

BITA – PROJECT LEAD THE WAY

(BITA) is a comprehensive four-year high school program developed by BIA member companies and education leaders. BITA offers a curriculum aimed at producing skilled professionals who will be qualified and confident to enter the homebuilding workforce. Students enrolled in BITA courses become immersed in the various aspects of homebuilding trades and careers by completing hands-on construction assignments such as framing, roofing, reading blueprints, mechanical installations, plumbing, site preparation, solar panel installation, and more.
