DEAR PARENTS,

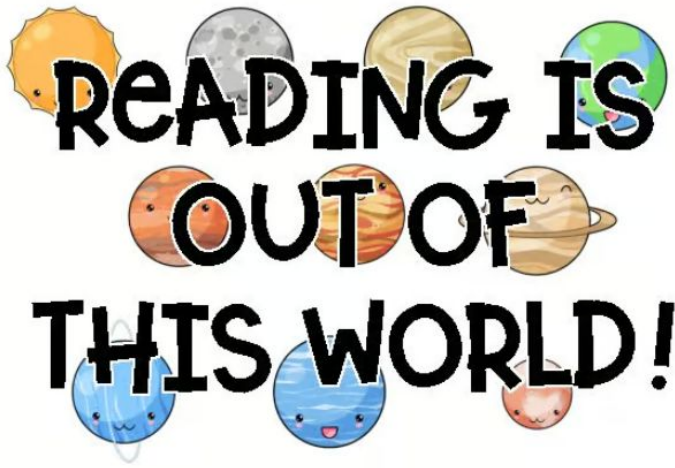

This year we will be using outer space reading logs. Students will start at the sun and work their way around the solar system. Once they complete 30 days of reading, they will move to the next planet.

They will fill in a line for each day they read at least 20 minutes. Even if they read more than 20 minutes, they will only fill in one line per day. The goal is to develop a habit of reading and a love of reading.

I understand that there are some nights that reading may not be possible, that's ok! I want your child to love to read, and I want them to complete the log at a pace that works for them. If they need a day off, give them one and read again the next day!

Please encourage and celebrate your child's reading as they complete each log!
