School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

School Vision and Mission

Motto:

Roadrunners R.A.C.E for Success

Our students are learning how to be RESPONSIBLE, ACHIEVE, show CHARACTER, and how to be EMPATHETIC.

Mission Statement:

“Glen Avon Elementary School has no limits to the academic success of each child” is the mission statement by which every member of our learning community operates. Our goal is to ensure that every child succeeds at the highest level. At Glen Avon Elementary, we educate the whole child offering rigorous academics alongside multiple opportunities to develop the social-emotional skills necessary to succeed in today’s world.

Vision Statement:

We believe in a growth mindset working with students to internalize the relationship between hard work and progress. The team at Glen Avon is committed to providing each child a superior education by ensuring engaging instruction in a safe environment.

School Profile

Describe The students and community and how school serves them.

The Story

Glen Avon Elementary School is one of seventeen elementary schools in the Jurupa Unified School District. The current school building was constructed and opened in 1951. It is located in an unincorporated urban fringe area of the city of Riverside in Riverside County. Glen Avon's modernization project was completed in 2021 with a new front office, refurbished classrooms in rooms 2-30, and a library/makerspace. The library/makerspace is an area where students may explore hands-on activities. The playground and outside landscaping were updated as well.

Glen Avon is an AVID Advancement Via Individual Determination Elementary school and majority of our teachers are trained in AVID strategies throughout grades TK-6. As new teachers join the school we provide AVID training opportunities for them. Our school has twenty full-time teachers along with 21 classified staff positions serve Glen Avon's students during the regular school day. Two Literacy Support Teachers (LST) provide supplemental services to students and teachers. A principal with the services of a secretary, one full-time clerk, one full-time translator clerk typist and two full-time custodians administer the school. Two Resource Specialists (RSP), one Teacher on Special Assignment, a part-time nurse, one part-time speech therapist and a part-time School Psychologist provide Special Education services. Three part-time bilingual tutors and four special education aides assist students. There is one part-time health care aide who provides medical and clerical support to students and school nurse. The Glen Avon staff provides every child with a rewarding and enriching educational experience. At Glen Avon our dedicated staff implements a Common Core State standards-based curriculum along with the very best educational teaching methods in reading, writing and mathematics in order to provide all of our children with an exemplary education. Glen Avon students, staff, parents, and community are working together to shape young minds and create lifelong learners. Glen Avon teachers are trained in accessing JUSD's data system, Illuminate, to generate reports of their students' assessment results to collaborate and plan rigorous classroom instruction. The District also offers Alludo which is in online platform where staff members may participate in courses of interest to each person.

In an effort to provide a safe school environment at Glen Avon, seven activity supervisors assist with student supervision and safety before school, during the school day and after school. Teachers at Glen Avon provide instruction of the Common Core State Standards (CCSS) in math using district adopted curriculum McGraw Hill My Math in grades K-6. Glen Avon teachers continue to enrich their knowledge of standards based curriculum with grade level specific staff development in Balance Math and Math F.U.N. provided by Riverside County Office of Education (RCOE). Glen Avon teachers provide instruction in CCSS to students in grades K – 6 using the adopted ELA/ELD Language Arts curriculum McGraw Hill Wonders. Teachers access online resources to compliment all

curriculum. Glen Avon is continuing its technology upgrade by expanding student access to technology via JUSD's Digital Gateway Initiative, an initiative designed to provide students the opportunity to enhance their learning through the use of 1:1 device technology. Chromebooks are the property of the district. Similar to other district property, chrome books will be checked out to students in grades Kindergarten to 6th. Students will take the devices home to be used to conduct research and class assignments. Teachers will use devices in classrooms to compliment instruction and expose students to interactive discussions using Powerschool Learning and Google Classroom. Kindergarten and First Grade students Chromebooks are kept in their classrooms.

Students in grades Kindergarten-Sixth grades that require more intensive support in acquiring essential reading skills than traditional strategic intervention provides, receive Guided Reading 4 days per week. The two LSTs provide instruction that is more explicit, systematic, and specifically designed to meet the individual needs of these students that perform two or more years below grade level by "closing the gap" in their reading performance with Guided Reading Groups. One LST focus is on primary students that provides intensive intervention to first and second grade students struggling with ELA in the afternoons.

An elementary media center clerk works full-time to check out books to students and teachers, inventory and track all library resources, and process the purchase of books and/or other instructional materials requested by teachers, and provide bi-weekly lessons while exploring the Makerspace. The library houses 7,000 books and reference materials, with a growing satellite K-4 collection of 2,000 books housed in classrooms for teacher use. Parents of Glen Avon students are also invited to use the school library to conduct on-line searches of community resources, as well as educational resources for their family.

SPSA Highlights

Identify and briefly summarize the key features of this year's SPSA.

The following are the key features of this school year's SPSA:

1. BSEL/PBIS will continue to be a focus with support from RCOE to fully implement Tier 1 systems. Assemblies, lessons, and skill building will be utilized to support our school wide expectations and increase positive behaviors. We will also use Second Step to further support our students' SEL.
2. Intervention/Enrichment will continue to be offered to students before, during, and after school.
3. Inclusive practices will continue to be explored and implemented through the collaboration and planning of special education staff and grade level teachers. Additional resources and professional development will be used to support inclusion.
4. AVID strategies will be explored by attending the Summer Institute as well as providing site based professional development to deepen our understanding of AVID and implement strategies more effectively.
5. Delivering targeted differentiated instruction in ELD, mathematics, and literacy.
6. Continued collaboration among staff.
7. Parent workshops, resources, and materials relating to our schools goals: literacy, SEL, and Math.
8. Offer opportunities to involve students as leaders and give them opportunities to gain a voice.

Review of Performance – Comprehensive Needs Assessment

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward SPSA goals, local self-assessment tools, stakeholder input, or other information, what progress is the school most proud of and how does the school plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

Glen Avon demonstrated great progress in:

Suspension Rate Indicator - The suspension rate was 0% for all groups. This was lower than the suspension rate for the district, county, and state.

For the 2021-2022 school year, Glen Avon used NWEA to monitor student progress and used the data to make informative decisions to support all students in ELA and math.

Our students are stronger in ELA overall but our math growth is higher than our ELA growth. Our 1st and 3rd grade students made a 10 points or higher growth from Fall to Spring in ELA. Kinder, 1st, 2nd, and 4th grade students made a 10 points or higher growth from Fall to Spring in Math. Also, 3rd and 6th grade students scored 50% or more in average to high average in ELA. Kinder, 3rd, 4th, and 6th grade students scored 40% or higher in average to high average in Math.

As a site, we will continue to focus on providing rigorous instruction, intervention, and SEL as well as offering ELO sessions to increase our growth in literacy and mathematics. Providing staff to address our students performing below grade level standards, and ELLs will have a positive impact of our academic achievement. We will continue to analyze data and align instructions to have the greatest impact for our students. Coaching and PD in the areas of AVID, SEL/PBIS, CCSS, and NGSS will strengthen our academic supports and student engagement. Support will continue during Guided Reading for all grade levels to address students who have significant achievement gaps in reading foundations.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the school received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the school has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the school planning to take to address these areas with the greatest need for improvement?

Greatest Needs

Based on the 2019 SBAC Dashboard and Calpads data, Glen Avon:

Mathematics: was able to maintain at the "Orange" level but are 30.9 points below the standard. Our students who are showing the least amount of progress are our students with disabilities who are Yellow and 84.6 points below the standard in mathematics. They are "Orange" in English Language Arts with 75.3 points below the standard Attendance: there was an increase of 4.2 to 10.9%.

Suspension: there was an increase of 1.4% of suspensions.

Current data indicates a continued effort to increase our EL reclassification rates as only 5.95% were reclassified. NWEA data, also shows a lower rate of growth for ELL students compared to our English only students. Due to COVID-19, our site was not fully staffed with BLTs to support our ELL students. Therefore, it is essential to provide additional support for ELL students across all grade levels to help close the achievement gap.

Students with Disabilities (SWD) is another area of need. Inclusive practices will need to be strengthened to provide the best support of our students.

Although, we made growth in both ELA and Math according to NWEA data, our growth is still behind the national RTI norms. It is vital to continue to support our students with interventions during the day to support academic growth for all students. There are continued needs for 2 LST, a Math Support Teacher (MST), 3 BLTs, and additional support to provide small group instruction to help close the achievement gap. NWEA data indicates that 4th - 6th grade students made the smallest growth from Fall to Spring in ELA. While, 5th and 6th grade students made the smallest growth in Math.

Chronic Absenteeism continue to grow especially with COVID-19 policies about exposure and who needed to be quarantined. Our current data shows that our average attendance rate is 92.30%. Continued effort in addressing our low attendance rates by utilizing our staff to hold empathy interviews, conduct home visits, and outreach to parents about attendance is a high priority for Glen Avon as well as providing attendance information and resources to families.

We strive to continue to improve our school wide expectations to create a positive culture which will improve attendance, academics, and decrease our behaviors. There is a need to address our SEL by using the Second Step program and provide peer mediators on campus during recess and lunch for grades 4th - 6th.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the school planning to take to address these performance gaps?

Performance Gaps

According to the 2019 SBAC Dashboard:

Student groups two levels below- We need to continue to review educational strategies to support our our students who have disabilities who are in Yellow for math and orange for English Language Arts.

Glen Avon did not make 3% growth overall but only made a 1 point growth.

CAASPP 2018-19 Actual - ELA % Standard Met/Exceeded: Actual - 45.28.

CAASPP ELA Actual Progress, Fall 2019 - School: -14.1 points below standard; increased + 1.0 and maintained orange. SWD had our largest growth - 75.3 points below standard; +24.6 increased significantly orange.

CAASPP Math Actual Progress, Fall 2019 - School: -30.0 points below standard; +0.4 and maintained orange. SWD -84.6% points below standard; +54.* increased significantly to yellow.

2 LSTs will continue to provide intervention to students who are in need to support and intervention. A Math Support Teacher will be added this year to provide support in mathematics. Both MST and LSTs will provide support and resources to all educational stakeholders as needed.

Attendance, SEL, school culture, and parent involvement will be supported by continuously providing school wide events, meetings, assemblies, spirit weeks, and incentives throughout the year.

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Comprehensive Support and Improvement

Briefly describe the school’s plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

The purpose of the School Plan for Student Achievement (SPSA) is to increase the academic achievement of ALL students, monitor progress and reclassify English Learner students, improve school climate, and broaden opportunities for parent and family engagement. As a Title I Schoolwide program, we do a Comprehensive Needs Assessment annually, develop our SPSA with educational partner involvement, include strategies that support state standards and address the needs of all children but particularly those at risk of not meeting these standards with activities, strategies, and interventions that are evidence-based and outlined as part of our SPSA. Our SPSA implementation is monitored and evaluated through ongoing Leadership team, SSC/ELAC, SBCP meetings, principal meetings, and annual Budget/Program meetings. The SPSA is revised to ensure continuous improvement based on data analysis of student learning needs as part of the school's ongoing practices and identification of support strategies. All Title I funding supplements and does not supplant services that

students would otherwise receive if not participating in a Title I program. Relative to LCAP alignment, our plan is directly coordinated with district LCAP goals, associated services, and planning requirements.

The state indicators that we will focus on for Comprehensive Support and Improvement are for All Students in Chronic Absenteeism, Suspension Rate, English Language Arts and Mathematics indicators. Using the 2019 Dashboard data, a root cause analysis was specifically on identifying evidence-based strategies to support Chronic Absenteeism and Suspension Rate that were primarily in the Red and Orange performance levels with our English Learners and Hispanic student groups performing low or very low. Our English Learners are progressing at a medium rate of 51.5% making progress towards English language proficiency, with state progress at 48.3%. Chronic Absenteeism will be our greatest focus with 10.9% chronically absent based on an increase of 4.2% with our greatest increases in Hispanic, Socioeconomically Disadvantaged and Student with Disabilities student groups of 4.3%, 4.6%, 11.1%, relatively. Our focus will continue to be improvement in Attendance and lowering the number of suspensions. During the 2020-21 school year 0 students were suspended.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

SPSA analysis is conducted in conjunction with a needs assessment secured from staff (Grade levels, Leadership team, CSI team, BSEL committee) and parent groups (School Site Council and English Learner Advisory Committee). Parent groups meet monthly/bimonthly and are involved in the planning, development, revision, and approval process for the current SPSA. School data is shared with staff and families with recommendations being secured. SPSA development is a collaborative process with ELAC, staff, and other educational partners recommendations being shared with and approval by SSC.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Due to increase of PERS and STRS more of our funding has been used to cover those expenses. If more funding is available, we would like to be able to provide additional academic supports, collaboration days for grade levels for planning and Data analysis. We would also like to be offer Extended Learning Opportunities for struggling students. Digital learning and family outreach will be a focus to decrease absenteeism and suspensions that will also help to improve our academic gaps.

School and Student Performance Data

Student Enrollment Enrollment By Student Group

Student Enrollment Enrollment By Grade Level

Student Enrollment by Grade Level			
Grade	Number of Students		
	18-19	19-20	20-21

Grade 4	65	71	83
Grade 5	77	65	69
Grade 6	91	82	61
Total Enrollment	541	518	497

Conclusions based on this data:

1. We have seen a trend of declining enrollment over the past 3 years.
2. Our Hispanic student group continues to be our largest percentage.
3. There has been an increase in in our 4th grade over the past 3 years.

- Our students were Below the Standard of Reading (32.67%) As compared to (33.43%) of our students from the previous year. (23%) Our students were Below the Standard in Writing the previous year and (27.96%) were below the standard of Writing in 2017-2018) (21.33%) of students were below the standard in Listening during 17-18. (23.10) were below the Standard for Research/Inquiry during 2017-2018. During the 2017-2018, (22.80%) were below the standard for Research/Inquiry and during the 18-19 were 24.67. Overall for English Language Arts, we had growth in each subsection, except Research/Inquiry.
- Overall, the mean scale score remain about the same over a 3-year period.

Conclusions based on this data:

1. Students have shown positive growth from 2017-18 to 2018-19. Overall we have less % of students who are below the standard in Math. 2017-2018 had 32.33 % below the standard. 2018-2019 had a decrease to 31.80 below the standard. For Concepts & Procedures-also a decrease of students Below the standard from 44.41 to 42.95. Problem Solving & Modeling/Data Analysis had an increase of Below the standard from 36.86 to 39.67. Communicating Reasoning had a decrease in Below the standard from 35.95 to 29.51.
2. Our strongest area was Concepts & Procedures in 2018-2019 with 3rd grade scoring 40.30.
3. Although 3rd grade had a decrease from 2016-2017 to 2018-2019, they still had the highest percentages in overall achievement for Met and Exceeded the standard.

2019-20 Data:

Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year, thus no data is available to report for this year.

Conclusions based on this data:

1. Our students taking the ELPAC has decreased each year. Our highest concentration of English Learners are in grades K- 3.
2. Overall, most of our students are at Level 2 - 45.95% and Level 3 -30,81% while Level 4 is our lowest level with 5.95%
3. Speaking Domain was our strongest area with 20% for all grades and 62.70% in Somewhat/Moderately.

Although both Senate Bill 98 and Assembly Bill 130 suspended the publication of state indicators on the 2020 and 2021 California School Dashboards, these bills also required the reporting of valid and reliable data that would have been included in these Dashboards.

To meet this requirement, CDE has made available the Enrollment, Graduation Rate Additional Report and the College/Career Measures Report data available. All other reports are not available for 2020 and 2021.

This section provides information about the school's student population.

2020-21 Student Population

497	82.7	37.0	1.0

This is the total number of students enrolled.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

Conclusions based on this data:

1. We had an increase in chronic absenteeism by 4.2%. We are in the RED with 10.9%. Attendance is an area of grave concern for Glen Avon. We will continue to hold attendance informational meetings, SART meetings, and use social media to convey to families the importance of attending school daily.
2. We had an increase to 20.35% of Chronic Absenteeism during the 2020-21 academic year.
3. Socioeconomically Disadvantaged, Students with Disabilities, and Hispanic students have the highest rate of Chronic Absenteeism. It is important to focus efforts to address these subgroups.

2021 NWEA ELA Data:

Kinder - 38% students scored average to high average:	Fall - 134.5	Winter - 138.6	Spring - 143.8
1st Grade - 26% students scored average to high average:	Fall - 147.3	Winter - 155.2	Spring - 158.9
2nd Grade - 39% students scored average to high average:	Fall - 160.9	Winter - 170.2	Spring - 174.1

6th Grade - 54% students scored average to high average:	Fall - 204.5	Winter - 206.5	Spring - 209.2

2021 NWEA Math Data:

Kinder - 41% students scored average to high average:	Fall - 137.0	Winter - 142.9	Spring - 148.2
1st Grade - 31% students scored average to high average:	Fall - 153.9	Winter - 159.4	Spring - 163.9

5th Grade - 25% students scored average to high average:	Fall - 192.7	Winter - 198.8	Spring - 201.5
6th Grade - 46% students scored average to high average:	Fall - 206.0	Winter - 211.6	Spring - 215.6

The analysis shows that we continue to struggle in both ELA and Math as we only two grade levels scored in the 50th percentile in ELA. We need to continue to refine our efforts in ELA through Guided Reading and Intervention. We need to continue to provide the first best teaching practices for all student in both ELA and mathematics. We also need to continue to provide reading and math intervention to all students performing below grade level. A Primary Literacy Support Teacher teacher and our English Language Facilitator (ELF) will continue to support Bilingual Language Tutors(BLTs) through the Guided Reading process and refine the support of Foundation Reading skills. The primary LST will also support teachers with Reading Running records and modeling lessons for Guided Reading. The intermediate grade LST will continue to provide support for teachers and students in grade 4-6 in Language Arts, including Guided Reading. A Math Support Teacher (MST) will be added to support mathematics. Designated and Integrated ELD will continue to be provided at all English Learners. The

data also, supports additional resources (materials and staff) to support intervention as our Kinder, 1st, 2nd, 4th, and 5th grade students did not score in the 50th percentile. For math, no grade level scored in the 50th percentile.

Due to the data, more resources, PD, collaboration, trainings need to be put in place to support the academic and SEL growth off all students in order to close the achievement gap. Teachers needs time for standards based instructional planning, co-teaching opportunities, sharing of resources and goal setting based on data analyzes.

We will continue with refining AVID strategies and implementation by providing untrained staff to AVID Path and/or Summer Institute trainings. Previously trained staff may also be provided a review of WICOR strategies and AVID Path trainings. Grades 3-6 will continue to conduct AVID assessments to analyze progress towards AVID site team goals.

We will continue to be an Inclusion School next and will support our Special Education students with two Resource Specialist Teachers and Instructional Aides.

Our SST Team will continue to meet to form plans of intervention strategies for struggling students. Our students who are struggling emotionally will be supported by a district provided Behavior Health Associate/Therapist, our school wide practice of PBIS and by using our SEL program Second Step.

Goals, Strategies, & Proposed Expenditures

Goal 2.0

Safe, Orderly and Inviting Learning Environment

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 1: Basic (Conditions of Learning)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

Local Priorities: P1

Identified Need from the Annual Evaluation and Needs Assessment:

Chronic Absenteeism Rate for 2020-2021:

EL - 20%

SWD - 18.3%

SED - 22.8%

2021 - 2022 Attendance Rate through December 2021

TK - 91.04%

K - 91.52%

1st - 91.76%

2nd - 94.09%

3rd - 91.83%

4th - 92.04%

5th - 92.38%

6th - 93.78%

As part of our continued efforts to improve the culture and environment of our school, we will continue to implement and expand our PBIS and use our Second Step program to address SEL. In addition, we will use a MTSS approach to address all students and make them feel comfortable in their learning environment. Our data supports providing school wide incentives, activities, events, trainings, and resources for all educational partners.

To address our chronic absenteeism rates, we will continue to hold empathy interviews with students, provide attendance information to families, and use staff to connection with families who are absent or tardy on a regular basis. Re-engagement strategies will be implemented schoolwide to ensure that students feel safe and want to come to school.

There is a need for students to have more diverse activities available during their recess and lunch breaks to decrease behaviors and increase a sense of belonging.

Goal 3.0

Parent, Student and Community Engagement

State and/or Local Priorities addressed by this goal:

State Priorities: Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

Local Priorities: P3 and P6

Identified Need from the Annual Evaluation and Needs Assessment:

Providing a welcoming environment is key at Glen Avon. We will continue to use various forms of communication tools including social media to communicate with parents in English and Spanish. As COVID-19 restrictions are being lifted, more emphasis will be put back on welcoming families back on campus by offering various family events, trainings, and/or meetings. Moving forward, in-person and virtual meetings will continue to be an option for parents as well as providing staff to translate for families.

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Over all, action steps were implemented and planned despite COVID-19 restrictions and limited staff.

Focusing on reviewing, discussing and analyzing student data in order to guide instruction and supports was a focus this school year with the new adoption of NWEA. Our grade level collaboration and professional development also focused on NWEA. However, due to staff shortages, we were unable to provide teacher release time. After each NWEA testing period, we conducted gallery walks. During these walks, we identified our students: ELs, Foster/Homeless, Think Together, and SpEd in order to meet them where they are. We also identified strengths and areas for growth during our data talks. Next steps were developed in grade level meetings and monitored until the next testing window. The NWEA data was also used to help identify students for our ELO sessions. Although staff did not receive release time, all staff was extended the opportunity for professional development through Alludo. These data talks are vital to our site and need to be full day and not just on minimum day. The data talks will help our site enhance instruction and increase student achievement.

Resident substitutes were available to provide coverage to our teaching staff but were not able to work directly with students due to staffing shortages. Therefore, more support continues to be needed.

We continued our intervention supports to all students who are not performing at grade level and our LSTs provided Guided Reading throughout the campus. Due to inconsistent staffing issues our Instructional Aides and BLTs provided very limited support to our students. As we continue as an inclusion school, our Special Education Team collaborative work and professional development is vital to our continued support of students with special education services and other students not making steady growth.

AVID continues to be an integral part of our school day. AVID materials were provided by the district office. Glen Avon focused on implementing AVID strategies daily across all curriculum as well as define what AVID strong looks like on our campus. The AVID Leadership Team and administrator received coaching from our RIMS AVID Coordinator throughout this school year. This summer a team of staff will attend AVID's Summer Institute.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Our strategies and activities continue to support the growth of all students. Students have shown positive growth between Fall and Winter NWEA assessments although it is below NWEA Median RIT scores.

Our data indicates that more math support is needed for grades 1st and 2nd as their math growth was significantly lower than their ELA growth. Overall, our math growth is higher as a site than our ELA growth. 5th and 6th graders made the lowest growth in ELA which shows more support and interventions are needed to those grade levels. 3rd grade students made the most growth in both ELA and Math.

Based on this data, we need to look at more researched based interventions for both ELA and Math as well as provided more supports to 5th grade and 6th in ELA. Also, providing more math support to next years 2nd and 3rd graders.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were significant differences in proposed expenditures and actual expenditures due to a lack of staffing available for teacher and staff to participate in professional development opportunities. We were also able to incorporate ESSER Funds to cover funding that would have typically come from the school site.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

As a result of returning to in-person learning, we purchased a new SEL program therefore site staff will need professional development on the Second Step program, best SEL and PBIS practices. As well as instructional PD to enhance our AVID implementation and culturally responsive teaching strategies. Continued release time for collaboration and data discussions.

Based on our data, we need more support for our EL students, GATE students, and our interventions/SST supports and materials need to be researched based. We need to continue to refine our ELA, ELD, and math instructional best practices and first instruction. We will need to increase our BLTs to support our EL students as their support was limited due to staffing issues this school year.

The intervention section will also be updated to include a Math Support Teacher and more supports, supplies, and materials for Special Education. Our intervention process will need to be evaluated to provide the necessary supports to all students performing below grade level and having behavior concerns. Professional development is needed in the areas of RTI and SST.

P6 Pupil Suspension rate	To reduce the number of suspensions during the academic year 2021-22.	There were no suspensions during the academic year 2020-2021.
P6 Surveys of pupils, parents, teachers on sense of safety	To increase the percentage of how safe parents, students, and staff feel while on campus.	LCAP Student Survey, Spring 2022: "How often do you worry about violence at your school?" 66% responded "Almost Never" or "Once in a while." LCAP Teacher Survey, Spring 2022: "For students who need extra support, how difficult is it for them to get the support that they need?" 32% responded "Not at all difficult" or "Slightly difficult."

Metric/Indicator	Expected Outcomes	Actual Outcomes
		LCAP Parent/Family Survey, Spring 2022: "How well do you feel like this school or district is currently doing in the following area: Diversity and inclusion of all students?" 48% responded "Quite Well" or "Extremely Well"
P6 Surveys of pupils, parents, teachers on sense of safety	To decrease the % of how who were cyberbullied this year. We also want students to feel happier and safe while on campus. This will be challenging because students do have concerns about feeling safe due to COVID, so it will be difficult to measure. From the 2020 Healthy Kids Survey, there were not enough students to show an accurate percentage of students feelings of safety to report data.	This specific data is not available as Healthy Kids survey was not administer this school year since the district transitioned to Panorama Education.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

From the beginning of the school year our focus has been on our students' social emotional learning and well being. We revamped our school wide expectation and implemented a new acronym: "Roadrunners R.A.C.E for Success."

R - Responsibility
A - Achievement
C - Character
E - Empathy

Our BSEL team took the lead and drafted a matrix for our high behavioral locations based on referrals. That matrix was then introduced to our CSI team then to our grade levels. Once school wide expectations were established we worked to create a expectation handbook. That handbook was introduced to all staff including resident subs. Our referral forms were changed as well to reflect items in Q so that we can better monitor our site behaviors. Activity Supervisors receive monthly training at the site by the administrator.

The school wide expectations were introduced to all students during expectation assemblies at the designated locations by administration and supported in the classroom by the teacher. Students are able to receive RACE tickets when demonstrating RACE behaviors. Those tickets are entered into a weekly and monthly drawing. The drawings are often held on Friday mornings after the warning bell.

Staffing issues and concerns was a huge issue at the beginning of the year. We were down three Activity Supervisors (AS) and didn't have consistency among our substitutes which caused a spike in behaviors. Now that we are fully staffed with AS, our behaviors are improving. Along with staffing of our AS, we received additional funds to our Health Care Aide, as well as receiving a Behavioral Health Associate (BHA) that serviced our site 3 days a week. These hours and positions have increased our ability to provide a safe learning environment and reduce our suspensions and expulsions.

To further our SEL support to all students, we purchased Second Step. Our next step is to provide PD on using the program. We also received a PD on Student Trauma by Pupil Services Department.

Attendance was monitored throughout the year but we understand that families were impacted by COVID-19 protocols.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Our attendance rates was significantly impacted due to COVID-19 related issues. Our chronic absenteeism rate for the 20-21 school year was 20.5%.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

We designated monies to help pay for a BHA but was covered by district funds. Funds that were able to be reallocated due to the availability of ESSER Funds were moved to the designated expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Students continue to need supports with returning to campus and the impact of COVID-19. Based on our LCAP survey, there's a need to have a BHA on our campus for entire week and training for staff as only 32% of the students responded favorable to being able to get the supports they need. The staff will continue to need support on using the Second Step program and other strategies in order to support all students with SEL.

We continue to need physical fitness equipment to help with student engagement, physical well-being, and to decrease our outside behaviors by having enough activities in place so students are not just idle during recesses.

To continue to support our students, a calming room will be beneficial to all students who need an area so that they can self regulate in an area that supports a calm atmosphere.

An outreach worker will help provide a contact for our parents to assist with our chronic absenteeism and help improve our overall attendance rates. We will need to revise our attendance and behavior incentives to continue to support students who struggle with returning back to in-person learning and display behavioral issues. We look forward to bringing back our student council and having students trained as peer mediators to serve as student leaders and add to our safe school environment.

Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Due to COVID19 restrictions we were not able to have parents on campus to have in-person workshops and trainings. Students continued to use their AVID materials (agendas and folders) for school to home communication and virtual teacher conferences were held in October. Translators and childcare were available for parent meetings, when needed. Parent communications were provided through Q, Parent Square, ClassDojo, flyers, phone calls, and social media in both English and Spanish. Once restrictions were lifted, meetings such IEPs, SSTs, SSC, and ELAC are offered as in-person and virtual.

This school year we offered six Spirit Weeks to encourage attendance, student/family engagement, and a sense of belonging. The Spirits Weeks were: College and Career Week, Red Ribbon Week, 5 Days Before Winter Break, Super Bowl Spirit Week, Read Across America Week, and a CAASPP Spirit Week.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Due to COVID restrictions, many of our in-person actions, activities and strategies were limited, however, we were able to meet the quorum for both our ELAC and SSC.

As these restrictions go away, we will work as a team to put these actions items back in place.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There was a significant decrease in our spending related to parent outreach and families activities due to restrictions of not being able to have visitors on campus.

Classified hourly was utilized for the most part to connect with families and find out what services or resources they need to eliminate barriers that might be keeping their student from attending school. Classified staff also assisted parents in completing applications or forms that needed to be completed for technology items. Parents were also provided assistance in completing PICO referrals for support for their student or for the whole family.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

As we welcome families back on campus, we will continue to work hard to engage our families and students. We will plan to provide family activities and inservices again.

Budget Summary and Consolidation

The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Felicia Noel	Principal
Ronald Allbee	Classroom Teacher
Heather Broda	Classroom Teacher
Alanna Mitchell	Classroom Teacher
Daniela Hernandez	Other School Staff
Roxanne Romero	Parent or Community Member
Vanessa Collins	Parent or Community Member
Jessica Miner	Parent or Community Member
Jessica Diaz	Parent or Community Member
Lizeth Ibarra	Parent or Community Member
Karen Gurrola (Alternate)	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature	Committee or Advisory Group Name
	English Learner Advisory Committee
	Special Education Advisory Committee
	Gifted and Talented Education Program Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 05/16/2022.

Attested:

	Principal, Felicia Noel on 5/16/2022
	SSC Chairperson, Ronald Allbee on 5/16/2022

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the Annual Evaluation and Update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Evaluation and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Appendix A: Plan Requirements for Schools Funded Through the ConApp

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Evaluation and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
 - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
 - b. use effective methods and instructional strategies based on scientifically based research that
 - i. strengthen the core academic program in the school;
 - ii. provide an enriched and accelerated curriculum;
 - iii. increase the amount and quality of learning time;
 - iv. include strategies for meeting the educational needs of historically underserved populations;
 - v. help provide an enriched and accelerated curriculum; and
 - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
 - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Evaluation and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
 - a. strategies to attract highly qualified teachers;
 - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
 - c. the devotion of sufficient resources to effectively carry out professional development activities; and
 - d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - a. Ensure that those students' difficulties are identified on a timely basis; and
 - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
