Community Schools Update

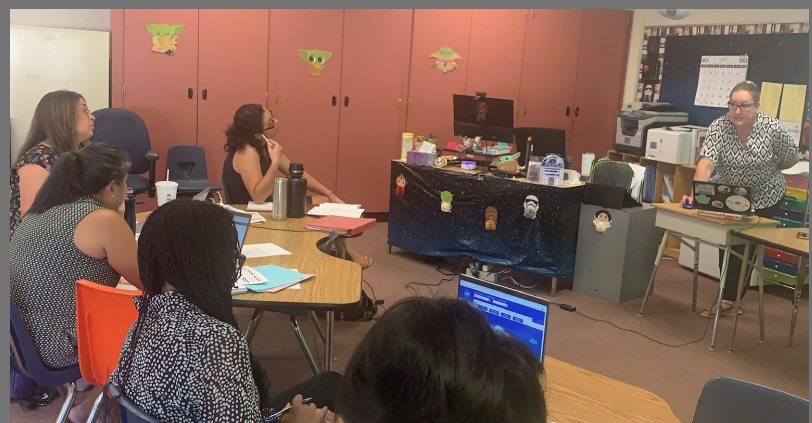

"CHANGE MOVES AT THE SPEED OF TRUST"

Our Community Schools Teachers on Special Assignment-TSA's have been working together to establish trust as a team at their school sites.

The TSA's have met with Olga Alferez, Director of Student Welfare and Supports, to learn about the data each school has on attendance. She expressed the importance of having a positive problem solving approach.

They have also been involved at the sites to support Family Math Night, Walk to School, Strengthening Families, and Kindness Week. Día de Los Muertos lessons were done at Rustic Lane to prepare for their event on November 1st.

TSA's began the work of getting trained for Restorative Practices, Dinosaur School, and Incredible Years. Once they are trained they will be able to foster those strategies and programs at their sites.

CCSPP: Cohort 1 Community Schools TSAs

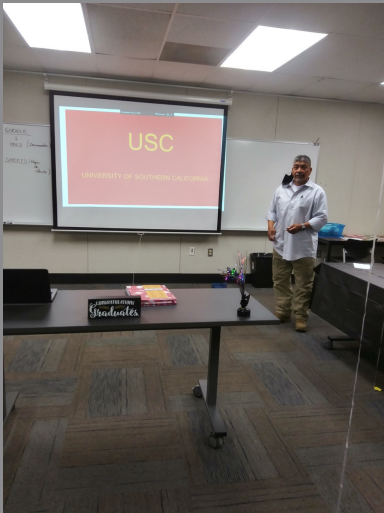

Rubidoux High School, Delia Toscano
West Riverside, Teresa Chavez
Rustic Lane, Melissa Martinez-Lanz

Mission Middle School, TBD
Ina Arbuckle, Maria Gadsden
Troth Street, Jovanka Martinez

Building Trust

Jtep

Jurupa Technology Education for Parents-Jtep had it's level 1 group graduate and move on to level 2. They all did presentations on a University and learned essential technology skills.

Strengthening Families

West Riverside Elementary started Strengthening Families and is now into their third week. Classes are for parents and students on site and they also provide dinner to the families with an opportunity to engage and build trust with the school and the family unit.

Families receive a goodie basket with a game.

Restorative Practices

PICO guided the learning for Restorative Practices Training where several TSA's attended.

Teams learned about ways to have conversations with affective statements and help support wellness.

Dinosaur School and Incredible Years Training

On October 17 three of our TSA's, Jovanka Martinez, Teresa Chavez, and Maria Gadsden participated in the Incredible Years training to learn how they will implement this program at their sites. Each site TSA will lead the program at their site. It will include lessons on how parents can engage with their children and also have lessons for the students in their classrooms.

Neighborhood Healthcare

PICO has been working with Neighborhood Healthcare to provide dental cleaning and x-rays to our students. We have collaboratively worked on getting the message out to the families.

Learning Without Limits

When Rubidoux High School TSA Delia Toscano asked if we had a socks available to support several student requests for socks, we worked as a team to ensure our students received what they needed. Here is Christopher Mercado making the delivery and continuing the work of learning without limits.
