## Measure E: Frequently Asked Questions and Voting Information

**What is Measure E?** On November 18, the JUSD Board of Trustees unanimously voted to place Measure E, a \$192 million local school improvement bond measure, on the March 3, 2020 ballot. A measure would help JUSD provide modern classrooms, labs and facilities to all local students.

**How do I know funds from Measure E would be used responsibly?** Measure E would require strict fiscal accountability provisions, including a project program list, Citizens' Oversight Committee and independent audits. All money would stay local to support JUSD schools and could not be taken away by the State.

**Doesn't the State fund school facility improvements?** The State provides very limited funding for facilities improvements.

Measure E would provide the local control necessary to complete prioritized projects. In addition, if approved, a measure would help our schools qualify for millions in state matching funds – funds that would otherwise go to other communities.

**What level of support would Measure E need to pass?** This measure would need to be supported by 55% of those who vote on it in order for it to pass. All registered voters living in Jurupa Unified School District are eligible to vote on Measure E.

**How can I register to vote or learn more about voting?** You can register to vote at [www.registertovote.ca.gov](http://www.registertovote.ca.gov). To find out more about voting in this election, please contact the Riverside County Registrar of Voters at (951) 486-7200 or [www.voteinfo.net](http://www.voteinfo.net).

**How can I learn more about Measure E?** You can learn more at [www.JurupaUSD.org/measureE](http://www.JurupaUSD.org/measureE). You can also contact Robin Griffin at [robin\\_griffin@jUSD.k12.ca.us](mailto:robin_griffin@jUSD.k12.ca.us) or (951) 361-6571 with any questions.

# Measure E: Local Classroom Repair and Upgrade, and College and Career Readiness Measure

Jurupa Unified School District (JUSD) schools provide a high-quality education to all students by providing school facilities where they can learn without limits. While some of our schools have modern classrooms, labs and career training facilities, most do not, and are in need of repairs and upgrades.

## Safe and Updated Learning Environments at All Schools

We want to provide students in older schools with the same learning opportunities as those in newer schools, including in science, technology, engineering, arts and math.

Additionally, the majority of schools still require upgrades to centralized lockdown systems, security fencing, security cameras, emergency communications systems, smoke detectors, fire alarms and sprinklers.

## Local Funding to Address Facilities Needs

On November 18, the JUSD Board of Trustees unanimously voted to place Measure E, a \$192 million local school improvement bond measure, on the March 3, 2020 ballot.

Improving school facilities, including music, arts and athletic facilities, would help local students stay on track and out of trouble. Modernizing classrooms, labs and career training facilities would help prepare students for success in careers and college.

## Measure E: Local School Improvement Measure

If approved by 55% of local voters, Measure E would cost the typical homeowner approximately \$98 per year to:

- Improve student safety and campus security systems
- Repair or replace deteriorating roofs, plumbing, sewer lines, electrical systems and wood beams with extensive termite damage where needed
- Remove hazardous materials like asbestos and lead paint, as needed, from older schools
- Provide the classrooms, facilities, equipment and technology needed to support high-quality instruction in math, science, engineering and technology
- Keep computer systems and instructional technology up-to-date
- Provide modern labs and career training facilities at each high school so all students are prepared for college and in-demand careers in fields like health sciences, engineering, technology and skilled trades

## Mandatory Fiscal Accountability

- All money would stay local to support JUSD schools and could not be taken away by the State
- A project program list, a Citizens' Oversight Committee and independent audits would be required
- No money from this measure could be used for administrators' salaries or benefits

## SAMPLE BALLOT

Jurupa Unified School District  
MEASURE E

*"To repair deteriorating roofs/plumbing/electrical systems; update classrooms/labs/facilities/technology to support college readiness/career preparation in math, science, engineering, technology, arts/skilled trades; upgrade older schools to meet the same academic/safety standards as newer schools, and improve student safety; shall the Jurupa Unified School District measure authorizing \$192,000,000 in bonds at legal rates be adopted, levying 4¢ per \$100 assessed value (\$10,800,000 annually) while bonds are outstanding, with citizen oversight, independent audits, local control?"*
