ARTS

Crafts and Design

Grades: 9-12   **10 Credits**   **Year**

Prerequisite: No prerequisites

This course is designed to develop student interest and understanding of many popular craft forms derived from cultures from around the world. It will introduce techniques, tools, and processes using the Elements and Principles of Design in the production of art that is both aesthetically pleasing and functional. A focus will be on learning about folk and craft arts from different time periods and cultures using a variety of media, including paper, fiber, metal, paint, and other materials. The course is aligned with the California Visual Arts Standards. Students will use creative problem-solving, and individual and group critiques with opportunities to describe, analyze, interpret, and judge their works of art.

Meets the Visual Arts Graduation Requirement

Submitted for "f" a-g Requirement

CAREER AND TECHNICAL EDUCATION

Agricultural Leadership

Grades: 12   **10 Credits**   **Year**

Prerequisite: Successful completion of CTE Agriculture pathway

This course is for students who have completed an Agriculture CTE pathway and want to expand their knowledge and experience in the agriculture industry while building leadership skills to support FFA activities.

Meets the Vocational Education Graduation Requirement

- -

Intro to Computer Support

Grades: 11-12   **10 Credits**   **Year**

Prerequisite: No prerequisites

This is the first course in a two-course pathway in the Information and Communication Technology industry. In this course students learn to maintain and repair an organization's hardware systems, such as Chromebooks, desktops, laptops, etc.; install new computer operating systems; troubleshoot any hardware issues and monitor the system for any problems while developing soft skills and the practice of providing excellent customer service in a helpdesk setting..

Meets the Vocational Education Graduation Requirement

SOCIAL SCIENCE

Ethnic Studies Seminar

Grades: 10-12   **5 Credits**   **Semester**

Prerequisite: No prerequisites

This course provides an introduction to the interdisciplinary field of ethnic studies, examining the experiences, histories, and contributions of various ethnic and racial groups in America. Through an exploration of personal and ethnic identity, local ethnic diversity, the achievements of all Americans, and opportunities for activism, students will develop a critical understanding of the complexities of race and ethnicity in our contemporary society.

Meets the Elective Graduation Requirement
