

Patriot High School
AP European History Summer Work Packet
2019-2020 School Year

Welcome to AP European History!

For most of you, welcome to your first AP course! As this is an Advanced Placement class, it will be taught in a similar manner to a Western Civilization/Humanities course in any college. You will learn about European history from approximately 1450 continuing through to the present day. Through this study you will acquire, hopefully, an understanding of the major issues that have faced humanity throughout the past 700 years. Besides acquisition of historical knowledge, you will also learn to write historical essays and analyze historical documents as actual historians do, all while participating in your first college-level class. If you have any questions, contact me through email.

To prepare you for August, I have assigned the following assignments for you to complete prior to the first day of school.

So, try to watch some documentaries over the summer.

Shortly after returning from the summer, I will give a test based on the map work above. If you have any questions regarding this work please email me, I will be checking my school email periodically at victoria_bautista@jusd.k12.ca.us.
