Families Struggle to Navigate Fragmented Systems

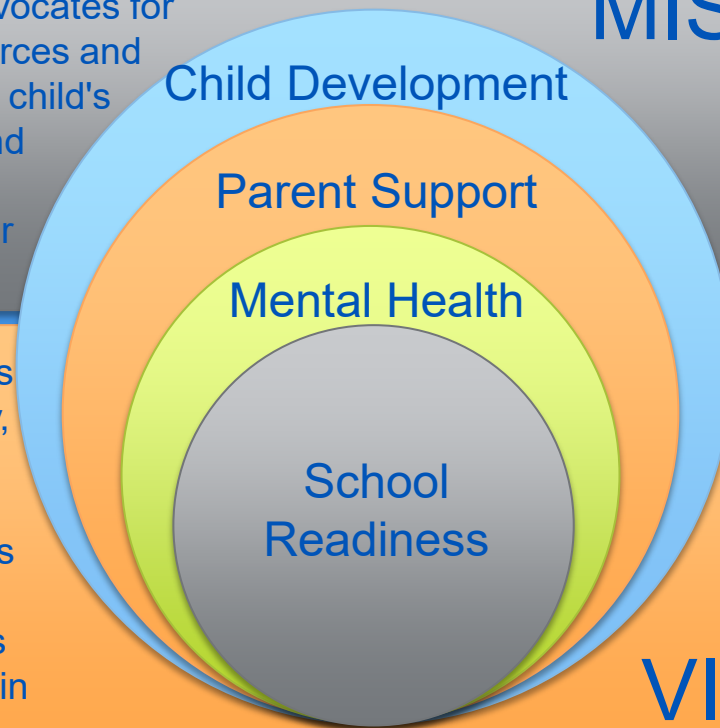

PICO: One Multi-Service System

Strengthen the individual, family, and community by encouraging parents to become advocates for their child's education, providing resources and services that will foster the growth of a child's development and school readiness, and connecting community organization to collaborate towards building a healthier connected community.

MISSION

We are committed to providing families with resources that will build resiliency, support positive parent-child relationships, and promote academic success for students by linking families to services. This is done by building a network of resources and partnerships with local agencies and members within the community.
