), and professional learning focused on effective ELL instructional strategies (Actions 1.11 and 1.12). Additionally, the LCAP will support the final cohort of elementary schools in participating in Quality Teaching for English Learners (QTEL) professional development (Action 1.11) to further strengthen instructional practices for English Learners. Building on NEA-Jurupa's broader recommendations, the LCAP also expands professional development offerings to include workshops on differentiated instruction, classroom management, and technology integration (Actions 1.2 and 1.4), ensuring teachers have access to relevant, high-quality learning opportunities. In response to feedback requesting more field trips and enrichment opportunities, the LCAP will continue to leverage AMS Prop 28 funding to enhance arts instruction and expand arts experiences for students (Action 1.3). CSEA emphasized the importance of continuing to expand professional development opportunities for classified staff. Acknowledging the vital role classified staff play in supporting students and school operations, the LCAP allocates resources to provide professional learning tailored to their needs. This includes training in areas such as positive behavior interventions and supports (PBIS) (Action 2.2), supporting students with special needs (Action 1.10), integrating new technology (Action 1.8), and strengthening understanding of safety protocols on school campuses (Action 2.4).

District Advisory Council (DAC)
-The LCAP development process is strengthened by the valuable insights and feedback provided by our District Advisory Council (DAC). The DAC identified several key priorities for improvement, including increased support for foster youth, enhanced services for English Learners, expanded behavioral health resources for students, and improved communication with the school community. In response, the LCAP allocates funding for a dedicated Foster Youth/Homeless Youth counselor (Action 1.10) and continues to invest in services that promote English language development and academic success for English Learners (Actions 1.11 and 1.12). To support student well-being, the LCAP

provides resources for hiring additional counselors (Action 1.9), increasing access to mental health professionals (Action 2.4), and implementing social-emotional learning initiatives (Action 2.2). Acknowledging the importance of effective outreach, the LCAP also prioritizes expanding communication efforts to better engage with families and the broader community (Action 3.3).

District English Learners Advisory Council (DELAC)
-The LCAP development process is deeply enriched by the expertise and perspectives of our District English Learners Advisory Council (DELAC). DELAC strongly emphasized the urgent need to improve academic outcomes for English Learners (ELs) and Long-Term English Learners (LTELs). In direct response, the LCAP dedicates significant resources to building a robust, multi-tiered system of support for EL and LTEL students. This includes providing core English language development instruction for all ELs (Action 1.11), implementing targeted academic interventions for struggling ELs (Actions 1.7 and 1.8), and offering specialized instructional coaching to better support LTELs (Action 1.12). To strengthen support for newcomers, the LCAP has also implemented a Newcomer English Learner Liaison position at each site to assist English Learner students who have been enrolled in U.S. schools for less than three years and to provide direct outreach and support to their families. Additionally, the LCAP invests in developing culturally responsive curriculum materials (Action 1.1) and expanding professional development opportunities for teachers focused on effective EL and LTEL instructional strategies (Action 1.2). The LCAP also prioritizes creating welcoming, inclusive school environments where all English Learner students feel supported and valued (Action 3.1). These focused investments reflect our strong and ongoing commitment to improving academic achievement for our English Learner students.

Special Education Local Plan Area (SELPA) Administrator
-The LCAP development process is enriched by the insights and expertise of our Special Education Local Plan Area (SELPA) Administrator. The SELPA Administrator emphasized the importance of ensuring that all systems collaborate to provide a comprehensive Multi-Tiered System of Support (MTSS) (Action 2.2) to meet the needs of Students with Disabilities (SWDs). In response, the LCAP invests in expanding supports for SWDs to promote college and career readiness. This includes developing individualized learning plans aligned with students' postsecondary goals (Action 1.9), increasing access to coursework that prepares students for college and career pathways (Action 1.9), and providing professional development for teachers focused on effective strategies for supporting SWDs in achieving their academic and postsecondary goals (Action 1.2).

Nueva Vista Continuation High Educational Partners
-Educational partners at Nueva Vista Continuation High School played a key role in shaping the Equity Multiplier Focus Goal. Teachers identified the need for increased staff support to deliver more individualized assistance and better prepare students for college and career success (Action 4.1). Students voiced a desire for greater exposure to CTE pathways and academic support opportunities beyond the regular school day (Action 4.1). Parents emphasized the importance of boosting student engagement to improve attendance and academic outcomes. In response to their input, the LCAP includes incentives designed to strengthen student engagement, academic achievement, attendance, behavior, and participation (Action 4.1).

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	All students will be college and career ready.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

Priority 2: State Standards (Conditions of Learning)

Priority 4: Pupil Achievement (Pupil Outcomes)

Priority 5: Pupil Engagement (Engagement)

Priority 7: Course Access (Conditions of Learning)

Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Why This Goal is Necessary
-Student Success: This goal prepares students for the rigors of higher education and the demands of the workforce, empowering them to pursue fulfilling and productive lives after graduation.
-Community Strength: A college and career-ready workforce fuels economic development, innovation, and a thriving community.
-Closing the Equity Gap: By focusing on college and career readiness for all, we address disparities in opportunity and ensure that every student, regardless of background, has the tools to succeed.

How the Actions Will Achieve the Goal

Curriculum and Instruction:
-Continual refinement of curriculum aligned with rigorous state standards and focused on essential skills like writing, critical thinking, and problem-solving ensures students master content knowledge.
-Technology integration in all subjects provides students with the essential digital skills they need for further education and the 21st-century workplace.
-A focus on inclusion and specialized support for English learners (ELs) removes barriers to learning and helps all students gain the language proficiency vital for success.

Professional Development:
-Ongoing training for teachers in research-based strategies, including social-emotional learning and multi-tiered systems of support (MTSS), equips them to address students' diverse needs and create a positive learning environment.
-Professional development in technology, virtual learning, and other emerging trends ensures that teachers are comfortable and skilled in delivering instruction through a range of methods.

Academic Support and Intervention:
-Small class sizes, specialized support teachers, software, assessments, and professional development related to interventions provide teachers with the tools to identify and meet individual learning needs.

College and Career Focus:
-A range of learning experiences, including Advanced Placement (AP) courses, Career Technical Education (CTE) pathways, and dual enrollment programs, expose students to the possibilities for their future.
-Counselors and career centers are dedicated to guiding students on their paths and connecting them to resources for navigating college applications and career exploration.
-Support for English learners and foster youth ensures that these traditionally underserved populations receive the focused guidance they need to thrive.

Data-Driven Decision Making:
-Using data systems and analysis tools allows for identifying student strengths and challenges, helping educators tailor their support more effectively.

Equity and Accessibility:
-Parent outreach programs, translation services, and inclusive learning environments foster a welcoming and supportive climate for all students and their families.

Metrics to Measure Success
-Graduation Rates: Increase in overall graduation rates and rise among specific student subgroups
-College Career Indicator (CCI): The level to which students are prepared for success after graduation is based on measures like graduation rate, performance on state tests, and college credit courses.
-CAASPP ELA and Math Assessments: Improved performance on the California Assessment of Student Performance and Progress (CAASPP) in English language arts (ELA) and mathematics. These standardized tests measure student understanding of critical college and career readiness skills.
-Student and Parent Surveys: Measure perceptions of readiness and preparedness for life after high school.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Collectively, the actions advanced the district's articulated goal of equitable access to rigorous learning, with notable gains in transcript-based course access, dual-enrollment credit, and multilingual recognition. Where challenges emerged—such as platform transitions, staffing shifts, or lower-than-expected reclassification rates—the district responded with capacity-building, additional resources, and data-informed adjustments rather than abandoning initiatives. Substantive deviations from the adopted LCAP were limited to staffing realignment (Action 1.1) and an amplified investment in SIPPS materials (Action 1.7), both of which were undertaken to better meet student needs and do not alter the intended outcomes of the plan.

Successes
-Action 1.1 – Secured and rolled out supplemental instructional materials—especially for English Learners—while embedding the resources in sustained professional development.
-Action 1.2 – Completed numerous professional development offerings, including an equity-focused transcript analysis across all secondary sites, generating actionable data on A–G access and enrollment in LOTE and advanced mathematics.
-Action 1.4 – Expanded the Dell Tech Crew to every secondary campus and introduced K-12 literacy/STEM makerspace activities such as "Mystery Readers."
-Action 1.5 – Strengthened PLC data inquiry: Interim assessments were administered, and Education Services staff modeled root-cause analysis that will expand to be embedded in collaboration cycles.
-Action 1.7 – Enhanced Tier 2 supports through small-group ELA/math instruction, SIPPS expansion, integrated ELD coaching with RCOE, and increased use of NWEA growth goals.
-Action 1.8 – Trained additional teachers in WICOR strategies and provided on-site literacy coaching.
-Action 1.9 – Boosted dual-enrollment credits, raised State Seal of Biliteracy attainment, and launched a state-registered pre-apprenticeship.
-Action 1.11 – Added a Newcomer Liaison program, increased biliteracy awards (including a new trilingual recognition), piloted ELPAC interim assessments, and deepened administrator expertise in ELD standards and coaching.
-Action 1.12 – Completed a district-wide root-cause analysis for Long-Term English Learners, building shared understanding of reclassification barriers.
-Action 1.13 – Continued to expand the Dual Immersion program at Mira Loma Middle School (MLMS) and initiated planning for a new cohort at Jurupa Valley High; students sat for the AP Spanish exam for the first time at MLMS.
-Action 1.14 – Tightened the link between assessment data (NWEA, CAASPP interims) and curriculum pacing, fostering a growth-focused assessment culture.

Challenges (including Deviations)
-Action 1.1 – Challenge: Recent adoption of the revised state Mathematics Framework required further professional development. Deviation: A realignment within Education Services reduced Curriculum Coordinators from three to two, redistributing responsibilities across the division.
-Action 1.2 – Persistent equity gaps remain for English Learners and students with disabilities in advanced coursework enrollment, as illuminated through transcript audit PD.
-Action 1.4 – Difficulty establishing consistent external work-experience and service-learning placements for Dell Tech Crew participants.
-Action 1.7 – Challenge: Highly individualized literacy needs highlight the need for additional diagnostic tools and preparation for the forthcoming Reading Difficulty Screening (RDRS). Deviation: The district made an unplanned yet strategic investment in additional SIPPS resources to support systematic Tier 2 literacy instruction.
-Action 1.8 – Technical problems with the new READ 180 platform (account access and reporting) required extensive troubleshooting, delaying full instructional use.
-Action 1.9 – Vacancy in the K-12 Pathway Coordinator position.
-Action 1.11 – Lower-than-expected reclassification rates due to fewer students scoring a "4" on the ELPAC; site-level equity gaps surfaced and will require targeted interventions.
-Action 1.12 – Reorganization within the Multilingual Education team required the establishment of systems and certain structures internally to best support activities.

-Action 1.14 – Ongoing need to build teacher clarity around standards-aligned data and to strengthen staff proficiency with multiple digital assessment platforms.

Overall, the implementation of Goal 1 actions was robust, with minimal deviations and meaningful successes across multiple initiatives. Identified challenges were addressed through ongoing support, staffing adjustments, and professional learning, reinforcing a districtwide commitment to equity, data literacy, and instructional coherence.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Due to a mid-year salary increase, including a one-time off-schedule payment to all staff, and in an effort to prudent monitoring of resources as one-time fiscal resources ended, we used a 20% difference between budgeted expenditures and total estimated actual expenditures to determine a material difference. The following actions met this criterion:
Action 1.3 (VAPA) had an increase in Prop. 28 (AMS) funding to support the program as a result of the program becoming more established and additional start-up materials and needs being identified.
Action 1.8 (Secondary Supplemental Supports) has an increase of cost due to the decision to continue programs and positions that were established using one-time monies during COVID but had expired.
Action 1.11 (English Learner Services) was implemented as planned and it was determined that the budgeted expenditures contained a duplicated cost of professional development that was also being included within action 1.2.
Action 1.12 (Long Term English Learners) leveraged Title III funding to conduct a root cause analysis to further identify the needs of LTEL students.
Action 1.14 (Student Learning, Monitoring, and Feedback) provided more robust professional development offerings than originally planned to further develop data literacy of teachers and administrators.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 1.1 (Standards Aligned Curriculum), Action 1.2 (Professional Development), Action 1.5 (Professional Preparation & Collaboration Time), Action 1.6 (Reducing Class Size through Grade Span Adjustment), Action 1.7 (Elementary Supplemental Supports), and Action 1.14 (Student Learning, Monitoring & Feedback) was effective as demonstrated by our 5.7 point increase in distance from standard in mathematics in Metric 1.6 CAASPP Mathematics, and we will continue to monitor these actions for effectiveness in Year 2 and Year 3 of the three year LCAP cycle as we look to also improve Metric 1.5 CAASPP ELA from Year 1 outcome of maintaining distance from standard to improving the distance from standard to mirror the growth experienced in mathematics.

Action 1.3 (Visual and Performing Arts) was modified to be measured through the academic outcomes of our students at the Pacific Avenue Academy of Music, as assessed on the CAASPP, rather than an LEA-wide survey of students participating in VAPA. The action was not yet effective as measured by the CAASPP ELA for the site, which was maintained from the prior year. However, we anticipate that additional targeted integration of the arts within the curriculum and instruction will improve the proficiency of students in ELA as well.

Action 1.4 (Education and Information Technology) was effective as measured through 87% of our students actively using Google Classroom, 82% using Google Slides, and 80% using Google Docs through the provided 1:1 Chromebook.

Action 1.8 (Secondary Supplemental Supports) was effective as demonstrated by our 7.99% improvement in percentage of 11th grade students meeting proficiency in ELA as measured by metric 1.14, and we will continue to monitor this action for effectiveness in Year 2 and Year 3 of the three year LCAP cycle as we look to improve Metric 1.14 to improve the percentage of students meeting proficiency in mathematics as well.

Action 1.9 (College and Career Readiness) was effective as demonstrated by our 9.1% increase in the percentage of graduating students being prepared on the CCI as measured by metric 1.20.

Action 1.10 (Foster Youth and Students Experiencing Homelessness Support Services) was not yet effective as measured by CAASPP ELA (metric 1.5) or CAASPP Math (metric 1.6). The student group, foster youth, was identified for receiving Differentiated Assistance technical support, and we anticipate this targeted support will yield positive outcomes in Year 2 of the LCAP cycle. For additional information, please refer to the previous section, "Reflections: Technical Assistance."

Action 1.11 (English Learner Services) was not yet effective as measured by the ELPI (metric 1.11), but will be continued with additional schools receiving professional development on Quality Teaching for English Learners (QTEL), and we anticipate improvement in Year 2 of the LCAP cycle.

Action 1.12 (Long Term English Learners (LTEL)) was not yet effective as measured by the 1.44% decrease in the English Learner Reclassification Rate (metric 1.12), but will continue with the results of the root cause analysis of the LTEL student group providing further targeted support in Year 2 of the LCAP cycle.

Action 1.13 (Dual Immersion) was effective, as demonstrated by a 7.9% increase in the percentage of students receiving the State Seal of Biliteracy, as measured by metric 1.18.

Action 1.15 (School Site Allocation) was effective, as demonstrated by the LCAP being aligned with 100% of the school site SPSA goals and the improvement of students with positive academic outcomes, as measured by CAASPP Math (metric 1.6) and CCI (metric 1.20).

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 1.1 (Standards Aligned Curriculum) reduced from three Curriculum Coordinators to two Curriculum Coordinators due to a realignment with the Education Services division to support the Multilingual Education department. Foster Youth was added as a focus of the Differentiated Assistance support being provided.

Action 1.2 & Action 1.14 were modified to include Foster Youth as a focus of the Differentiated Assistance support provided.

Action 1.3 (Visual and Performing Arts) will shift to monitoring effectiveness using CAASPP ELA and CAASPP Math at Pacific Avenue Academy of Music, along with an LEA-wide student survey of students participating in the VAPA program.

Action 1.7 (Elementary Supplemental Supports) was modified to shift the NWEA assessment to grades 1 - 6 and added the ESGI assessment to Kindergarten. There was also a shift from the P.I.E. committee to the larger approach of Universal Design for Learning to support all students. There was a modification to leverage after-school ELO to support Foster Youth through Differentiated Assistance.

Action 1.8 (Secondary Supplemental Supports) was modified to include Foster Youth as a focus of the Differentiated Assistance support being provided.

Action 1.9 (College & Career Readiness) was modified to fund 4.5 FTE Middle School Counselors, 3 FTE High School Counselors, 3 High School Assistant Principals, and Secretarial support for each assistant principal using Learning Recovery Emergency Block Grant funds for the 2025-26 school year.

Action 1.12 (Long Term English Learners) was enhanced to include the use of NWEA Reading data in grades 1–6 to identify English learners at risk of becoming LTELs, support earlier intervention, and reduce long-term EL rates. Additional refinements included revisiting local reclassification practices to ensure clarity and alignment with state criteria and introducing districtwide efforts to promote bilingualism and biliteracy as assets through community engagement. Language acquisition programs available were also added to the action description.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Standards Aligned Curriculum	The district is dedicated to providing a comprehensive and ongoing support system for curriculum refinement in Mathematics, English-language arts, English Language Development, and Next Generation Science Standards (NGSS). This includes the integration of technology and inclusion practices. The support system is facilitated by a team of two Curriculum Coordinators and an instructional Teacher on Special Assignment (TSA), who are instrumental in the ongoing work of curriculum refinement, instructional support, and professional development. The district provides necessary resources such as contracts, printing, and resource materials to ensure the quality and relevance of the curriculum. The curriculum aligns with word recognition and language comprehension	$458,169.00	Yes

Action #	Title	Description	Total Funds	Contributing
		practices and integrates formative and summative assessment processes to evaluate student progress and learning outcomes. In addition to the core curriculum, the district provides supplemental support materials for ELA/ELD, Mathematics, and Science. These materials are primarily aligned to site-level needs and are designed to support differentiated instruction based on the California State Standards. These materials are selected by effective collaboration and data analysis strategies to meet diverse learner needs. The materials include copy machines, printing, novels, leveled readers, manipulatives, Spanish texts, software, and informational texts. The district ensures that foster and homeless students have access to essential learning materials, technology support, and intervention resources alongside their peers. Required Actions based on student performance from baseline data: -Culturally responsive instruction will be a priority for teachers to incorporate students' cultural backgrounds and experiences into their lessons, making learning more relevant and engaging. This specific action is designed to address the following student groups who performed at the lowest performance level on the English Language Arts indicator district-wide: English Learners, Foster Youth, Homeless, and Students with Disabilities and will address Hispanic students who performed at the lowest level on the English Language Arts indicator at Ina Arbuckle Elementary, Jurupa Valley High, Mission Bell Elementary, and West Riverside Elementary. -Additional resources, such as math manipulatives and instruction materials specifically designed for English Language Learners, to ensure that Socioeconomically Disadvantaged students and English Learners, who were student groups across the district that performed at the lowest level in ELA, receive the individualized instruction they need. -Teachers will prioritize culturally responsive instruction, incorporating students' cultural backgrounds and experiences into their lessons, making learning more relevant and engaging. This specific action is designed to address the following student groups performing at the lowest performance level on the Mathematics indicator district-wide: African American and Hispanic.		

Action #	Title	Description	Total Funds	Contributing
		-Ina Arbuckle Elementary will emphasize culturally responsive practices for Hispanic students who performed at the lowest performance level for the suspension indicator.		
1.2	Professional Development	The district is committed to its teachers' continuous professional development (PD). It offers a wide range of PD opportunities focused on research- and evidence-based strategies to support the implementation of California State Standards and to meet student needs. These include Mathematical Practices, NGSS implementation, Social and Emotional Learning (SEL), Multi-Tiered System of Support (MTSS), Universal Design for Learning (UDL), Collaborative Teams, and Technology Integration Workshops. The district also supports the professional growth of its staff through conference attendance, new teacher PD and teacher induction support on district initiatives and curriculum, Leadership Academy, and professional development for aspiring administrators and classified management. To ensure the effective implementation of these initiatives, the district has appointed a Director and Secretary of Funding and Program Accountability. They support staff and teachers through expanded coordination based on the Local Control and Accountability Plan (LCAP). They address changing staff development needs, analyze student outcomes, and adapt to changing funding conditions. Their responsibilities include Data Dashboard analysis, educational partner engagement, and program monitoring for Differentiated Assistance, Comprehensive Support and Improvement (CSI), and Additional Comprehensive Support and Improvement (ATSI) in a Continuous Improvement process. They also provide training to build internal capacity for districtwide professional development. The district recognizes the unique challenges faced by students experiencing homelessness and foster youth and is committed to providing specific training and resources to educators to ensure these students' academic and social-emotional needs are met.	$1,693,323.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Required actions based on student performance from baseline data: -Intensive, job-embedded professional development for math teachers will focus on effective instructional strategies for diverse learners for the following schools that performed at the lowest level on the mathematics indicator: Ina Arbuckle Elementary, Jurupa Middle, Mira Loma Middle, Mission Bell Elementary, Mission Middle, Patriot High, and Rubidoux High. -We will provide targeted professional development for teachers and staff focused on the Quality Teaching for English Learners (QTEL) and strengthen instructional leadership to ensure QTEL practices are embedded into classrooms for the following schools that were in the lowest performance level on the ELPI indicator: Camino Real Elementary, Del Sol Academy, Indian Hills Elementary, Jurupa Middle, Nueva Vista Continuation High, Patriot High, Rubidoux High, Troth Street Elementary, West Riverside Elementary. -We will develop and deliver culturally relevant professional development for staff to increase their understanding of the unique needs and experiences of American Indian students who were at the lowest performance level (highest suspension) on the Suspension Indicator. -We will provide training to our teachers and staff to understand the impact of trauma on learning for our Foster Youth, which are eligible for Differentiated Assistance. This action will help address the schools and student groups that were very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6). It will also help address the homeless student group that was eligible for Differentiated Assistance in ELA and Math.		
1.3	Visual and Performing Arts (VAPA)	Students will have access to a well-rounded arts education experience designed to enhance their learning and creative expression. This includes the Pacific Avenue Academy of Music (PAAM), which will be fully staffed with music teachers, receive professional development opportunities and have funds to maintain the program. An Elementary Music Program will provide band teachers, a music teacher for Del Sol Academy, music supplies, and a recorder program for 3rd graders to introduce them to music. Additionally, a secondary string program with a dedicated teacher will be available. Funding will support musical supplies and instruments,	$7,044,333.00	Yes

Action #	Title	Description	Total Funds	Contributing
		including repairs and replacements. Finally, site-based VAPA enrichment programs will receive support, expanding art, choir, and theatre opportunities.		
1.4	Education and Information Technology	Students will receive support for the Digital Gateway 1:1 initiative through enhanced technology training and administrative assistance, ensuring seamless technology integration in classrooms and libraries. Elementary students will benefit from organized library, textbook, and resource management, expanded maker spaces, Chromebook assistance, and digital tool training. They'll also enjoy innovative literature-inspired maker activities. Secondary students will have access to well-managed textbooks and library systems, promoting easy access to resources and learning spaces.	$3,718,340.00	Yes
1.5	Professional Preparation and Collaboration Time	Professional Preparation and Collaboration time for teacher planning to analyze data, design intervention support, and do lesson planning for standards implementation. The additional 15 minutes of teacher preparation with the content and focus on supporting expanded California State Standards implementation, curriculum modification, and implementation of collaborative teams. Required actions based on student performance from baseline data: -Teachers will utilize collaboration time to break down complex concepts into clear, manageable steps, incorporating visuals and manipulatives to enhance understanding for all students who were in the lowest performance level on the English Language Arts indicator: Ina Arbuckle Elementary, Mission Bell Elementary, Mission Middle, and West Riverside Elementary. -Teachers will utilize collaboration time to develop instruction to develop students' academic vocabulary and oral language skills to support the following student groups, which performed at the lowest level on the English Language Arts indicator: English Learners, Foster Youth, Homeless, and Students with Disabilities and Hispanic students who were in the lowest performing level in ELA at the following schools: Ina Arbuckle	$3,217,784.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Elementary, Jurupa Valley High, Mission Middle, and West Riverside Elementary. This action will help address the schools and student groups that were very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6)		
1.6	Reducing Class Sizes through Grade Span Adjustment	Reducing class sizes through Grade Span Adjustment (GSA), specifically: -Minimizing combo classes through volunteered flexibility to go over their contractual class sizes -Reduce grades fourth - sixth student-to-teacher allocations from 32:1 to 28:1 -Reduce middle school student-to-teacher allocations from 32:1 to 28:1 -Reduce high school student-to-teacher allocations from 32:1 to 28:1 Required actions based on student performance from baseline data: -Teachers will provide small group support and offer more targeted feedback. -Smaller classes will allow for more active learning and collaborative projects, enhancing student engagement and deepening understanding. This action will help address the schools and student groups that were very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6)	$14,010,623.00	Yes
1.7	Elementary Supplemental Supports	Elementary Support Teachers specializing in ELA and math provide targeted interventions within a Multi-Tiered System of Support (MTSS) framework. They utilize specialized software for intervention, prevention, and diagnostic purposes. Teachers receive professional development to enhance literacy and math instruction, focusing on foundational skills, data analysis, and targeted interventions like guided reading. This includes access to Northwest Evaluation Association (NWEA) assessments (Grades 1-6) and ESGI for Kindergarten. Resources such as phonics materials, on-level readers, and specialized books for reading and math support differentiated instruction. Increased	$8,248,177.00	Yes

Action #	Title	Description	Total Funds	Contributing
		expectations for inclusive practices are defined at each school alongside MTSS implementation to support inclusion further. Paraprofessionals receive training in guided reading, differentiation, and behavior strategies. Strategic instructional practices centered around a Universal Design for Learning (UDL) ensure students can access core instruction in the least restrictive environment (LRE). The district provides targeted interventions within the MTSS framework, including specialized supports and accommodations designed to meet the unique needs of students with disabilities. Finally, additional student management support is provided through Teachers on Special Assignment (Administrative Support) and Assistant Principals, enhancing the overall learning environment at each elementary school. The district prioritizes early identification and targeted intervention strategies for students experiencing homelessness, ensuring they receive the necessary support to succeed academically. The district recognizes the potential impact of socioeconomic factors on learning and provides additional resources and targeted interventions to empower low-income students to reach their academic potential. Recognizing the achievement gap for Hispanic and African American students, the district provides targeted interventions and culturally relevant curriculum resources to advance their academic success and close the opportunity gap. Required actions based on student performance from baseline data: -Targeted interventions with small group instruction will be provided to support students at the following schools, which performed the lowest on the English Language Arts indicator: Ina Arbuckle Elementary, Mission Bell Elementary, and West Riverside Elementary. -Teachers will use various instructional methods and materials to scaffold activities to cater to the diverse learning styles and needs of the following student groups, which performed lowest on the English Language Arts indicator: English Learners, Foster Youth, Homeless, Students with Disabilities, and Hispanic students, who performed at the lowest level at		

Action #	Title	Description	Total Funds	Contributing
		the following schools: Mission Bell Elementary and West Riverside Elementary. -Targeted tutoring programs with before/after school support and individualized learning plans will accelerate learning in ELA and math for our foster students who were eligible for Differentiated Assistance. This action will help address the schools and student groups that were very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6). It will also help address the homeless student group that was eligible for Differentiated Assistance in ELA and Math.		
1.8	Secondary Supplemental Supports	A tiered approach to academic support and college/career readiness for all secondary students. Multiple Intervention Options: -Targeted Support: Teachers provide extra help in ELA, ELD, and math through various software programs (Read 180/System 44) and online learning platforms. -Inclusive Practices: All secondary schools implement an inclusion model, where specialists and aides support students in regular classrooms (LRE). The district provides targeted interventions within the MTSS framework, including specialized supports and accommodations designed to meet the unique needs of students with disabilities. -AVID College Readiness Program: Available at all secondary sites, AVID prepares students for higher education through dedicated teachers, tutors, and college exploration activities. Additional Opportunities for students beyond the core A-G course offerings: -Dual Enrollment: High schools offer College and Career Access Pathways (CCAP) for students to earn college credit at Riverside Community College District (RCCD). -Early College High School: Rubidoux Early College High School allows students to complete high school and an associate's degree concurrently. -Virtual Learning: Students can access online courses for synchronous and asynchronous learning taught by school site teachers.	$3,700,802.00	Yes

Action #	Title	Description	Total Funds	Contributing
		-Focus on Equity: Counseling staff ensures proper placement in intervention programs for low-performing students, including those experiencing homelessness, in foster care, or with disabilities. This action provides a comprehensive support system to address diverse student needs and equip them for academic and career success after high school. The district is committed to ensuring that students experiencing homelessness and foster youth have equitable access to interventions, college readiness programs, and alternative learning pathways alongside their peers. The district recognizes the potential impact of socioeconomic factors on learning and provides additional resources and targeted interventions to empower low-income students to reach their academic potential. Recognizing the achievement gap for Hispanic and African American students, the district provides targeted interventions and culturally relevant curriculum resources to advance their academic success and close the opportunity gap. Required actions based on student performance from baseline data: -Targeted interventions with small group instruction will be provided to support students at the following schools who were in the lowest performance on the English Language Arts indicator: Mission Middle -Teachers will use various instructional methods and materials to scaffold activities to cater to the diverse learning styles and needs of the following student groups, which performed lowest on the English Language Arts indicator: English Learners, Foster Youth, Homeless, Students with Disabilities, and Hispanic students, who performed at the lowest level at the following schools: Jurupa Valley High and Mission Middle. -Targeted tutoring programs with before/after school support and individualized learning plans will accelerate learning in ELA and math for our foster youth students who were eligible for Differentiated Assistance. This action will help address the schools and student groups that were very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6). It		

Action #	Title	Description	Total Funds	Contributing
		will also help address the homeless student group that was eligible for Differentiated Assistance in ELA and Math.		
1.9	College and Career Readiness	A comprehensive system of secondary student learning support designed to promote college and career readiness for all students. This includes: Multi-tiered Interventions: Counselors, administrators, and teachers work collaboratively to identify and provide targeted academic and behavioral support based on individual student needs. Career Technical Education (CTE): Students have access to 26 CTE pathways across 11 industry sectors, with dual enrollment opportunities, professional development, and resources to foster career exploration and skills development. College and Career Readiness Focus: -Assistant principals, counselors, and specific support staff (see "Reflections: Annual Performance section") promote the College and Career Indicator (CCI), track progress, and support all students, especially those in historically underserved subgroups. These positions are funded through Learning Recovery Emergency Block Grant funds and will be monitored using Metric 1.20. -Emphasis on supplemental A-G course offerings and attainment, especially for English Learners, along with Spanish language support at the middle school level. -Focus on transitions from middle to high school and high school to post-secondary. -Career Centers with dedicated staff, workshops, and events to support the college application and financial aid processes. -Specialized support for students experiencing homelessness, foster youth, and students with disabilities to ensure equitable access to college and career preparation. Advanced Placement (AP) Expansion: The number of AP courses will be expanded, teacher training will be provided, testing support will be	$9,988,339.00	Yes

Action #	Title	Description	Total Funds	Contributing
		increased, and the AP Capstone Program will be expanded to provide more students with the opportunity for college-level coursework. Required action based on student performance from baseline data: -The counselor at Nueva Vista Continuation High will monitor CTE Pathway completion for all students because the school has the lowest status level on the CCI indicator. See Goal 4.1 for additional actions to support these efforts. -Counselors and Education Specialists at Rubidoux High will monitor CTE Pathway completion for students with disabilities and provide additional counseling guidance because students with disabilities have the lowest status level on the CCI indicator. This action will help address the schools and student groups with very low CCI status (Metric 1.20).		
1.10	Foster Youth and Students Experiencing Homelessness Support Services	We will offer a robust academic support system for foster youth and students experiencing homelessness. This includes regular transcript and credit reviews to identify areas for improvement, a dedicated counselor specializing in best practices for these students, and proactive outreach from academic counselors to connect students with resources like tutoring, digital content, and ongoing grade monitoring. The program ensures appropriate course placement through AB 216 student schedule checks and prioritizes district-provided tutoring for these students. To create a supportive learning environment, we will invest in professional development for counselors, teachers, and office staff, focusing on trauma-informed practices. Required actions based on student performance from baseline data: -Trauma-informed practice and social-emotional learning programs will be supported to help homeless and foster youth students overcome challenges and focus on academics because both student groups had the lowest performance level on the mathematics indicator. -We will collaborate with local homeless shelters and social service agencies to ensure access to transportation and basic needs to support	$233,502.00	Yes

Action #	Title	Description	Total Funds	Contributing
		our homeless youth who were on the lowest performance level on the Chronic Absenteeism indicator. We will provide flexible enrollment options to minimize disruption in education for our homeless youth, who were at the lowest performance level on the Chronic Absenteeism indicator. -A homeless and foster youth counselor will serve as the central point of contact for homeless students and provide individualized support, advocacy, and resource navigation in response to our homeless youth's eligibility for Differentiated Assistance (DA). This action will help address the foster youth and homeless student groups that scored very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6). It will also help address the homeless student group that was eligible for Differentiated Assistance in ELA and Math.		
1.11	English Learner Services	We will provide a comprehensive system to support all English learners with a strong focus on English language acquisition. This includes: Instruction and Coaching: -EL Teachers on Special Assignment (TSAs): Guide teachers on the new ELD framework, implementing assessments (ELPAC), and best practices for both dedicated English language development (ELD) and integrating language learning into core subjects. -Professional Development: Programs like QTEL specifically train teachers on effectively supporting English learners. Language Acquisition Programs: -Daily Designated ELD: Structured lessons based on ELD standards for direct language development. -Integrated ELD: Language learning woven into core subjects alongside academic content. -Dual-Language Immersion: Opportunities for bilingual learning in two languages. Support Staff: -Language Proficiency Evaluators: Assess student language skills.	$1,680,583.00	Yes

Action #	Title	Description	Total Funds	Contributing
		-Coordinators of Multilingual Education: Oversee the district's multilingual programs. -Bilingual Language Tutors (BLTs): Provide additional language support within classrooms. -Family Engagement: Training opportunities like CABE conferences empower parents to support their child's language development. Progress Monitoring: -EL Facilitators: Track student progress and ensure recent newcomers receive the necessary support. -Teacher Evaluation of Language Proficiency (TELP): Provides improved access for teachers to assess student language skills. Required actions based on student performance from baseline data: -Quality Teaching for English Learners (QTEL) will be strengthened, and instructional leadership around the principles will be further developed to support our English learner students who were at the lowest performance level on the ELPI indicator. -We will implement culturally responsive teaching practices and offer targeted language support for our English Learners who were at the lowest performance level on the Chronic Absenteeism Indicator at the following schools: Camino Real Elementary and Mission Middle.		
1.12	Long Term English Learners (LTEL)	To reduce the number of students reaching LTEL status and accelerate progress for current LTELs, the district will implement a two-tiered approach: early intervention for at-risk ELs and intensified support for existing LTELs. Beginning in elementary grades, NWEA Reading data (grades 1–6) will be systematically analyzed to identify English learners demonstrating persistent gaps in reading comprehension and foundational literacy skills. Identified students will receive tailored instructional supports aligned with their ELD needs, with ongoing progress monitoring to inform instruction. In middle and high school, LTELs will continue to receive targeted instruction. Teachers on Special Assignment (TSAs) will work with site teams to emphasize strategies that address academic language	$222,694.00	Yes

Action #	Title	Description	Total Funds	Contributing
		development. Bilingual Language Tutors (BLTs) will prioritize vocabulary acquisition, comprehension of complex texts, and academic writing. English Language (EL) facilitators will analyze student-level data to identify plateaus in progress and recommend responsive interventions. English Language Arts (ELA) and core content teachers will receive ongoing professional development in designated and integrated ELD, including Quality Teaching for English Learners (QTEL) strategies. In schools where LTEL students perform at the lowest level on the English Learner Progress Indicator (ELPI) and/or Chronic Absenteeism Indicator culturally responsive pedagogy will be expanded, and additional engagement efforts will target attendance barriers. The district will also revisit local reclassification practices to ensure clarity and alignment with state criteria and peer benchmarks. Finally, efforts to promote the value of bilingualism and biliteracy will be embedded in family engagement activities and schoolwide communications to shift community perceptions and highlight EL achievement as an asset. Language Acquisition Programs: -Daily Designated ELD: Structured lessons based on ELD standards for direct language development. -Integrated ELD: Language learning woven into core subjects alongside academic content. -Dual-Language Immersion: Opportunities for bilingual learning in two languages. Required Actions Based on Student Performance from baseline data: -Expand use of NWEA Reading data to identify and support at-risk ELs in grades 1–6. -Strengthen QTEL implementation and instructional leadership development in sites with LTEL students at the lowest ELPI level. -Increase culturally responsive and trauma-informed practices at high-need schools with elevated chronic absenteeism among LTELs. -Review and align teacher practices for reclassification determination to ensure consistency and equity.		

Action #	Title	Description	Total Funds	Contributing
1.13	Dual Immersion	The district continues to expand its Dual Immersion (DI) Program, providing English-speaking and Spanish-speaking students with the resources necessary to achieve second-language fluency and academic success. This commitment includes funding additional teachers to reduce class sizes in Dual Immersion classrooms at Sunnyslope, Stone Ave, Pedley, West Riverside Elementary, Jurupa Middle, and Mira Loma Middle Schools. Additionally, the district supports DI Bilingual Language Tutors and materials for program growth, professional development for DI teachers, and attendance at conferences such as ATDLE.	$9,635,325.00	Yes
1.14	Student Learning, Monitoring and Feedback	We will provide comprehensive standards-aligned assessments, robust data analysis, and monitoring tools to optimize student learning outcomes. We achieve this through a dedicated Assessment Annex team, including a Teacher on Special Assignment, support staff, and resources for textbook management and state assessment participation. Additionally, we invest in teacher substitutes to facilitate collaborative teams that analyze student progress data from formative assessments. This allows them to provide targeted feedback and adjust instruction for improved student success. The district prioritizes the disaggregation of assessment data to identify and address the specific learning needs of students experiencing homelessness, ensuring they receive appropriate support and interventions. Required actions based on student performance from baseline data: -Teachers will conduct regular checks for understanding throughout lessons to adjust instruction and provide targeted support for all students at the following schools who were lowest performing on the English Language Arts Indicator: Ina Arbuckle Elementary, Mission Bell Elementary, Mission Middle, and West Riverside Elementary, and for the following students groups who were lowest performing on the ELA indicator: English Learners, Foster Youth, Homeless, and Students with Disabilities. -Patriot High School will specifically monitor and address math performance on Interim Assessment Blocks (IAB) of white students who were in the lowest performing student group on the mathematics indicator.	$885,776.00	Yes

Action #	Title	Description	Total Funds	Contributing
		-Teachers will implement a system of data analysis to identify topics requiring additional support for students who performed at the lowest performance level on the mathematics indicator at the following schools: Ina Arbuckle Elementary, Jurupa Middle, Mira Loma Middle, Mission Bell Elementary, Mission Middle, Patriot High, and Rubidoux High. -Teachers will utilize data from the ELPI Dashboard and other assessments to monitor progress and make data-driven decisions to support English Learners who performed at the lowest performance level on the ELPI at the following schools: Glen Avon Elementary, Ina Arbuckle Elementary, Jurupa Valley High, Mira Loma Middle, Pacific Avenue Academy of Music, Rustic Lane Elementary and Sky Country Elementary. This action will help address the foster youth and homeless student groups that scored very low (red) on CAASPP ELA (Metric 1.5) and CAASPP Math (Metric 1.6). It will also help address the homeless and foster youth student group that was eligible for Differentiated Assistance in ELA and Math.		
1.15	School Site Allocation	The school district utilizes the Local Control Funding Formula (LCFF) to determine school site allocations. This formula considers the unduplicated count of English Learners, foster youth, and low-income students within each school. Students in these categories receive additional funding due to their potentially higher academic and support needs. School sites then receive a per-student allocation based on this weighted formula. This system ensures an equitable distribution of resources that prioritizes support for students with historically underserved backgrounds.	$6,923,084.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	All students will have a safe, orderly, and inviting learning environment.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

Priority 5: Pupil Engagement (Engagement)

Priority 6: School Climate (Engagement)

Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Why This Goal Is Important:
-Student Well-being: A safe and welcoming environment is essential for students to feel secure, supported, and ready to learn. It promotes positive mental health, reduces anxiety, and fosters a sense of belonging.
-Focus on Learning: When students aren't worried about their safety or basic needs, they can better concentrate on their academics, maximizing their learning potential.
-Community Engagement: A positive school climate encourages strong partnerships between the school, families, and the wider community, which benefits everyone involved.

The actions target several key areas that contribute to a safe, orderly, and inviting school environment:

Transportation:
-Funding for bus drivers, field trips, and after-school transportation expands student access to learning opportunities and reduces safety concerns about getting to and from school.
-Bus safety protocols and training for drivers ensure students are physically safe and that expectations for behavior on buses are clear.

Student Well-Being and Behavior:
-Training in trauma-informed care, restorative practices, and suicide prevention equips staff to respond to student needs with empathy and to de-escalate situations.
-Social-Emotional Learning (SEL) programs and mental health support teach students how to manage emotions, build relationships, and seek help when needed, promoting a positive and healthy school climate.
-Programs like Student Youth Court give students a voice in disciplinary matters and empower them to resolve conflicts peacefully.

Safety Protocols:
-Well-developed school safety plans in collaboration with first responders ensure everyone is prepared and knows how to respond in emergencies.

-Campus supervisors and school resource officers help maintain order and address issues before they escalate.
-Technology like GPS systems and cameras on buses enhance safety monitoring.

Inclusivity and Accessibility:
-Health Care Aides connect students and families to essential health services, addressing basic needs that can be barriers to feeling safe and engaged in school.
-Focus on outreach to the most vulnerable students, including those experiencing homelessness and foster youth, demonstrates a commitment to ensuring all students feel supported.

Metrics to Measure Success
-Student and Staff Surveys: Measure perceptions of safety, orderliness, and the welcoming feel of the school environment.
-Attendance Rates: Improvement in attendance and a decrease in chronic absenteeism can indicate a more positive school climate.
-Reduction in Disciplinary Incidents: Track the number of suspensions, expulsions, and other disciplinary actions. A safe and orderly school should see these incidents decrease.
-Number of Facility Repairs: A decline in needed repairs and improvements indicates well-maintained campuses that foster a sense of pride.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2024–25 school year, we implemented key actions aligned to Goal 2, focused on improving student wellness, behavior, attendance, and safety. Overall, implementation was effective, with progress in student engagement, MTSS development, and services supporting vulnerable populations.

Action 2.1: Supplemental Transportation
Implementation of supplemental transportation services expanded to meet the needs of homeless youth identified in the lowest performance level for Chronic Absenteeism. In response, the district launched partnerships with community organizations and provided bus passes. A Bus Driver Appreciation event celebrated SEL-focused training efforts and increased morale. A challenge arose in aligning services with students' evolving transportation needs, requiring continuous outreach and scheduling adjustments.

Action 2.2: Multi-Tiered System of Supports (MTSS)
Tier 1 supports were broadly implemented, including trauma-informed care training, PBIS stipends, SEL curriculum, and student surveys. MTSS Teachers on Special Assignment (TOSAs) facilitated behavior coaching and implemented student skills groups across multiple school sites. Successes included district recognition by RCOE as a behavioral health model and increased engagement through restorative practices. Tier 2 and 3 supports—including counseling referrals, wellness centers, and peer mediation—were also provided. Implementation was consistent with the adopted LCAP and no substantive deviations were noted.

Action 2.3: Athletics Program
Athletics were supported through expanded high school and new elementary/middle school intramural programs. Student participation increased significantly. Challenges included coordination of staffing and transportation for new sports programs. These programs directly supported social-emotional development and engagement goals identified by educational partners.

Action 2.4: Student Wellness and Safety
Safety systems such as Raptor visitor management, GPS-equipped buses, and emergency training were successfully deployed. School Resource Officers (SROs) conducted wellness visits targeting foster youth attendance issues. The district also hosted its first EmpowerHER Foster Youth event, offering direct mental health support and mentoring. Campus supervisor and crossing guard allocations were successfully implemented, contributing to safer, more supportive school environments.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Due to a mid-year salary increase, including a one-time off-schedule payment to all staff, and in an effort to prudent monitoring of resources as one-time fiscal resources ended, we used a 20% difference between budgeted expenditures and total estimated actual expenditures to determine a material difference. The following actions met this criterion:
Action 2.1 (Supplemental Transportation) had a larger-than-expected reimbursement of revenue, which resulted in fewer expenditures.
Action 2.2 (MTSS) provided further staffing and professional development in response to identified student needs and leveraged the Bipartisan Safer Communities grant.
Action 2.4 (Student Wellness and Safety) increased expenditures due to implementing a district-wide school camera project funded using the Bipartisan Safer Communities grant.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 2.1 (Supplemental Transportation) was effective, as demonstrated by a 6.9% decrease in the percentage of chronically absent students, as measured by metric 2.3.

Action 2.2 (Multi-Tiered System of Supports) was effective, as demonstrated by a 0.4% decrease in the percentage of students suspended, as measured by metric 2.6.

Action 2.3 (Athletics Program) was effective, as demonstrated by a 5% increase in students' sense of belonging among the 7-12 grade students year-over-year from Spring 2024 to Spring 2025, as measured by the Panorama Student Supports & Environment survey.

Action 2.4 (Student Wellness and Safety) was effective, as demonstrated by a 4% increase in grades 3-6 and a 2% increase in grades 7-12 for school safety, as measured by the Panorama Students Supports & Environment survey.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 2.2 (Multi-Tiered System of Supports) reduction of 1 TSA-Student Management and Accountability position at JMS due to transition to Assistant Principal position.

Action 2.3 will shift to monitoring effectiveness using metric 2.9, which was modified to use the "School Connectedness" based on the Panorama Student Supports & Environment survey.

Action 2.4 will shift to monitoring effectiveness using metric 2.9, which was modified to use the "School Safety" based on the Panorama Student Supports & Environment survey. An additional Assistant Principal was established at Jurupa Middle School.

Metrics 2.8, 2.9, and 2.10 were modified to use the Panorama Student Supports and Environment survey, which is administered annually, instead of the California Healthy Kids Survey, which is administered every other year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Supplemental Transportation	Students will be provided with supplemental transportation services, including home-to-school commutes and extended services for various activities. Bus drivers will receive comprehensive training, including Behavior Social-Emotional Learning (SEL). Regular maintenance and safety measures, such as onboard cameras, will be maintained for all buses. Required actions based on student performance from baseline data and Year 1 outcome data that led to Differentiated Assistance: -We will expand our transportation options for our homeless youth to include bus passes and developing partnerships with community organizations to assist with transportation to and from school due to homeless youth being eligible for Differentiated Assistance in 2023-24 in Chronic Absenteeism.	$856,964.00	Yes
2.2	Multi-Tiered System of Supports	Tier 1 Interventions: These are universal interventions implemented school-wide for all students. They include: 1. MTSS behavioral interventions and support implementation 2. Site support for teaching social skills, digital citizenship, and promoting Social and Emotional Learning (SEL) 3. Trauma-informed care training, Restorative Practices, and Applied Suicide Intervention (ASIST) Professional Development	$3,652,266.00	Yes

Action #	Title	Description	Total Funds	Contributing
		4. Positive Behavior Intervention and Support (PBIS Coordinator) stipends 5. Site-based resources for Tier I behavioral implementation 6. Common Sense Media 7. Social-emotional learning, including curriculum, programs, and classroom presentations by school mental health therapists and graduate-level interns to support the social and emotional learning program 8. Panorama Student Surveys - support for student SEL, attendance, behavior, and academics 9. Support the Equity Plan with Equity Committee meetings 10. District and site-based attendance teams 11. Student Peer Leadership training 12. Supplemental costs are to allow consistent resident substitutes at sites to support student connectedness. 13. 3.0 Teachers on Special Assignments - Student Management and Accountability at Mira Loma Middle School, Mission Middle, and Rubidoux High School. Tier 2 and 3 Interventions: These are targeted interventions for students needing additional support beyond Tier 1. They include: 1. Mental Health/Mentoring referrals to provide individual student support through a student assistance program 2. Student support groups to address social skills, trauma, grief, and coping skills 3. Focus on outreach to our Homeless and Foster Youth 4. Wellness Centers (secondary sites) and Calming Corners (elementary sites) 5. RCOE partnership for MTSS Tiered Support 6. Student Youth Court and Restorative Practices: providing training and materials to students, utilizing case management software for support services, supplying necessary materials, and training volunteers to serve as peer mediators at each school site, all aimed at expanding alternatives to suspension and expulsion. Tier 1 interventions aim to create a safe, supportive, and inclusive school environment for all students. By addressing social-emotional needs, promoting positive behavior, and fostering a sense of belonging, these		

Action #	Title	Description	Total Funds	Contributing
		interventions can help reduce barriers to attendance for students experiencing homelessness and foster youth, who often face challenges related to stability and well-being. By implementing Tier 1 interventions like restorative practices and Positive Behavior Intervention and Support (PBIS), the district can address student behavior proactively, focusing on conflict resolution and positive reinforcement. This approach can be particularly helpful for American Indian students who may benefit from alternative methods of addressing behavioral issues compared to traditional disciplinary actions. Required actions based on student performance from baseline data: -Social-emotional learning programs will be integrated to address the unique challenges experienced by English Learners, Foster Youth, Homeless Youth, and Students with Disabilities who were at the lowest performance level on the English Language Arts Indicator. -We will support the further implementation of culturally responsive teaching practices that acknowledge and value diverse backgrounds and experiences for the following schools that performed at the lowest performance level on the mathematics indicator overall: Ina Arbuckle Elementary, Jurupa Middle, Mira Loma Middle, Mission Bell Elementary, Mission Middle, Patriot High, and Rubidoux High and for the following student groups that performed at the lowest level across the district on the mathematics indicator: socioeconomically disadvantaged, English Learners, Foster Youth, homeless, African American and Hispanic students. -A data-driven team will analyze attendance patterns to identify the root causes of absenteeism at Camino Real Elementary, which has the lowest performance level on the Chronic Absenteeism indicator. -Further emphasis will be placed on ensuring Individualized Education Plans (IEPs) address attendance concerns to support Students with Disabilities who were in the lowest performance level on the Chronic Absenteeism indicator. -Attendance data will be disaggregated by all attendance teams across the district homeless youth due to homeless youth being in the lowest performance level on the Chronic Absenteeism indicator and will be disaggregated by the following student groups at specific school sites due to the lowest performance level on the Chronic Absenteeism Indicator:		

Action #	Title	Description	Total Funds	Contributing
		Socioeconomically Disadvantaged (Camino Real Elementary, Indian Hills Elementary), English Learners (Camino Real Elementary, Del Sol Academy, and Mission Middle), Asian (Camino Real Elementary), White (Camino Real Elementary, Jurupa Middle, and Stone Avenue Elementary), Students with Disabilities (Del Sol Academy, Granite Hill Elementary, Ina Arbuckle Elementary, Indian Hills Elementary, and Peralta Elementary), and Multiple Races (Del Sol Academy). -We will conduct a root cause analysis to identify factors contributing to disproportionate suspensions and will further enhance PBIS implementation at Ina Arbuckle Elementary due to their lowest performance level on the Suspension Indicator and a specific focus on socioeconomically disadvantaged and Hispanic students at Ina Arbuckle Elementary who were in the lowest performance level on the suspension indicator.		
2.3	Athletics Program	Athletics programs provide additional support to build student's social-emotional and character development skills and capacity in an athletic context. 1. High School Athletic budgets for events, security, buses, uniforms, trainers, and athletic supplies (3 @ $110,000) 2. Helmet and shoulder pad replacement 3. Athletic uniform replacement cycle 4. Athletic Directors at three high schools 5. Assistant Coaching positions per high school 6. Additional custodian at each high school to support cleaning, sanitation, and extracurricular activities	$1,989,433.00	Yes
2.4	Student Wellness and Safety	School Safety Plans address crime statistics and methods for improving the safety of students, staff, and the school community. An annual meeting with local first responders and safety coordinators from each school site is needed to develop a comprehensive plan for emergency response, threat assessments, and supplemental emergency supplies. Safety support for a single entry point includes the Raptor visitor management system	$7,389,193.00	Yes

Action #	Title	Description	Total Funds	Contributing
		implemented at each school to screen every visitor instantly. Additional staffing to support safe school campuses includes an additional Assistant Principal at Jurupa Middle School and Activity and Campus Supervisors and Crossing Guards districtwide who monitor and provide students with a safe learning environment and correct and redirect student behaviors. 1. School Resource Officers will serve as members of the site-based attendance teams, specifically providing support for Foster Youth to improve school attendance and reduce chronic absenteeism, such as through home visits and wellness checks. 2. Activity supervisor and Crossing guard allocations at sites, with an additional Campus Supervisor at Del Sol Academy. 3. Emergency supplies provided based on site-based needs (includes safety backpacks, Interquest Detection Canines, and district safety plans shared and developed in conjunction with Riverside County Sheriffs Department, Jurupa Valley Station, CPI, and CPR training) 4. Bus GPS and safety cameras 5. Raptor visitor management system with ID badge system 6. Safety/Campus supervision training for campus and activity supervisors 7. Contract with the district's liability carrier to provide Active Shooter training to all schools and district office locations 8. CPR/First Aid/AED training 9. Crossing Guard Training 10. Certificated Site Safe Coordinators training with the Sheriff's Department, Riverside County Emergency Management (EMD), and the City of Jurupa Valley CERT liaison Behavioral Health services, including counseling and case management, rehabilitative services, and peer support, are provided to all students. Health Care Aides (HCAs) are at every site to support parent and student referrals and access to health and immunization support. They act as liaisons to connect the most vulnerable students and families to mental and physical health services and resources through PICO. An additional District Nurse will be needed to support Health Care Aides.		

Action #	Title	Description	Total Funds	Contributing

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	All students will feel connected to their school community through engaging educational practices and partnerships with parents and the community.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

Why This Goal Is Important
-Engagement and Achievement: Students who feel connected to their school are more motivated to learn, participate actively, and succeed academically.
-Relationships Matter: Strong connections with teachers, staff, peers, and parents create a sense of belonging and support, vital for student well-being and resilience.
-Community as Resource: When schools partner with parents and local organizations, students benefit from expanded resources, role models, and real-world experiences.

The actions focus on key areas critical to fostering connection and engagement:

Welcoming Environment:
-Training for all office staff in customer service and Restorative Practices ensures parents and students feel respected and supported from their first interaction with a school.
-A dedicated Parent Center with multilingual staff streamlines processes like enrollment and offers a central hub for resources, easing those sometimes stressful early introductions to the school system.

Parent Empowerment:
-Extensive parent training on topics ranging from academics to mental health equips parents to be active partners in their child's education.
-"Parents as Leaders" programs and leadership trainings empower parents to take on roles within the school community, strengthening their voice and building a genuine partnership with the school.

Communication Is Key:
-A robust communication system using ParentSquare, websites, and social media ensures information is readily available in multiple languages.
-Translators and multilingual resources break down language barriers and create a more inclusive environment.

Beyond the Classroom:

-Events like art fairs, health fairs, and career days bring students, families, and the wider community together, fostering a sense of shared purpose.

Supporting Vulnerable Students:
-Providing targeted support for homeless youth demonstrates that the school community cares about the needs of all students and strives to remove barriers to feeling connected.

Metrics to Measure Success
-Parent and Student Surveys: Assess perceptions of how connected they feel to the school and how welcome they feel.
-Participation Rates: Measure attendance at parent trainings, school events, and parent-teacher conferences. Increased participation indicates engagement.
-Partnerships: Document the number and nature of partnerships formed with community organizations.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

During the 2024–25 school year, we successfully implemented Actions 3.1 through 3.4 with a strong emphasis on building family-school partnerships, improving outreach and communication, and connecting families to key supports and services. All actions were implemented as planned and addressed needs identified through California School Dashboard data and educational partner feedback.

Action 3.1: Parent and Community Opportunities
The district expanded professional development for front office staff, health aides, and classified employees with training on Strengthening Families Framework, Restorative Practices, and creating welcoming environments. Events like PIQE graduation at Patriot High and GATE parent workshops focused on emotional needs of gifted students provided additional family engagement opportunities. The district's Mystery Reader initiative and Family Reading Challenge promoted early literacy and were supported by strategic communication efforts and site-based events.
Leadership development programs such as the Women's Leadership Network and Classified Leadership Academy continued to elevate parent and staff voice in decision-making. At Camino Real Elementary, targeted family engagement strategies were employed to address Chronic Absenteeism concerns. No deviations from the adopted plan were identified.

Action 3.2: Parent Center

The Parent Center functioned as a centralized hub for registration and family services, hosting leadership training events and professional development on supporting immigrant families. The TODEC immigration clinic, which served over 200 participants, exemplified how the Parent Center connected families with vital legal and educational services. Translator Clerk Typists and the Parent Center Specialist received training to support diverse family needs, with implementation fully aligned to the action's intent.

Action 3.3: Communication Outreach
Strategic Communications expanded engagement through ParentSquare, newsletters, social media, and video series like "On the Road with Dr. Hansen" and "The Horizon." Efforts included TK/K enrollment campaigns with targeted messaging via billboards and mailers. The department received recognition from CalSPRA and NSPRA for its award-winning "Attend Today, Succeed for Life" campaign. Literacy and attendance messaging were prioritized for schools and student groups performing in the lowest Dashboard bands. All actions were executed without substantive changes.

Action 3.4: Parent Involvement and Community Outreach (PICO)
PICO coordinated high-impact outreach and trauma-informed services aligned with the Whole School, Whole Community, Whole Child framework. Notable highlights included:
-The 4th Annual Day of the Child, attended by over 800 individuals and supported by more than 50 vendors and community sponsors.
-Wellness Days at Troth Street Elementary and Seeking Safety trauma recovery groups for secondary students, facilitated by Behavioral Health interns.
-Healthy Boundaries parent workshops and intramural sports programs, which boosted student connectedness and community engagement.
-PICO also led professional development for staff on immigration, held newcomer family orientations, and collaborated with equity-focused liaisons to address Chronic Absenteeism among homeless youth. All activities were implemented according to plan.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Due to a mid-year salary increase, including a one-time off-schedule payment to all staff, and in an effort to prudent monitoring of resources as one-time fiscal resources ended, we used a 20% difference between budgeted expenditures and total estimated actual expenditures to determine a material difference. The following actions met this criterion:
Action 3.1 (Parent and Community Opportunities) had an increase due to a Graphic Designer position that was included as part of the goal to support the actions to engage parents and the community.
Action 3.4 (PICO) had an increase in services that were funded through state and local fiscal resources in response to an increase in identified student needs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Action 3.1 (Parent and Community Opportunities) was effective, as demonstrated by 90.7% of parents responding favorably to the question that they are encouraged to be an active partner with the school in educating their child, as measured by metric 3.4.

Action 3.2 (Parent Center) was effective, as demonstrated by a 5% increase in parents interacting with school-based communication, as measured by metric 3.8.

Action 3.3 (Communication Outreach) was effective, as demonstrated by a 5% increase in parents interacting with school-based communication, as measured by metric 3.8.

Action 3.4 (Parent Involvement and Community Outreach (PICO)) was effective, as demonstrated by 90.7% of parents responding favorably to the question that they are encouraged to be an active partner with the school in educating their child, as measured by metric 3.4.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Metrics 3.4, 3.5, 3.6, and 3.7 were modified to use a District LCAP Staff Survey developed and administered in-house and will no longer use the CalSCHLS Parent or Staff survey.

Action 3.4 was modified due to a majority of staff previously funded through LCAP now funded through revenue sources outside of the LCAP for 2025-26. In addition, the action was modified to include Foster Youth as a student group identified for Differentiated Support that the action and personnel will support.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Parent and Community Opportunities	Professional Development will be provided on customer service and welcoming environment for all office staff (with site-level goal setting to the welcoming and engaging environment), including Classified and Certificated substitutes and hourly; provide opportunities for classified staff to participate in job-alike conferences; Strengthening Families Framework training provided to all front office staff and health aides to support families through a lens of customer services by connecting families, offering hope, and providing resources through PICO; and Restorative Practices training for all front office staff.	$161,815.00	Yes

Action #	Title	Description	Total Funds	Contributing
		District and Site-based parent training will be provided, such as California State Standards, English Language Development, Report Cards, Bullying Prevention, Art Fairs, Nutrition Classes, Career Day, Wellness and Preventative Health Care Workshops, Technology Workshops, Math nights, College Systems, FAFSA/CADAA, College Application process, Mental Health, Healthy Relationships, Health Fairs, 100 Mile Club, and Strengthening Families. Shared leadership training, such as jTEP and Watch Dogs, will be provided to enhance parents' understanding of their roles and responsibilities. We also have various committees such as the District Advisory Council, District English Learner Advisory Council, African American Parent Advisory Council, Partners for Inclusive Education, Educational Partnership Equity Committee, English Learner Advisory Council, and School Site Council. Additionally, we will offer training for PTA/O and Booster organizations. Required action based on student performance from baseline data: -Camino Real Elementary will further enhance the relationships between students, teachers, and families to foster a sense of belonging and support because the school is at the lowest performance level on the Chronic Absenteeism indicator.		
3.2	Parent Center	The Parent Center will serve as a one-stop location for parents to enroll and register their students. This center will support various services including assessment, Dual Immersion enrollment, free-reduced lunch, transportation, and intra-district transfers. The aim is to connect parents and students to the appropriate district and community resources.The Parent Center will be staffed with Translator Clerk Typists who will receive professional development on registration, creating a welcoming environment, understanding district programs, new enrollment procedures, and applications. They will play a crucial role in supporting the Parent Center. In addition to the Translator Clerk Typists, a Parent Center Specialist will be on hand to support transfers, enrollment, parent needs, and special situations. This specialist will be an essential resource for addressing unique circumstances and ensuring that all parents receive the support they need. The Parent Center will be equipped with the necessary	$543,592.00	Yes

Action #	Title	Description	Total Funds	Contributing
		furniture, materials, and supplies to create a comfortable and efficient environment for parents.		
3.3	Communication Outreach	The Department of Strategic Communications, with its Director of Communication, Communications Specialist, and Communications Assistant team, supports learning without limits by routinely sharing information with students, families, educators, and the community. It uses various communication channels, including the ParentSquare notification system, social media, the district website, the Superintendent's Monthly Minute, and The Horizon e-newsletter. These platforms keep the community updated on district news, events, classroom activities, and inspiring stories and celebrate achievements districtwide. The department also ensures the site and district website are up-to-date and easily accessible, fostering a strong connection between all educational partners. Required actions based on student performance from baseline data: -Emphasis will be placed on ensuring consistency in supporting students' ELA development at home and in school through increased communication due to students performing at the lowest performance level on ELA indicator at the following schools: Ina Arbuckle Elementary, Mission Bell Elementary, Mission Middle, West Riverside Elementary.	$547,582.00	Yes
3.4	Parent Involvement and Community Outreach (PICO)	The Parent Involvement & Community Outreach (PICO) will empower individuals, families, and communities by promoting parental advocacy for children's education, providing resources and services to enhance child development and school readiness, and fostering collaborations with community organizations to build a healthier, connected community. PICO will provide families with resources to build resilience, foster positive parent-child relationships, and support students' academic success by connecting families to services and building a community network of support and partnerships. They will provide training and support to parent leaders, implementing the Strengthening Families Framework and the Whole School, Whole Community, Whole Child Framework. The organization comprises various staff members, including the Director of	$505,653.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Parent Involvement & Community Outreach, the Administrative Secretary, and the Outreach Worker. Required action based on student performance from baseline data and year one outcome data that led to Differentiated Assistance: -We will prioritize addressing foster youth and homeless youth students' needs for food, clothing, and hygiene to support their school attendance due to their lowest performance on the Chronic Absenteeism indicator and being eligible for Differentiated Assistance.		

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Nueva Vista Continuation High School: By the end of the 2025-26 school year, English Learners, Long-Term English Learners, and Hispanic students will increase their preparedness towards College and Career indicators as measured by the CCI Dashboard indicator.	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

Priority 2: State Standards (Conditions of Learning)

Priority 4: Pupil Achievement (Pupil Outcomes)

Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Nueva Vista Continuation High School (NVHS) was identified as a school to receive Equity Multiplier funding due to a non-stability rate of 78.5% and a socioeconomically disadvantaged rate of 87.6%. On the Fall 2024 California Dashboard, while NVHS had no indicators in the "Red" performance level overall, three student groups within the College Career Indicator were in the "red" performance color.

College Career Indicator: All Students 5.5% Prepared "Orange"
-English Learners 4.3% Prepared "Red"
-Hispanic 4.7% Prepared "Red"
-Long Term English Learners 4.8% Prepared "Red"

Measuring and Reporting Results

		Students with Disabilities: 1.9% (very low) Hispanic: 2.9% (very low) CCI Indicator, California Dashboard, Fall 2023	English Learners: 4.3% (-1.6%) (Red) Long Term English Learners: 4.8% (Red) Students with Disabilities: 10.7% (+8.9%) (Low) Hispanic: 4.7% (+1.8%) (Red) CCI Indicator, California Dashboard, Fall 2024		English Learners: 14.9% (low) Students with Disabilities: 10.9% (low) Hispanic: 11.9% (low) CCI Indicator, California Dashboard, Fall 2026	Student Group for 24/25 Students with Disabilities: +8.9% Hispanic: +1.7% CCI Indicator, California Dashboard, Fall 2024

Goal Analysis [2024-25]
An analysis of how this goal was carried out in the previous year.
A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Nueva Vista Continuation High School implemented a comprehensive plan during the 2024–25 school year to support English Learner (EL) students and improve College/Career Indicator (CCI) outcomes for key student groups, including English Learners, Hispanic students, socioeconomically disadvantaged students, and students with disabilities. These efforts were funded through the state's Equity Multiplier allocation, which provided critical resources to address the needs of historically underserved populations.

The Assistant Principal and Counselor provided targeted support to English Learners, focusing on English language development and academic success. Their efforts contributed to growth on the ELPI indicator through integrated ELD strategies and individualized monitoring. Additionally, they expanded access to CTE Pathways and Dual Enrollment for all students, including helping students specifically earn college credit and make progress on the College and Career Indicator (CCI). These coordinated actions reflect a comprehensive implementation of the school's Equity Multiplier Focus Goal. Additionally, the school utilized supplemental support from Bilingual Language Tutors (BLTs) to enhance both language development and academic achievement for English Learner (EL) students. Teachers participated in professional development and training opportunities through conferences and workshops, aimed at strengthening instructional practices for supporting English Learners and other focal student groups. In addition, information and resources were shared schoolwide to promote a culture of awareness and responsiveness to the needs of EL students.

The school further enriched the learning environment by providing additional instructional supplies, materials, and library resources. Equipment and technology were used to enhance teaching and learning, contributing to both academic engagement and social-emotional support. Online programs and digital tools were implemented to increase access to differentiated instruction and engaging content.

To promote positive student outcomes, incentives were provided that encouraged improvements in academic achievement, attendance, behavior, and participation. The plan also included expanded access to college and career experiences, including field trips focused on post-secondary education and Career Technical Education (CTE) pathways. These opportunities were designed to align student interests with future career opportunities and included experiences such as OSHA safety training and Dell Tech certifications in Chromebook repair—both of which contributed to increased readiness on the College/Career Indicator.

Support for FAFSA and Dream Act completion remained a key component of the school's implementation. College & Career Kickoff events were held in October and January, offering students access to guest speakers, college and career fairs, and workshops on financial aid and the college application process. Individual meetings were also held to support students in developing and completing their post-secondary plans.

In addition, the structure of school data teams was realigned to focus on subject-specific collaboration. This shift emphasized the development of SMART goals aimed at improving instructional effectiveness and increasing student engagement across content areas.

In summary, the school successfully implemented the planned Equity Multiplier-funded strategies, with particular strength in supporting English Learners and advancing College/Career readiness for underserved student groups. The initiatives were aligned to site goals and demonstrated a strong commitment to closing opportunity gaps and promoting student success.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The significant portion of the Equity Multiplier planned expenditures involved personnel costs, and there was not a substantive difference in these costs as a total for the goal. Still, there was a variance when broken down by action. The main difference was due to the decrease in personnel costs planned for implementing additional teacher hours to support extended learning opportunities (ELO) for students, due to barriers in student attendance outside the typical school day.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The previous action 4.1 (English Learner Supports) was effective, as demonstrated by the 3.9% increase in English Learner students making progress towards English language proficiency or maintaining the highest level as measured by the ELPI Dashboard indicator.

The previous action 4.2 (Preparedness for College and Career), which is now the current action 4.1, was effective, as demonstrated by the 2.8% increase in the percentage of high school graduated "prepared" on the College/Career indicator. While this increase was for all students, the three student groups that maintained (English Learners, Long Term English Learners, and Hispanic) will receive a higher level of focus within the action to support their improvement.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

-Removed ELPI as a metric due to improvement from the "red" performance level for all students and all student groups and renumbered CCI indicator from metric 4.2 to 4.1
-Removed previous action to support English Learners due to improvement of students on ELPI from 2023/24 school year.
-Added Long Term English Learner to Year 1 outcome data for CCI due to new establishment as a student group
-Added Dual Enrollment as a focus of action 4.1

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Preparedness for College and Career	Nueva Vista Continuation High recognizes the diverse needs of English Learners, Long Term English Learners, and Hispanic students. To support their academic achievement and access to CTE pathways and Dual Enrollment opportunities, we're implementing the following services: -An Assistant Principal will oversee the implementation of academic interventions, manage course access, and collaborate with teachers to track student progress and identify areas for additional support. -A School Counselor will provide individual and group counseling sessions focused on college and career exploration. The counselor will help students develop academic plans, understand college entrance requirements, navigate the application process, and identify scholarship opportunities. The counselor will also promote CTE and Dual Enrollment awareness and help students connect their interests and skills with potential career paths.	$409,781.00	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	**Action:** Standards Aligned Curriculum **Need:** After assessing our low-income students' needs, conditions, and circumstances, we learned that the ELA and Math Distance from Standard (DFS) on CAASPP are -65.5 (ELA) and -104.6 (math), which fell further than the distance from the standard for all students.	To address this condition of our low-income students, we will improve the current standards-aligned curriculum with support from curriculum coordinators and high-quality instruction to promote college and career readiness through standards-aligned curriculum and supplemental support materials. The significant achievement gap in ELA and Math for low-income students across the district necessitates a district-wide initiative to improve curriculum and instruction, ensuring equitable access to a high-quality	Annually monitor using 1.5 CAASPP ELA & 1.6 CAASPP Math. Routinely monitor using: -Post PD Survey: This will gather feedback from participants on the PD content's quality, relevance, and applicability to their

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	education that promotes college and career readiness for all students.	classroom practice. The survey will also assess changes in knowledge, skills, and attitudes related to the PD focus. -Evidence of PD Implementation: This will involve classroom observations and student work samples to determine how educators apply the strategies and techniques learned in the PD to their instruction.
1.2	**Action:** Professional Development **Need:** After assessing our English Learner students' needs, conditions, and circumstances, we learned that the ELA and Math Distance from Standard (DFS) on CAASPP are -99.8 (ELA) and -126.2 (math), which fell further than the distance from the standard for all students. **Scope:** LEA-wide	To address this condition of our English Learner students, we will improve the professional development for research- and evidence-based strategies to meet student needs, provide program support to support program monitoring needs and ensure all new teachers receive comprehensive induction support. The substantial achievement gap in ELA and Math for English Learner students across the district necessitates a district-wide initiative to enhance professional development and program support, ensuring equitable access to a high-quality education that promotes college and career readiness for all students.	Annually monitor using 1.5 CAASPP ELA & 1.6 CAASPP Math. Routinely monitor using: -Post PD Survey: This will gather feedback from participants on the PD content's quality, relevance, and applicability to their classroom practice. The survey will also assess changes in knowledge, skills, and attitudes related to the PD focus. -Evidence of PD Implementation: This will involve classroom observations and student work samples to determine

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			how educators apply the strategies and techniques learned in the PD to their instruction.
1.3	**Action:** Visual and Performing Arts (VAPA) **Need:** After assessing our English Learner, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that the Math Distance from Standard (DFS) on CAASPP are -126.2 (English Learners), -112.7 (Foster Youth), and -104.6 (Low Income), which fell further than the distance from the standard for all students. **Scope:** LEA-wide	Research indicates that participation in arts programs can boost cognitive development, engagement, and foster a positive school climate. These benefits can indirectly support academic achievement in core subjects like math, particularly for English learners, foster youth, and low-income students who may benefit from the increased motivation and well-rounded educational experience. It's important to provide these opportunities at all schools to ensure equitable access for all students.	Annually monitor using: -CAASPP ELA and CAASPP Math at Pacific Avenue Academy of Music -Student Survey: A survey will be administered to all student who participated in the VAPA program and will monitor their experiences in the arts and their perception of its effectiveness.
1.4	**Action:** Education and Information Technology **Need:** After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that the ELA Distance from Standard (DFS) on CAASPP is -99.8 (English Learners), -73.8 (Foster Youth), and -65.5 (Low Income), which fell further than the distance from the standard for all students. **Scope:**	Providing every student with a Chromebook, library resources, and access to literature will significantly improve the performance of English learners, foster youth, and low-income students on the CAASPP ELA assessment. Chromebooks offer access to digital resources, including language learning tools and practice tests, helping English learners develop their language proficiency. Libraries provide diverse literature that exposes these students to rich vocabulary and complex sentence structures, strengthening their reading comprehension skills. Both Chromebooks and libraries support personalized learning, allowing students to work at their own pace and	Routinely monitor using: -Usage Rate Data of Adopted Curriculum Digital Resources: This will gauge the actual implementation and utilization of the digital tools and resources provided. By tracking how often and to what extent these resources are being used by both teachers and students, we can identify areas of success, areas needing improvement, and

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	target specific areas of need. These resources are particularly beneficial for English learners, foster youth, and low-income students, bridging potential gaps in access to technology and reading materials, which are crucial for success on the CAASPP ELA assessment. It's important to provide these resources across all school sites to ensure equity of access and opportunity for all students, regardless of their background or location.	any potential barriers to adoption.
1.5	**Action:** Professional Preparation and Collaboration Time **Need:** After assessing our English Learner, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that the Math Distance from Standard (DFS) on CAASPP are -126.2 (English Learners), -112.7 (Foster Youth), and -104.6 (Low Income), which fell further than the distance from the standard for all students. **Scope:** LEA-wide	Providing additional collaboration time for teachers each day will significantly support teacher planning to better meet the needs of English learners, foster youth, and low-income students in improving their math proficiency. This time allows teachers to share best practices for reaching these students, analyze data to pinpoint areas of need, develop targeted interventions, and create differentiated lessons that are engaging and culturally relevant. Regular collaboration also promotes consistency in math instruction, which is particularly important for students who may benefit from additional support and stability. By ensuring all school sites offer this collaboration time, we ensure that all teachers have the resources and support to help these students succeed in math.	Annually monitor by 1.5 CAASPP ELA and 1.6 CAASPP Math. Routinely monitored through: -Attendance Rate: An improvement in attendance can serve as an indicator of increased student engagement and interest in their classes, which may be a result of more engaging learning opportunities created by teachers through collaboration.
1.6	**Action:** Reducing Class Sizes through Grade Span Adjustment **Need:** After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned	Reducing class sizes across all schools will significantly benefit English learners, foster youth, and low-income students in achieving higher proficiency on the CAASPP ELA assessment. Smaller classes allow teachers to provide more personalized attention to these students, addressing their individual language development needs, offering targeted support in reading	Annually monitor by 1.5 CAASPP ELA and 1.6 CAASPP Math. Routinely monitor through: -Panorama Student Survey Data: Monitoring student feedback on their

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	that the ELA Distance from Standard (DFS) on CAASPP is -99.8 (English Learners), -73.8 (Foster Youth), and -65.5 (Low Income), which fell further than the distance from the standard for all students. **Scope:** LEA-wide	comprehension and writing skills, and fostering a more supportive learning environment. With fewer students in each class, teachers have more time to differentiate instruction, provide timely feedback, and build stronger relationships with students who may face additional challenges outside of the classroom. This increased support and attention are crucial for the academic success of English learners, foster youth, and low-income students.	relationships with teachers, including feelings of support, trust, and connection, will reveal if the increased planning time allows for more personalized attention and stronger rapport between teachers and students.
1.7	**Action:** Elementary Supplemental Supports **Need:** After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that the ELA Distance from Standard (DFS) on CAASPP is -99.8 (English Learners), -73.8 (Foster Youth), and -65.5 (Low Income), which fell further than the distance from the standard for all students. After assessing our English Learner, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that the Math Distance from Standard (DFS) on CAASPP are -126.2 (English Learners), -112.7 (Foster Youth), and -104.6 (Low Income), which fell further than the distance from the standard for all students. **Scope:** LEA-wide	Elementary Support Teachers, specializing in ELA and math, provide a crucial safety net within the Multi-Tiered System of Support (MTSS) framework. They utilize specialized software to pinpoint individual skill gaps in English learners, foster youth, and low-income students, allowing for personalized interventions that directly target areas crucial for success on the CAASPP assessments. Resources like phonics materials and on-level readers ensure these students build the foundational skills necessary for tackling the reading comprehension challenges found on both the ELA and Math CAASPP exams. Teachers themselves receive continuous professional development focused on strategies like word recognition and improved number sense, empowering them to adapt their instruction to the unique needs of these student populations. Data analysis skills help them create flexible groupings where students with similar needs can get targeted instruction, addressing specific CAASPP-related skills. Support teachers model and coach effective small group routines.	Annually monitor using 1.5 CAASPP ELA and 1.6 CAASPP Math. Routinely monitor using: -Post Elementary PD Survey: This will gather feedback from participants on the PD content's quality, relevance, and applicability to their classroom practice. The survey will also assess changes in knowledge, skills, and attitudes related to the PD focus.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		Alongside this, the school environment emphasizes inclusivity. Inclusive practices mean English Learners, foster youth, and low-income students aren't segregated from the core curriculum, ensuring they have the same opportunities as their peers to develop the knowledge base the CAASPP assesses. Trained paraprofessionals and work supported by the Partners for Inclusive Education (PIE) committee, ensure students have access to support within the general classroom setting, fostering success in the Least Restrictive Environment (LRE). Finally, Teachers on Special Assignment and Assistant Principals provide additional student management support. This creates a more focused learning environment for all, a benefit particularly felt by students who may have challenges impacting their academic performance and consequently, their CAASPP scores. The substantial achievement gap in ELA and Math for English Learners, Foster Youth, and Low-Income students necessitates a comprehensive district-wide initiative encompassing specialized support teachers, targeted professional development, inclusive practices, and additional student management support to ensure equitable access to a high-quality education that addresses the unique needs of these students and promotes their success on CAASPP assessments and beyond.	
1.8	**Action:** Secondary Supplemental Supports	This program offers several targeted services to support English Learners (ELs), foster youth, and	Annually monitor using 1.5 CAASPP ELA, 1.6

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that the percentage of 11th grade students meeting Early Assessment Program (EAP) criteria in ELA is 5.49% (English Learners), 25.49% (Foster Youth), and 25.84% (Low Income), which was a smaller percentage than all 11th grade students. **Scope:** LEA-wide	low-income students in their journey to ELA proficiency by 11th grade. Dedicated ELD intervention, alongside regular ELA support, ensures that ELs receive focused instruction essential for success. Online learning platforms and inclusive classrooms provide flexible environments for these students to learn at their own pace. Specialized software like Read 180/System 44 targets vocabulary development, reading comprehension, and writing skills. Counselors play a crucial role in proactively placing foster youth, low-income students, and those experiencing homelessness into the most appropriate intervention programs, addressing potential barriers to success. The inclusion model fosters a sense of belonging and ensures these students are fully supported without being isolated from their peers. Additionally, the AVID program targets traditionally under-represented students in college preparation, offering academic support, exploration, and guidance key for succeeding in demanding ELA courses and eventual college readiness. By extending these services across all middle and high schools, the program provides consistency and crucial continuity as students progress through their education. This multi-pronged approach emphasizes individualized attention, inclusive environments, and a focus on post-secondary pathways — crucial elements for narrowing the achievement gap and ensuring all students gain the skills needed for ELA proficiency by 11th grade.	CAASPP Math, and 1.14 Percentage of 11th-grade students meeting Early Assessment Program (EAP) criteria in 11th grade. Routinely monitor using: -Post Secondary PD Survey: This will gather feedback from participants on the PD content's quality, relevance, and applicability to their classroom practice. The survey will also assess changes in knowledge, skills, and attitudes related to the PD focus.
1.9	**Action:** College and Career Readiness **Need:**	This action directly supports English learners and low-income students in achieving College and Career Indicator (CCI) preparedness by focusing on several key areas. Providing these support	Annually monitor using 1.20 College/Career Indicator.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	After assessing our English Learners and Low-Income students' needs, conditions, and circumstances, we learned that the percentage of students in the 2023 graduating class prepared on CCI indicators is 24.5% (English Learners) and 43.1% (Low Income), which was a smaller percentage than all graduating students. **Scope:** LEA-wide	systems at all schools is crucial because it ensures equity in opportunity. Targeted support with multi-tiered interventions and Spanish language resources addresses the unique needs of English Learners, regardless of which school they attend. Expanding A-G course offerings and providing specific AP support for English Learners at each school ensures all students have access to rigorous college preparatory coursework. Dedicated focus on college and career guidance, including financial aid workshops, ensures that students from low-income backgrounds, students experiencing homelessness, foster youth, and students with disabilities at every school receive the support they need to plan and succeed beyond high school. Finally, supporting them through the challenges of school transitions at all locations promotes their long-term success and avoids disparities in preparedness based on school location.	Routinely monitor using: -6-Year College & Career Plan data, gathered annually from grades 7 - 12, will allow students to share their interests and aspirations early on, allowing us to make informed decisions about CTE pathways being offered and students' perceptions of college and career opportunities.
1.13	**Action:** Dual Immersion **Need:** After assessing our English Learners' needs, conditions, and circumstances, we learned that the percentage of high school students receiving the State Seal of Biliteracy is low at 6.5% of students in the graduating class of 2023. **Scope:** LEA-wide	By strengthening and expanding our Dual Immersion (DI) program, we are creating a direct pathway for students to achieve the required fluency in two languages to qualify for the State Seal of Biliteracy by graduation. The program's immersive environment fosters strong second-language acquisition and academic performance in both languages, putting students on track for success in assessments. Equitable access to the DI program for all students is crucial. By offering it to all students, regardless of their native language, we ensure everyone has the opportunity to develop biliteracy, a valuable skill that benefits them in college, careers, and personal growth.	Annually monitor using 1.18 Percent of high school students receiving the State Seal of Biliteracy and 1.5 CAASPP ELA & 1.6 CAASPP Math disaggregated by DI program enrollment.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.14	**Action:** Student Learning, Monitoring and Feedback **Need:** After assessing our English Learner students' needs, conditions, and circumstances, we learned that the ELA and Math Distance from Standard (DFS) on CAASPP are -99.8 (ELA) and -126.2 (math), which fell further than the distance from the standard for all students. After assessing our Foster Youth students' needs, conditions, and circumstances, we learned that the ELA and Math Distance from Standard (DFS) on CAASPP are -73.8 (ELA) and -112.7 (math), which fell further than the distance from the standard for all students. After assessing our Low-income students' needs, conditions, and circumstances, we learned that the ELA and Math Distance from Standard (DFS) on CAASPP are -65.5 (ELA) and -104.6 (math), which fell further than the distance from the standard for all students. **Scope:** LEA-wide	This action helps English learners, foster youth, and low-income students achieve greater CAASPP proficiency by providing standards-aligned assessments and data analysis alongside dedicated teams for monitoring student progress. This targeted support helps teachers identify and address specific language barriers for English learners, along with other learning gaps, ensuring all students are well-prepared for state assessments. Providing this service at all schools promotes equity by ensuring all students, regardless of their background, have access to the resources and support necessary to succeed.	1.5 CAASPP ELA and 1.6 CAASPP Math Routinely monitor using: -CAASPP Interim Assessment Student Performance: This measures student performance on interim assessments and will allow us to compare progress from their previous CAASPP scaled score. Testing Coordinator Exit Survey: Feedback from testing coordinators helps find ways to improve assessments for students and teachers.
1.15	**Action:** School Site Allocation **Need:**	The LCFF allocates additional funding to schools based on their number of English Learners, foster youth, and low-income students. This funding supports targeted programs that address these students' specific needs. These include	Routinely monitor using: -Program Effectiveness: Evaluating student progress data (e.g., test scores, attendance)

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	After assessing our English Learners and Low-Income students' needs, conditions, and circumstances, we learned that the graduation rates are 87.4% (English Learners) and 93.6% (Low-Income), which is lower than the graduation rate for all students. **Scope:** LEA-wide	specialized language instruction, academic tutoring, credit recovery options, and social-emotional support. These resources help them overcome barriers, stay on track academically, and increase their chances of graduating. Providing this funding to all schools ensures that students receive equitable support across the district, regardless of their school's demographics, and promotes higher graduation rates for everyone.	aligned with SPSA goals proves the positive impact of the plan, making a strong case for continued financial support. -Data-Driven Decision Making: Using SPSA implementation data to identify areas for improvement allows for adjustments to maximize the plan's impact, further justifying the need for continued funding.
2.1	**Action:** Supplemental Transportation **Need:** After assessing our Low-Income students' needs, conditions, and circumstances, we learned that the chronic absenteeism rates was 33.3%, which is higher than the chronic absenteeism rate for all students. **Scope:** LEA-wide	Research has shown that providing school bus services can significantly improve student attendance. By offering bussing to all students, the school district can ensure that every child has equal access to education regardless of socio-economic status. This is particularly beneficial for economically disadvantaged students, who experience a 0.5 to 1 percentage point increase in attendance rates and a 2 to 4 percentage point decrease in the probability of being chronically absent when provided with transportation*. Moreover, school buses do more than transport students to and from school. They also serve as a safe and controlled environment, reducing the risk of negative social interactions such as bullying and fighting that can deter students from attending school. *Danielle Sanderson Edwards; Another One Rides the Bus: The Impact of School Transportation on Student Outcomes in Michigan. Education Finance	2.3 - Chronic Absenteeism Rate

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		and Policy 2024; 19 (1): 1–31. doi: https://doi.org/10.1162/edfp_a_00382	
2.2	**Action:** Multi-Tiered System of Supports **Need:** After assessing our Foster Youth and Low-Income students' needs, conditions, and circumstances, we learned that the suspension rate is 6.8% (Foster Youth) and 3.0% (Low-Income), which is higher than the suspension rate for all students. **Scope:** LEA-wide	For foster youth, who often face unique challenges and higher rates of mental health issues, MTSS can provide a structured, supportive environment that addresses their specific needs. The MTSS framework allows for the implementation of trauma-informed care approaches, which are particularly beneficial for foster youth who have experienced trauma. By addressing the social-emotional needs of these students and providing them with individualized support, MTSS can help foster youth succeed academically and socially. For English learners, MTSS can be particularly effective in supporting their language and literacy development. The framework allows for the implementation of culturally and linguistically responsive pedagogical strategies that address the instructional needs of diverse learners. This can help English learners overcome language barriers, improve their academic performance, and reduce the risk of being mistakenly placed in special education classes.	2.6 Pupil Suspension Rate
2.3	**Action:** Athletics Program **Need:** After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that student connectedness decreases in high school. This action will support the high percentage of unduplicated students districtwide.	Participation in athletics can significantly enhance the high school experience, particularly for English learners, foster youth, and low-income students. Engaging in sports activities fosters a sense of belonging, as students become part of a team striving towards common goals. This camaraderie can transcend language barriers, socio-economic differences, and personal backgrounds, creating an inclusive environment where all students feel valued and connected. Moreover, the discipline, resilience, and teamwork learned on the sports	2.9 School Climate Survey: School Connectedness

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	School Climate Survey: Decrease in student connectedness in high school Grade 9: 49% -English Learner: 52% -Foster Youth: 42% Grade 11: 55% -English Learner: 52% -Foster Youth: 46% **Scope:** LEA-wide	field often translate to academic success, further strengthening students' attachment to their school. The decline in student connectedness among English Learners and Foster Youth students in high school, as evidenced by the School Climate Survey, necessitates a district-wide initiative promoting athletic participation to foster a sense of belonging, inclusivity, and academic success for these students.	
2.4	**Action:** Student Wellness and Safety **Need:** After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that there is an increase in students feeling unsafe in middle and high school. We believe that this action will support the high percentage of unduplicated students districtwide. A percentage of students across the grade levels expressed feeling unsafe at school on the School Climate Survey: School Safety Grade 7: -Very Safe: 12% (EL: 16%, FY: 17%) -Safe: 43% (EL: 37%, FY: 41%) -Neither safe nor unsafe: 25% (EL: 40%, FY: 36%) -Unsafe: 6% (EL: 5%, FY: 3%)	Providing students with a sense of safety and caring for their health can significantly improve their academic outcomes. When students, particularly English learners, low-income students, and foster youth, feel safe and healthy, they are better able to focus on their studies. A secure environment reduces stress and anxiety, which can hinder learning and cognitive development. Health care, including mental health services, ensures that students are physically and emotionally well, enabling them to fully engage in academic activities. Furthermore, when students know that their well-being is a priority, it fosters a positive relationship with the school, enhancing their motivation to learn. The increasing percentage of Foster Youth students feeling unsafe in middle and high school, as evidenced by the School Climate Survey, necessitates a district-wide initiative prioritizing student safety and health to improve academic	2.8 School Climate Survey: School Safety

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	-Very unsafe: 4% (EL: 2%, FY: 3%) Grade 9: -Very Safe: 13% (EL: 12%, FY: 11%) -Safe: 43% (EL: 38%, FY: 43%) -Neither safe nor unsafe: 36% (EL: 44%, FY: 30%) -Unsafe: 3% (EL: 1%, FY: 6%) -Very unsafe: 4% (EL: 5%, FY: 9%) Grade 11: -Very Safe: 13% (EL: 9%, FY: 14%) -Safe: 48% (EL: 48%, FY: 36%) -Neither safe nor unsafe: 35% (EL: 41%, FY: 45%) -Unsafe: 3% (EL: 1%, FY: 0%) -Very unsafe: 1% (EL: 1%, FY: 4%) **Scope:** LEA-wide	outcomes and foster a positive school environment for these students.	
3.1	**Action:** Parent and Community Opportunities **Need:** After assessing our Low-Income students' needs, conditions, and circumstances, we learned that 82% of parents agreed that the school encourages them to be active partners, which is lower than the percentage rate for all parents. **Scope:**	Providing parents with opportunities to be involved in school activities is crucial at every school, and it is particularly important for English learners, low-income students, and foster youth. Parental involvement fosters a sense of community and belonging, which can greatly enhance a student's academic experience and outcomes. For English learners, low-income students, and foster youth, this involvement can provide additional support and resources that may not be readily available at home. It allows parents to better understand the educational process and their child's progress, enabling them to provide more effective support. Furthermore, it encourages open communication	3.4 Parent & Family Engagement: California School Parent Survey

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	between the school and parents, fostering a collaborative approach to education that benefits all parties involved. The lower rate of active parental partnership among low-income families necessitates a district-wide initiative to increase parental involvement opportunities at every school, recognizing the crucial role this plays in enhancing the academic experience and outcomes for all students, especially those from vulnerable backgrounds.	
3.2	**Action:** Parent Center **Need:** After assessing our Low-Income students' needs, conditions, and circumstances, we learned that 81% of parents agreed that teachers communicate about what students are expected to learn, which is lower than the percentage rate for all parents. **Scope:** LEA-wide	Providing in-person support to all families enrolling their children in schools is highly beneficial, particularly for parents of students who are low-income, English Learners, and Foster Youth. This approach fosters a more personalized and empathetic interaction, allowing school staff to address specific concerns and questions directly. For low-income families, in-person support can help navigate potential financial barriers and understand available resources. For parents of English Learners, this support can bridge language gaps, ensuring clear communication about academic expectations and resources. For Foster Youth, who often face unique challenges, in-person support can provide a sense of stability and belonging. Overall, this hands-on approach strengthens the school-community relationship, promotes parental involvement, and ensures that every child, regardless of their background, has an equal opportunity to succeed. The lower rate of agreement (81%) among low-income parents regarding teacher communication about learning expectations necessitates a district-	3.8 Parent interaction with district and site-level communication

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		wide initiative to provide in-person support to all families during enrollment, recognizing the crucial role this plays in establishing clear communication and fostering equitable access to educational resources for all students, especially those from vulnerable backgrounds.	
3.3	**Action:** Communication Outreach **Need:** After assessing our English Learners, Foster Youth, and Low-Income students' needs, conditions, and circumstances, we learned that 9% of parents interacted with district messages, which we believe all unduplicated student groups will benefit from intentional and routine communication. **Scope:** LEA-wide	The services provided by the Department of Strategic Communications are crucial at every school in the district. Effective communication ensures that all families, particularly those of low income, English Learners, and foster youth, are informed and engaged. This is vital for their children's academic success. By keeping these families updated on district news, events, and resources, it promotes equal opportunities for learning and growth. It also fosters a sense of community and belonging, which is essential for the holistic development of every student.	3.8 Parent interaction with district and site-level communication
3.4	**Action:** Parent Involvement and Community Outreach (PICO) **Need:** After assessing our Low-Income students' needs, conditions, and circumstances, we learned that 82% of parents agreed that the school encourages them to be active partners, which is lower than the percentage rate for all parents. **Scope:**	The services provided by Parent Involvement & Community Outreach (PICO) are particularly crucial for parents of low-income students, English Learners, and foster youth. These groups often face additional challenges that can hinder their academic success. Low-income families may lack the resources necessary for educational support at home, such as books or tutoring services. English Learners may struggle with language barriers that can impede their understanding of the curriculum. Foster youth often face instability in their living situations, which can disrupt their learning continuity. By providing resources, training, and	3.4 Parent & Family Engagement: California School Parent Survey

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	support, PICO helps to level the playing field, ensuring that these students receive the same opportunities for academic success as their peers. Furthermore, implementing these services at all schools is essential to ensure equity in education, as it guarantees that every student, regardless of their background or circumstances, has access to the support they need to succeed.	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.10	**Action:** Foster Youth and Students Experiencing Homelessness Support Services **Need:** After assessing our Foster Youth and Students Experiencing Homelessness needs, conditions, and circumstances, we learned that the ELA Distance from Standard (DFS) on CAASPP is -73.8 (Foster Youth) and -110.6 (Students Experiencing Homelessness), which fell further than the distance from the standard for all students. **Scope:** Limited to Unduplicated Student Group(s)	Providing targeted academic support for foster youth and students experiencing homelessness is essential at all schools. Regular transcript and credit reviews help identify potential struggles in ELA courses early on, enabling the implementation of tailored interventions. A counselor dedicated to understanding the unique challenges of these students offers specialized guidance. Proactive outreach from academic counselors ensures these students know about resources such as ELA-focused tutoring, digital learning tools, and ongoing grade monitoring. Appropriate course placement through AB 216 checks prevents students from being placed in overly challenging ELA classes, protecting their confidence and motivation. Prioritized access to tutoring reinforces their ELA skills. Additionally, professional development for all staff in trauma-	Annually monitor using 1.5 CAASPP ELA & 1.6 CAASPP Math. Routinely monitor using: -Regular Transcript Review: The counselor will conduct systematic reviews of transcripts for each foster and homeless youth, tracking completed courses, credits earned, and any outstanding graduation requirements. -Track Service Delivery: The counselor will track the types of services provided to each student,

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
		informed practices fosters a supportive environment that recognizes the impact of trauma on learning, making classrooms more conducive to focus and academic success – essential for improved CAASPP ELA scores.	such as academic counseling, college and career guidance, and referrals to community resources, to ensure comprehensive support is provided.
1.11	**Action:** English Learner Services **Need:** After assessing our English Learners' needs, conditions, and circumstances, we learned that the percentage of English Learners making progress on English proficiency as measured by the ELPI is low (orange) at 40.7%, which includes 9 schools making very low (red) progress. **Scope:** Limited to Unduplicated Student Group(s)	Implementing a robust English Learner support system at all school sites directly accelerates these students' English proficiency. This system provides teachers with specialized training (QTEL), expert guidance on instruction and assessment of language skills (TSAs, evaluators), and the resources to offer diverse language development programs (designated ELD, integrated ELD, dual-language immersion). This comprehensive support across all schools ensures that every English learner receives the targeted instruction, resources, and qualified staff they need to thrive, regardless of their location. This approach fosters greater equity in education and ultimately prepares all students, including English learners, for academic and future success.	Annually monitor using 1.11 Percentage of English Learner students making progress on English proficiency (ELPI) Routinely monitor using: -Post Multilingual Education PD Survey: This will gather feedback from participants on the PD content's quality, relevance, and applicability to their classroom practice. The survey will also assess changes in knowledge, skills, and attitudes related to the PD focus.
1.12	**Action:** Long Term English Learners (LTEL) **Need:** After assessing our English Learners' needs, conditions, and circumstances, we learned that the percentage of English Learners being	Implementing a robust English Learner support system at all school sites directly accelerates English proficiency, especially for Long-Term English Learners (LTELs). This system provides teachers with specialized training (QTEL) and expert guidance on pinpointing the specific needs of LTELs (TSAs). It also offers intensive language development programs, such as targeted	1.12 English Learner Reclassification Rate

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	reclassified as Fluent English Proficient is low at 7.70%. **Scope:** Limited to Unduplicated Student Group(s)	interventions with Bilingual Language Tutors, tailored to address the unique challenges faced by students who have been in the system for an extended time. This comprehensive support across all schools ensures that LTEL students get the specific attention needed to break through language barriers, regardless of their location. This approach fosters greater equity in education and prepares these students to reach their full academic potential.	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Jurupa Unified School District is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of staff (both certificated and classified) who provide direct services to students in school campuses with greater than 55% of unduplicated pupil enrollment (which is all schools for 2025-26). The current or planned increase in staffing is as follows:
-Increase Health Care Aides' hours at each school site to allow for additional health support for students (Goal 2, Action 4)
-Support Teachers at each elementary school and Del Sol Academy to provide intervention support for targeted students based on NWEA assessments (Goal 1, Action 7)
-Five Assistant Principals and 10 Teachers on Special Assignment - Administrative support at elementary sites (Goal 1, Action 7)
-Second Assistant Principal and additional Campus Supervisor at Del Sol Academy (Goal 2, Action 4 & Goal 1, Action 7)
-Second Assistant Principal at Jurupa Middle School (Goal 2, Action 4)
-Additional district Nurse to decrease student-to-nurse ratio (Goal 2, Action 4)
-Three Teachers on Special Assignment - Student Management & Accountability (Goal 2, Action 2)
-Two Additional Counselors for Patriot High School and One Additional Counselor for Rubidoux High School to lower the student:counselor ratio (Goal 1, Action 8)

-Additional 1.0 teacher for NVHS to support students who are most credit-deficient (Goal 1, Action 8)
-Additional 0.6 teacher for Patriot High School and 0.4 teacher for Rubidoux High School to support AP Capstone (Goal 1, Action 9)
-One Spanish teacher will be at two middle schools to support A-G attainment. (Goal 1, Action 8)

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	1:34.7
Staff-to-student ratio of certificated staff providing direct services to students	N/A	1:20.1

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

  o Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

  o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

    ▪ **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.

- LEAs may also provide information about their strategic plan, vision, etc.

- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or

- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
        - Actions may be grouped together for purposes of these explanations.
        - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC Section 52060(g)* and *EC Section 52066(g)* specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;

  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see *Education Code* Section 52068; and

- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.

- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.

- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.

- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.

- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.

  o When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

  o The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.

- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.

- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

- In addition to this information, the LEA must also identify:

  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).

- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.

- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.

- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

  o These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

  o The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

  o The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

  o The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.

  o Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).

  o Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.

  o Indicate the school year to which the baseline data applies.

  o The baseline data must remain unchanged throughout the three-year LCAP.

    ▪ This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

    ▪ If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.

  o Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

  o Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- o Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.

  - o Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.

  - o Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.

    o Include a discussion of relevant challenges and successes experienced with the implementation process.

    o This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. "Effectiveness" means the degree to which the actions were successful in producing the target result and "ineffectiveness" means that the actions did not produce any significant or targeted result.

    o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.

    o When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

    o Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

    o As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and

- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

  o For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

  o As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

  o These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.

  o **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:

    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and

    - Professional development for teachers.

    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:

    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.

    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.

- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *[EC Section 32526(c)(2)](#)*.

- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:

  - Identify the action as an LREBG action;

  - Include an explanation of how research supports the selected action;

  - Identify the metric(s) being used to monitor the impact of the action; and

  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

  o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

  o The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

  o The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

  o The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)

- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. *This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.*

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action's number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

  - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

    For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.

- **5. Total Planned Percentage of Improved Services**

  - This percentage is the total of the Planned Percentage of Improved Services column.

- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- o This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

    - o This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

    - o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

    - o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

    - o This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

    - o This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

    - o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

    - o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**

    - o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
