## School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

Welcome to Pacific Avenue Academy of Music School Plan. We, at Pacific Avenue Academy of Music strive to offer the BEST education possible for our students while providing students opportunities to receive daily music instruction. Our academic program is rigorous and we challenge our students to do their best in school and in life. Through the efforts of staff, parents, and students we are dedicated to providing a supportive and engaging learning environment that promotes intellectual, musical, social, and personal growth for all children because they are our future.

Vision Our school is a place where...

Learning without Limits...Pacific Avenue Academy of Music students are prepared to be active, positive, learned members of our democratic society. We show respect to everyone and encompass a school culture where learning is exciting and challenging.

Mission Statement:

All Pacific Avenue students will have the skill set to be positive leaders, social pragmatists, native technologists, and global thinkers by mastering the California Common Core State Standards through high quality, scientific outcome-based instruction; demonstrate civil and social skills as supported through PBIS and Boys Town strategies; engage in music based performance; and exhibit self-motivated healthy choices. Pacific Avenue students will have the opportunities to engage in rigorous academic teaching as well as benefit from a rich culture of musical appreciation.

## School Profile

Describe The students and community and how school serves them.

### The Story

Pacific Avenue Academy of Music is a nationally recognized school as a NAMM Best Communities for Music, the recipient of the California Golden Bell Award and earned the CORE High Impact Award for academic achievement.

Beginning in 2016-2017 school year, Pacific Avenue became the Pacific Avenue Academy of Music. The Academy is a music magnet elementary school for the Jurupa Valley Unified School District. Students participate in performance-based instruction and integrated instruction throughout the curriculum. Two full time and one half-time music teachers reside at Pacific Avenue giving instrumental and vocal instruction to all students. Classroom teachers infuse music into the curriculum. Beginning in 2018-2019, PAAM became a TK-7 school. Beginning in 2019-2020, Pacific Avenue Academy of Music returned to a TK-6 school.

Music is a universal language that touches the human heart and mind. It affects our feelings, emotions, and energy. In addition, music influences the human brain. Research tells us that music can create an alpha state for learning, improve concentration, improve memorization, enhance imagination, and release anxiety. Classical music and music performance can help the brain develop dendrites and synapses accessing parts of the brain that can only be accessed through music. The building of these extended neurological pathways can help students develop deeper mathematical and language arts skills. Music, whether through performance and/or appreciation, can enrich, enhance, and elevate the educational experiences for all students at Pacific Avenue Academy of Music.

Pacific Avenue Academy of Music is located in one of several communities in the City of Jurupa Valley served by the Jurupa Unified School District, a district of less than 20,000 students. Ethnic distribution is 83% Hispanic, 7% African American, 9% White (not Hispanic), and 1% other. Pacific Avenue is currently serving approximately 320 transitional kindergartens through sixth grade regular education students, 17 SDC TK-1 students, 17 SDC 2-3 students, 30 SDC Preschool students, 34 Head Start children and 13 DHH students. According to CBEDS and STAR Demographic data, 84% of Pacific Avenue students receive free or

reduced lunch, 47% of students are English learners, and the average parent education level is 1.97, where 1 is equal to "not a high school graduate" and 5 is equal to graduate school experience.

Pacific Avenue's school environment is rooted in high expectations for all students. When challenges arise, staff members help students and parents with academic, social, emotional, and other school and family issues. Parents are encouraged, as are students, to use the drop-box in the office, the phone hotline, or a designated email address to report any concerns on campus if they wish to remain anonymous. PBIS, Positive Behavior Intervention Support Program, has been instituted. The program focuses in on three rules: 1) Be safe, 2) Be respectful, and 3) Be responsible. There are sixteen behavior standards that support appropriate conduct: 1) accepting criticism or a consequences, 2) accepting "no" for an answer, 3) asking for help, 4) asking for permission, 5) disagreeing appropriately, 6) following instructions, 7) getting the attention of the teacher, 8) giving criticism, 9) listening, 10) making an apology, 11) minding your own business, 12) resisting peer pressure, 13) staying on task, 14) using appropriate voice tone, 15) waiting your turn, and 16) working with others. Social skills are systematically taught to give every student tools to be successful in academic and social settings. Teachers introduce skills at scheduled times. Teachers model each skill and students have opportunities to practice said skills. Site staff consistently enforces the skills and re-teaches when necessary.

All students on the Pacific Avenue campus have access to the core curriculum, including RSP, SDC, Speech, GATE, DHH, and EL students. The curriculum is guided by the Common Core State Standards. These Standards are 1) researched and evidence base;, 2) aligned with college and work expectations; 3) rigorous, and 4) internationally benchmarked. Differentiated instruction is provided through a variety of teaching strategies and learning patterns including, but not limited to, Marzano's Effective Strategies; focused instruction based upon Bloom's Taxonomy and Depth of Knowledge; small group and large group experiences; homogeneous and heterogeneous settings; academic task completion with various production methods; and opportunities that encourage the development of self-directed, in-depth inquiry. Instruction is focused on the five domains of learning: listening, speaking, reading, writing, and thinking.

Three basic goals based upon perceived needs shape the School Plan: 1) All students will be college and career ready. 2) All students will have a safe, orderly, and inviting learning environment. 3) All students will benefit from the district engaging and sustaining the trust and involvement of parents and community in the educational process. Pacific Avenue's staff collaborates with parents examining program effectiveness, school safety, and learning opportunities to provide a supportive, exemplary learning environment for all students. An active three way partnership among teachers, parents, and students is the cornerstone to Pacific Avenue's determination that all students succeed.

## SPSA Highlights

Identify and briefly summarize the key features of this year's SPSA.

The 2020-2021 school year was a year for Pacific Avenue Academy of Music to continue with it's previous accomplishments and to look ahead with new goals and accomplishments.

### SPSA Highlights for the 3 Goals

#### College and Career Readiness

- \* Continue participation in AVID
- \* Continue increase in ELA scores through district based assessments such as NWEA and Reading A to Z
- \* Continue increase in math through supports like IXL

- \* Continue use of Whole Body Listening
- \* Continue support of student through researched-based professional development
- \* Continue use of Professional Learning Communities focused on data
- \* Continue use of technology to enrich learning experiences
- \* Continue support for EL students
- \* Continue class-size reduction for grades TK-3
- \* Continue increasing student attendance
- \* Continue outstanding music program
- \* Continue providing good communications between school and home

#### Safe, Orderly, and Inviting Learning Environments

- \* Continue increasing the social and pragmatic skills of all students
- \* Continue providing a campus environment rich in music
- \* Continue providing classroom environments rich in learning
- \* Continue providing good communications between school and home
- \* Continue using Superflex to develop better social skills in students

#### Parent, Student, and Community Engagement

- \* Continue providing a rich music environment that involves the entire community
- \* Continue multiple ways of communicating with parents: DoJo, Q Communication, Peachjar, Website, Twitter, Facebook
- \* Continue to provide monthly family activities

## Review of Performance – Comprehensive Needs Assessment

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward SPSA goals, local self-assessment tools, stakeholder input, or other information, what progress is the school most proud of and how does the school plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

### Greatest Progress

PAAM has made progress in supporting students in the area of Social Emotional Learning. Teachers have included Morning Meetings to monitor student SEL support. Office staff have provided extended support in connecting families and students with available resources to support student social emotional learning and COVID needs.

Pacific Avenue Academy has made steady progress in the area of math with the new support of our Math Intervention teacher. The 2020 and 2021 California Dashboard data has not been reported to provide information on math and ELA progress however, PAAM has utilized NWEA data and teacher assessment data. PAAM will continue to focus on the academic area of math and work to provide students and parents more support with math instruction and implement mathematic on-line resources. More specifically, teachers and staff have worked together to support students and their families navigate through distance learning to support student learning.

Also, our last CA Dashboard data showed a 1% decline in chronic absenteeism.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the school received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the school has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the school planning to take to address these areas with the greatest need for improvement?

## Greatest Needs

Language Arts proficiency numbers declined according to the California Dashboard. The need to focus on this area remains, as the overall proficiency levels indicate that less than 35% of our students have not met the standard for ELA on the CAASPP. Due to COVID we did not take any state assessments for 19-20 bt for 20-21 we completed various assessments as listed in our school plan. We are offering summer school called LEAP -Learning Engages All Possibilities to support students in the areas of SEL and support students in returning back to school for in-person instruction.

PAAM, also needs support in the area of mental health programs and better parent involvement with academics.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the school planning to take to address these performance gaps?

## Performance Gaps

Due to COVID and distance learning all aspects of the California Dashboard will be addressed by the site next school year. Intervention supports will be implemented for the continued improvement in increasing performance in ELA and Math for all learners.

## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school’s plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

The Every Student Succeeds Act was signed into law on December 10, 2015, by President Obama.

ESSA includes provisions that will help to ensure success for students and schools:

- Advances equity for America’s disadvantaged and high-need students,
- Requires all students in America be taught to high academic standards that will prepare them to succeed in college and careers.
- Ensures that vital information is provided to educators, families, students, and communities through annual statewide assessments that measure students’ progress toward those high standards.
- Helps to support and grow local innovations—including evidence-based and place-based interventions developed by local leaders and educators—consistent with our Investing in Innovation and Promise Neighborhoods
- Maintains an expectation that there will be accountability and action to effect positive change in our lowest-performing schools, where groups of students are not making progress, and where graduation rates are low over extended periods of time.

Centered on these components, the JUSD Local Plan and the PAAM Site Plan have developed three umbrellas of focus: 1) All students will be college and career ready. 2) All students will have a safe, orderly, and inviting learning environment. and 3) All students will benefit from the district engaging and sustaining the trust and involvement of parents and community in the educational process.

PAAM ensures that all students are college and career ready by the following:

- Creating a one of a kind music school: Research supports the value of music in a learning environment. Music can create an alpha state for learning, improve concentration, improve memorization, enhance imagination, and release anxiety. Classical music and music performance can help the brain develop dendrites and synapses accessing parts of the brain that cannot be accessed except through music. The building of these extended neurological pathways can help students develop deeper mathematical and ELA skills.

Music integrated into classroom instruction provides a welcoming atmosphere, energizes learning environments, and builds better learning communities. Rhyme, rhythm, and melodies can improve memorization skills and mathematical skills of students. Students can become more reflective, focused, and creative when music is infused into the instructional day.

- Maintaining a School-Wide AVID Program: Research like the College Spark Washington's College Readiness Initiative support the importance of AVID to students and teacher effectiveness. This case study concluded that AVID provides comprehensive professional development that increases teacher effectiveness, provides an instructional support model, builds a college- and career-going culture, and increases enrollment in rigorous courses, college-going rates, and persistence rates into the second year of college.
- Supporting English Learners: According to the CDE, "English learners (ELs) face the unique challenge of learning English as they are also learning grade-level content through English. The California Department of Education (CDE) and the State Board of Education (SBE) recognize that both designated and integrated English Language Development (ELD) is an integral part of a comprehensive program for every EL student to meet the linguistic and academic goals at their grade level."
- Supporting student achievement for all students- MTSS (Multi-Tiered System of Supports), or RTI (Response to Intervention), is a comprehensive system of differentiation supports that includes evidence-based instruction, universal screening, progress monitoring, formative assessments, summative assessments, researched-based interventions matched to student needs, and educational decision making using academic progress over time, as defined by ESEA Legislation, supporting all student success.
- Providing core curriculum opportunities to include math, ELA, science, social studies, and physical education to all students.
- Sustaining a systematic library management system to include textbooks and Chromebooks.
- Creating and participating in quality Professional Development- In accordance with the Learning Policy Institute Research regarding effective professional development, PAAM's PD

1. Is content focused
2. Incorporates active learning utilizing adult learning theory
3. Supports collaboration, typically in job-embedded contexts
4. Uses models and modeling of effective practice
5. Provides coaching and expert support
6. Offers opportunities for feedback and reflection
7. Is of sustained duration

PAAM ensures that the campus has a safe and orderly learning environment by the following:

- Implementing Multi-Tiered System of Behavior Support- The core features of MTSS behavior research include: expectations for high quality, research-based instruction in general education classrooms; universal, classroom-based screening to identify need for additional support; collaborative, team-based approach to development, implementation, and evaluation of alternative interventions; increasingly intense, multi-tiered application of an array of high-quality, evidence-based instruction matched to individual needs; continuous monitoring of progress to determine impact of interventions; and expectations for parent involvement throughout the process.
- Employing a Health Care Aide- According to the JUSD job description, health care aides duties are "under general supervision, to perform a variety of activities including specialized health care services; to assist the school nurse and other staff in providing health program assistance, to maintain health records, referrals and reports, and to assist students with other health related needs."
- Maintaining a safe and aesthetically pleasing learning environment: Researchers like Chan (1980), Bowers and Burkett (1987), Cash (1993), Hines (1996), and Lanham (1999) have demonstrated a clear positive link regarding facility modernization and student achievement.

PAAM ensures that the campus has a welcoming and engaging school environment in which parents are active participants by the following:

- Providing an efficient, effective, and ethical office staff- To paraphrase the book, Delivering Knock Your Socks Off Service, a school's office staff is the company. Parents make immediate judgements regarding the school based upon the actions of the office staff. The staff must be reliable, responsive, reassuring, empathetic, personable, and polite.
- Maintaining office space reflective of the theme of the school, the organization of the school, and the temperament of the school.
- Cultivating shared leadership through parent organizations like SSC, ELAC, Booster Club- Researchers like McCallister (1990), Jeynes (2007), and Leithwood and Mascall (2008) describe the importance of parent involvement and leadership with increasing student achievement.
- Maintaining open communications between school and home through Peachjar, social media, Dojo, school marquee, and Q Communications.

As a Title I Schoolwide program, we do a Comprehensive Needs Assessment annually, develop our SPSA with stakeholder involvement, include strategies that support state standards and address the needs of all children but particularly those at risk of not meeting these standards with activities, strategies, and interventions that are evidence-based and outlined as part of our SPSA. Our SPSA implementation is monitored and evaluated through ongoing Leadership team, SSC/ELAC, SBCP meetings, principal meetings, and annual Budget/Program meetings. The SPSA is revised to ensure continuous improvement based on data analysis of student learning needs as part of the school's ongoing practices and identification of support strategies. All Title I funding supplements and does not supplant services that students would otherwise receive if not participating in a Title I program. Relative to LCAP alignment, our plan is directly coordinated with district LCAP goals, associated services, and planning requirements.

## Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### Involvement Process for the SPSA and Annual Review and Update

The entire community is involved with the school plan through surveys, parent meetings like SSC and ELAC, staff meetings, and leadership meetings. PAAM has a student council for upper grade students that also gather together to share thoughts, ideas, and provide input. In addition, the district helps support PAAM by providing support, recommendations, and workshops.

# School and Student Performance Data

## Student Enrollment Enrollment By Student Group

## Student Enrollment Enrollment By Grade Level

Student Enrollment by Grade Level			
Grade	Number of Students		
	18-19	19-20	20-21

Grade 5	31	49	43
Grade 6	40	34	46
Grade 7	32		
<b>Total Enrollment</b>	350	321	313

### Conclusions based on this data:

1. There has been a decline in enrollment in the last two school years.
2. Second grade has the most students while first grade has the least number of students.
3. Fourth grade enrollment as decreased over the past two years.

2019-20 Data:

Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year, thus no data is available to report for this year.

**Conclusions based on this data:**

- Overall, those student meeting or exceeding the standard increased by nearly 9%. This was just shy of the 2017-2018 SMART goal of 10%. PAAM's fourth graders made tremendous gains by increasing exceeding and/or meeting the standards by 23.48%. They were followed closely by fifth graders making 18.61% gains and sixth graders making 18.45% gains. However, third graders slid back 15.75%.

2. Fourth, fifth, and sixth graders made growth in reading and writing. Fifth grade double their scores for students above the standard for reading. Fourth graders tripled their scores for listening. Third graders lost ground in all areas. All students need additional support regarding Listening, Research/inquiry, Writing, and Reading, but more intense work is needed with cohort students now in fourth and seventh grade.
3. More staff development is needed regarding Research/Inquiry. During the 2017-2018 and 2018-2019 school year, emphasis has been on guided reading instruction and skills. The site will be seeking out PD specifically for research and inquiry. Due to school closure will not have current data for next steps. However, there is a need to add more support in providing intervention supports in the area of ELA.

**Conclusions based on this data:**

1. Due to COVID data was not complete however math supports and intervention will be implemented to support student learning loss.
2. Due to COVID data was not complete. Continued efforts to support number sense.
3. Instruction needs to continue to move to the higher levels of DOK: moving from Level 1 (Recall) to Level 2 (Skill/Concept) to Level 3 (Strategic Thinking) to Level 4 (Extended Thinking)

**Conclusions based on this data:**

1. Due to COVID and Executive Order ELPAC data is incomplete.
2. Bilingual Language Tutors continue to support our EL population regarding English acquisition and curriculum.
3. ELPAC results are analyzed to support ELD instruction.

# School and Student Performance Data

## Student Population

Although both Senate Bill 98 and Assembly Bill 130 suspended the publication of state indicators on the 2020 and 2021 California School Dashboards, these bills also required the reporting of valid and reliable data that would have been included in these Dashboards.

To meet this requirement, CDE has made available the Enrollment, Graduation Rate Additional Report and the College/Career Measures Report data available. All other reports are not available for 2020 and 2021.

This section provides information about the school's student population.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

### 2019-20 Enrollment for All Students/Student Group

<b>Hispanic</b>	249	79.6
<b>Two or More Races</b>	7	2.2
<b>Native Hawaiian or Pacific Islander</b>	2	0.6
<b>White</b>	32	10.2

**Conclusions based on this data:**

1. Demographics continue to remain relative about the same over the past couple of years.
2. Hispanic and EL enrollment student groups are higher than other student groups identified.
3. Students with disabilities is 15.7 percent of PAAM student population. There are TK/1 SDC class and 2/3 SDC class and students who receive RSP support to students with disabilities.

# School and Student Performance Data

## Overall Performance

Although both Senate Bill 98 and Assembly Bill 130 suspended the publication of state indicators on the 2020 and 2021 California School Dashboards, these bills also required the reporting of valid and reliable data that would have been included in these Dashboards.

To meet this requirement, CDE has made available the Enrollment, Graduation Rate Additional Report and the College/Career Measures Report data available. All other reports are not available for 2020 and 2021, thus the most recent data (2019 Fall) is provided here.

#### Conclusions based on this data:

1. CDE Dashboard Latest Data:

All reports for the 2020 and 2021 school year are not available but the 2019 Fall data is provided and presented here:

The suspension rate is low. This may be in part due to our MTSS/RTI for behavior and the Behavior Team that works with individual students. Communicating with parents has helped with supporting the low suspension rate. Our suspension rate is orange and increased by 2.1% with overall suspension rate of 2.6%. The student group we will focus on are our Students with Disabilities who increased by 4.9% and are in the red performance level.

**2.** CDE Dashboard Latest Data:

All reports for the 2020 and 2021 school year are not available but the 2019 Fall data is provided and presented here:

ELA had a slight decline of 4.5 points which lowered our performance level to orange from yellow with all student groups maintaining performance levels. Mathematics had a 9.6 point increase from focus of last year on mathematics instruction with highest increases with English Learners, Hispanic and Socioeconomically Disadvantaged with growth of 19.6 points, 11.7 points, and 10.6 points relatively. We will focus on literacy and language support for students.

**3.** CDE Dashboard latest Data:

All reports for the 2020 and 2021 school year are not available but the 2019 Fall data is provided and presented here:

To continue to support Chronic Absenteeism, parent attendance meetings, chronic absenteeism meetings, SART, and SARB meetings are implemented. This year we were green with a 1% decline to a Chronically Absenteeism rate of 9.9% which is lower than state but still focus for support based on district focus. The subgroup we will focus on will be our White students who increased by 14.6% (40 students).

1. CDE Dashboard Latest Data:  
 All subgroups were correlative to the school as a whole and declined in ELA.

2. Although all classrooms have designated and integrated ELD and all use SIDAE strategies, more support is needed with bridging English acquisition and content acquisition to increase EL performance on the California Dashboard.
3. Higher level of DoK instruction is needed in ELA instruction. This is true for our EO population as well.

### Conclusions based on this data:

1. English Learners continue to develop toward ENglish Language Proficiency. Pacific Avenue will continue to provide first best instruction and small-group differentiated instruction to meet the needs of all students and improve student achievement. Supplemental staff will provide additional help where needed based on data.
2. Data shows students continue to develop. Teachers will continue to provide daily integrated and designated ELD based on student language needs.

# Goals, Strategies, & Proposed Expenditures

## Goal 1.0

College and Career Readiness

### State and/or Local Priorities addressed by this goal:

State Priorities:        Priority 2: State Standards (Conditions of Learning)  
                                  Priority 4: Pupil Achievement (Pupil Outcomes)  
                                  Priority 8: Other Pupil Outcomes (Pupil Outcomes)

Local Priorities:        P2

### Identified Need from the Annual Evaluation and Needs Assessment:

SEL will continue to be a focus for staff and students along with academics. Teachers will continue to assess students needs through NWEA, formative/summative assessments and teacher made assessments to identify student barriers to learning to play daily instruction. Grade level teams and department teams will continue to collaborate to meet the diverse student needs.

There is a need for math intervention across all grade levels, a math intervention teacher will be placed at the site to support teachers in math and to provide math intervention to students who may be at-risk of not meeting grade level standards. Additional staff will continue to be provided so that teachers and students have additional support in the classroom.

Teachers will be given additional time to plan and collaborate on strategies to close the achievement gap for the students.

Professional Development: Teacher's will be given the opportunity to attend conferences, workshops, and trainings to support academic instruction. By giving teachers the opportunity to attend professional development trainings it will support instruction in order to improve student learning by building teachers' mathematical and ELA knowledge; capacity to notice, analyze, and respond to students; productive habits; and collegial relationships and structures that support student learning and distance learning.            Measures: Agendas</p> <p>Gate Facilitator: GATE facilitator will coordinate opportunities to support GATE instruction GATE students to participate in. These opportunities will focus on topics that extend from the classroom or from state standards in ELA, Math, Science, and Social Studies.</p> <p>C. <p>1.3 State Standards are fully implemented to increase student achievement.</p> <p>A.</p>	<p><u>X</u> All Students</p>	<p>Provide materials and supplies to support instruction. 4000-4999: Books And Supplies</p>

Collaboration: Extra Grade Level release time for collaboration time is provided for teachers to plan using data, discuss research-based instructional strategies that work, participate in quality staff development.

Measures: Collaboration agendas and minutes, Copies of accomplished tasks

B.

Instructional Support: Provide coverage for teachers to observe their colleagues to support in providing quality instruction through demonstration, professional articulation, modeling, and provide feedback, technical support and design assessments to guide instruction.

Measures: Notes, Copies of materials

C. Instructional supplies will be purchased based upon grade level and Leadership Team quantitative observations and requests. Instruction is deliberately designed so that students:

- Build computational skills through math review and mental math emphasizing the development of number sense as students practice procedural mathematics and computational skills every day
- Develop mathematical reasoning and problem-solving abilities by providing both a structure for problem-solving activities and understanding.
- Deepen conceptual understanding by focusing instruction on grade level standards that are essential for student learning and are driven by performance indicators.
- Develop reading foundational and reading comprehension skills and support writing skills
- Gain mastery of math facts through student understanding of patterns
- Demonstrate understanding in a variety of assessment formats that align with state standards.
- Support Music and music standards based instruction

Measures: math support, Lesson plans, PLC minutes, Leadership Team Meeting Minutes, ELA and writing support

E. Assessments: Teachers will be provided with resources to create grade level assessments. Also, supplemental resources will be considered and used to support students in academic achievement on informal and formal assessments.

Measures: informal & formal assessment data

Metric/Indicator	Expected Outcomes	Actual Outcomes
P4: CAASPP Assessments - ELA and Math	2019-2020 Due to School Closure there will be no data. 2021-2022 Expected outcome: Due to distance learning there will be no data.	Due to the suspension of the 2020 and 2021 Dashboard, expected outcomes will be established on Spring 2022 CAASPP administration as reported on Fall 2022 Dashboard.
P2: Teacher-Made Assessments	2021-2022 Expected outcome: Due to distance learning teachers have been unable to implement Units of Study formative assessments.	2021-2022 Teacher-Made Assessments  Teachers used web-based resources to support teacher made assessments such as Seesaw, EduPuzzle, Google Class to implement more formative assessments to drive instruction.
P8 Other student outcomes - DIBELS Assessments	2019-2020 DIBELS The 3rd DIBELS assessment was not given due to school closure. 2020-2021 DIBELS assessments were not used for the 2020-2021 school year.	There is no more DIBELS.
P8 Other student outcomes - Istation Assessments	2019-2021 Istation Due to school closure teachers were unable to give Istation assessments. 2020-2021 Expected outcome: The results of the 2020-2021 Istation in ELA and Math will be used as a baseline for planning in these two areas.	No new I-Station data. The NWEA assessment was given for the 2021-2022 school year.  Number of students currently in each tier per grade level: 4th: T1: 11 T2: 10 T3: 13 5th: T1: 16 T2: 11 T3: 11 6th: T1: 19 T2: 3 T3: 9

Metric/Indicator	Expected Outcomes	Actual Outcomes
P4: Language Assessments - ELPAC	<p>2019-2020 Due to school closure there will be no data.</p> <p>2020-2021 Expected outcome: All students will have a 1% increase within levels 3 and 4 as evident on the ELPAC test scores.</p>	<p>2021-2022 ELPAC data includes 2.60 EL students are proficient</p> <p>Level 1 40.26% Minimally Developed</p> <p>Level 2 36.36% Somewhat Developed</p> <p>Level 3 20.78% Moderately Developed</p> <p>Level 4 2.60% Well Developed</p>
P8:Other student outcomes - MDTP/Read 180	<p>2021-2022 Expected Outcome: The results of the 2020-2021 MDTP &amp; Read 180 Diagnostic Test will give 6th grade teachers a baseline on the progress of their students in regards to the 6th grade ELA Standards</p>	<p>Due to CAASPP flexibility, a local assessment was used. The MDTP results as level equipments are as follows:</p> <p>Math Not Met: 51% Nearly Met:32% Met: 13% Exceeded: 4%</p> <p>ELA Not Met: 50% Nearly Met: 30% Met: 11% Exceeded: 9%</p>

**Planned  
Actions/Services**

Assessments

C. Instructional supplies will be purchased based upon grade level and Leadership Team quantitative observations and requests.

Measures: PLC minutes, Leadership Team Meeting Minutes, Balanced Math

D. Instruction is deliberately designed so that students:

- Build computational skills through math review and mental math emphasizing the development of number sense as students practice procedural mathematics and computational skills every day
- Develop mathematical reasoning and problem-solving abilities by providing both a structure for problem-solving activities and understanding.
- Deepen conceptual understanding by focusing instruction on grade level standards that are essential for student learning and are driven by performance indicators.
- Gain mastery of math facts through student understanding of patterns
- Demonstrate understanding in a variety of assessment formats that align with state standards.
- Include distance learning supports when and as needed.

**Actual  
Actions/Services**

C. Supplies are purchased when needed. IXL was purchased to support mathematics instructions for students in the classroom and for at home use.

D. All classrooms have a balanced math program which include conceptual understanding as well as calculation. All classrooms do DMR, Math FUN, and Mental Math appropriate to the grade level understanding.

E. Teachers utilize formative and summative assessments to drive instruction. All teachers use the UoS formative assessments for ELA and are building deeper formative assessments for math.

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Pacific Avenue Academy of Music is a wonderful campus that combines both academic and music instruction. As a result of returning to in-person learning, PAAM altered its method for delivering music instruction. Appropriate face mask coverings were needed to provide music instruction indoors for wind instruments and for choir. PAAM musical performances for the 1st and 2nd trimester were virtual performances and the 3rd trimester provided opportunities for in-person musical performances. Students in grades TK-6th had access to the following technology software that was either purchased by the school district or the school site to support in-person learning instruction:

- PowerSchool Learning (PSL)
- Google Suite
- Screencastify for recording tutorials and lessons for students, parents, and teachers
- EduPuzzle to assist with formative assessments
- Sanford Harmony online SEL (Social Emotional learning) preK-6
- SeeSaw for digital portfolios and provide students in grades
- RAZ Kids

Grade level team leaders and Impact Teams collaborated with their grade level team to implement the California state standards through the use of UOS and following the new suggested pacing guides. Grade levels teams meet bi-weekly or as needed to collaboratively plan academic instruction, discuss instructional strategies, and analyze student work as well as assessment student data. Teachers had another opportunity in the school year to participate in Alludo training provided by the district to support teachers with learning academic webbased instructional tools such as Google Classroom, SeeSaw, PearDeck, EduPuzzle to name a few. Grade level teams were provided grade level release time to collaborate for classroom instruction and if needed collaborate with district coordinators focused on Units of Study, NWEA data, and or Impact Teams. UOS continues to be implemented site wide. Classroom observations, grade level planning, and data analysis reflect the implementation of UOS as well as common assessment across the grade level such as NWEA benchmark data. Reading intervention has been fully implemented across all grade levels as evidenced by master schedules submitted. The district has paid for a Math intervention teacher to support students with math support in all grade levels.

ELD has been fully implemented in grades TK-6. Classroom schedules reflect designated ELD instruction daily in every classroom. Observations reflect integrated ELD across subject areas. BLTs support ELD instruction as well.

Grade Levels were provided all AVID supplies by the district and PAAM is an AVID school.

PAAM's collected data to support student learning indicates a continued commitment to refine ELA and Mathematics instructional best practices. Such practices include, providing collaboration time to support expanding and refining Impact teams, AVID strategies and implementation, Primary and Upper grade Intervention for reading foundational practices, Guided reading small group support in upper grades, and Inclusive practices school wide. Goals in ELD will continue to be examined and refined to support our English Learners with first best instructional practices. ELO opportunities were provided to students for 3 trimesters.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Many strategies & activities have been fully implemented to support improved attendance which reflects a safe and orderly learning environment. Attendance Intervention meetings and SART/SARB meetings have been put in place to achieve the goal of a safe and orderly learning environment. Student of the Month awards were given to support students in being safe, respectful, and responsible. To continue the school to home connection motivational and positive post cards were mailed home to students to encourage school community. Student internet connectivity was a big area of focus as the media clerk, technology coordinator and office staff offered support with hotspots. Q Communication (parent Square), Attendance letters, and Class Dojo were also resources used to communicate to parents attendance goals school wide.

The Student Study Team collaborated to support students and implement intervention strategies consistently throughout the school year. Health Care clerk provided PICO resources to families as needed. Students received clothes, glasses, shoes, food, Christmas items, and vital health care information. PBIS/BSEL social skills implementation is ongoing throughout the school year. A BSEL Matrix that includes PBIS daily lessons, SEL Google Slide daily lessons, Class Dojo SEL support, and district provided SEL resources was created for teachers to implement "Morning Meetings" to support social emotional learning. Students are reminded and encouraged to meet behavior expectations in daily morning meetings and the Live School Announcements.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Students, teachers, and parents reported that the attendance incentives and awards have made a positive impact on student learning. The Leadership team met to develop criteria for eligibility of receiving a Student of the Month award. The Student Study Team met at the beginning of the year to update SST current practices which resulted in the Student study team successfully meeting with students and parents in a more timely and consistent manner to identify students academic strengths and weaknesses to provide needed interventions and academic supports for students. The efforts of the health care aide to support families has resulted in maintaining current student health documentation and records and to help parents have access to district resources provided by PICO to support students and families during COVID.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Due to COVID-19 one time monies, actions and services that were planned to be funded through LCFF, Title I and Title III were reallocated to these one-time monies. There were planned actions and expenditures that were implemented due to the impact of COVID-19.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

To meet the need to provide students with a safe, orderly and inviting learning environment there is a need to continue focus on BSEL & PBIS education during the instructional day with the the additional support of an intern or part-time Behavioral therapist to provide student, teacher, staff, and parent support to address the social emotional needs of students as students return to in-person instruction since school closures due to COVID. The SST coordinators, Grade Level

Teams, and Impact Teams will need time at the beginning of the year to discuss proactive steps to meet the diverse learning needs of students. The School Site Safety team will need time to collaborate and review PAAMs Safety Plan to support students, teachers, and parents in staying healthy and safe on campus. The safety plan was practiced during the Great Shake Out in October.

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Parent outreach continues to address academic, health, and safety concerns. We want to improve on the translation of all items that are sent home in print, Parent Square, Class Dojo, and on Social Media. A Translator Clerk Typist also provides translating for phone calls and school notifications. Additional modes of communication are in place such as the PowerSchool Learning, school marquee, school website, Facebook, twitter, and Instagram. Teachers continue to implement the use of Class Dojo to keep parents informed of classroom activities and student progress.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Due to COVID, parent involvement opportunities were expanded to include virtual parent workshops that focused on various topics such as Back to School Night and parent conferences. IEP's were held virtually up until 3rd trimester when there was an option to hold IEP's virtually and in person. During third trimester visitors were allowed on campus and efforts were made to hold parent meetings in person.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Due to COVID-19 one time monies, actions and services that were planned to be funded through LCFF, Title I and Title III were reallocated to these one-time monies. There were planned actions and expenditures that were implemented due to the impact of COVID-19.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Parent communication was increased through Q Communication (Parent Square), Class Dojo, and Social Media platforms. Families have been informed of this new way of communication and they have been using it. Music Performances and workshops, Student Literacy Nights, Math FUN Nights, Fall and Spring Festivals will continue as CDC guidelines allow these types of activities to occur in efforts to promote parent, student and community engagement at PAAM.

# Budget Summary and Consolidation

The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

## Budget Summary

Description	Amount
Total Funds Provided to the School Through the Consolidated Application	156,109
Total Funds Budgeted for Strategies to Meet the Goals in the SPSA	394,892.00

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Hilliary Salley	Principal
Crystal Amaya	Parent or Community Member
Emilee Fox	Parent or Community Member
Tiffany Del Valle	Classroom Teacher
Robyn Anderson	Classroom Teacher
Erika Krause	Classroom Teacher
Eugene Moreno	Other School Staff
Christina Gomez (Alternate)	Parent or Community Member
Kassandra Fisher	Parent or Community Member
Vanessa Kolar	Parent or Community Member
Amanda Maytorena	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature	Committee or Advisory Group Name
	English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on May 17, 2022.

Attested:

Principal, Hilliary Salley on May 17, 2022
SSC Chairperson, Emilee Fox on May 17, 2022

For additional questions or technical assistance related to completion of the SPSA template, please contact the Local Educational Agency, or the CDE's Title I Policy and Program Guidance Office at [TITLEI@cde.ca.gov](mailto:TITLEI@cde.ca.gov).

## Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the Annual Evaluation and Update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

## Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

## Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

## Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

### **Planned Strategies/Activities**

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

### **Students to be Served by this Strategy/Activity**

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

### **Proposed Expenditures for this Strategy/Activity**

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

### **Annual Evaluation and Update**

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

### **Analysis**

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

## **Budget Summary and Consolidation**

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

### **Budget Summary**

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

### **Consolidation of Funds**

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

# Appendix A: Plan Requirements for Schools Funded Through the ConApp

## Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Evaluation and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in EC Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to EC Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in EC Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: EC sections 64001(f)-(g) and 52853(a)(1)-(7).

## Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
  - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
  - b. use effective methods and instructional strategies based on scientifically based research that
    - i. strengthen the core academic program in the school;
    - ii. provide an enriched and accelerated curriculum;
    - iii. increase the amount and quality of learning time;
    - iv. include strategies for meeting the educational needs of historically underserved populations;
    - v. help provide an enriched and accelerated curriculum; and
    - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
  - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
    - i. strategies to improve students' skills outside the academic subject areas;
    - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
    - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
    - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
    - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Evaluation and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
  - a. strategies to attract highly qualified teachers;
  - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
  - c. the devotion of sufficient resources to effectively carry out professional development activities; and
  - d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
  - a. Ensure that those students' difficulties are identified on a timely basis; and
  - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
